Tobias, 1971      **Internet Poker** Lou Krieger, Kathleen Keller Watterson, 2003 Playing Internet poker in real time against real opponents might just represent poker's brave new world. Whether for play money or real money it's an environment consisting of virtual tables, player icons representing you and your opponents and specialized computer algorithms that randomly shuffle the cards. It's a world where you can find a game day or night. Though it may be the wee hours of the morning in California it's prime time in Europe and someone somewhere is looking to play a little poker. But it's poker with a difference. The game is the same to be sure but technology does kick in sometimes in strange and unexpected ways. A reference as well as a tutorial, this book includes a CD with free poker software and a special bonus chapter with 125 interactive hands to help you prepare to play the Internet games for fun or for profit.

**SuperCash** James Altucher, 2006-03-20 James Altucher is scary smart and also a font of great and original ideas. So it's no surprise that *SuperCash* is so much fun to read and so devilishly informative. It is equally full of holy cow moments and why didn't I think of that moments. A true keeper. Stephen J. Dubner, coauthor of *Freakonomics*. Altucher describes in easy to understand terms the strategies used by the smartest managers in the world: those who are running the hottest hedge funds to show how they are making money today. *SuperCash* is a great primer for those who are looking to trade like the pros. And it helps that Altucher writes in a clear and fun style. John Mauldin, President of Millennium Wave Advisors LLC and author of *Bull's Eye Investing*. As hedge funds have become more mainstream, some of their strategies are less capable of producing extraordinary returns. In response, hedge fund managers and other sophisticated investors have found new ways to turn cash into supercash. Examine these new ways with hedge fund manager James Altucher and supersize your returns.

*The World's Wasted Wealth 2* J. W. Smith, 1994 Following the footsteps of Thorstein Veblen, Stuart Chase, Ralph Borsodi and others, J.W. Smith demonstrates the wasted labor within the American Economy at fully 50%. Eliminate the monopolization and wars which engenders that waste, share the remaining productive jobs and each employable person need work outside the home only 2 to 3 days per week. Publisher description.
