Future Of American Strategy:

The Future of American Strategy David C. Hendrickson, 1987 **America in the Third World** Steven Metz, 1994

Averting Crisis: American Strategy, Military Spending and Collective Defence in the Indo-Pacific Ashley

Townshend, Brendan Thomas-Noone, Matilda Steward, 2019-08-19 America no longer enjoys military primacy in the Indo Pacific and its capacity to uphold a favourable balance of power is increasingly uncertain The combined effect of ongoing wars in the Middle East budget austerity underinvestment in advanced military capabilities and the scale of America's liberal order building agenda has left the US armed forces ill prepared for great power competition in the Indo Pacific America's 2018 National Defense Strategy aims to address this crisis of strategic insolvency by tasking the Joint Force to prepare for one great power war rather than multiple smaller conflicts and urging the military to prioritise requirements for deterrence vis vis China Chinese counter intervention systems have undermined America's ability to project power into the Indo Pacific raising the risk that China could use limited force to achieve a fait accompli victory before America can respond and challenging US security guarantees in the process For America denying this kind of aggression places a premium on advanced military assets enhanced posture arrangements new operational concepts and other costly changes While the Pentagon is trying to focus on these challenges an outdated superpower mindset in the foreign policy establishment is likely to limit Washington's ability to scale back other global commitments or make the strategic trade offs required to succeed in the Indo Pacific Over the next decade the US defence budget is unlikely to meet the needs of the National Defense Strategy owing to a combination of political fiscal and internal pressures The US defence budget has been subjected to nearly a decade of delayed and unpredictable funding Repeated failures by Congress to pass regular and sustained budgets has hindered the Pentagon's ability to effectively allocate resources and plan over the long term Growing partisanship and ideological polarisation within and between both major parties in Congress will make consensus on federal spending priorities hard to achieve Lawmakers are likely to continue reaching political compromises over America's national defence at the expense of its strategic objectives America faces growing deficits and rising levels of public debt and political action to rectify these challenges has so far been sluggish If current trends persist a shrinking portion of the federal budget will be available for defence constraining budget top lines into the future Above inflation growth in key accounts within the defence budget such as operations and maintenance will leave the Pentagon with fewer resources to grow the military and acquire new weapons systems Every year it becomes more expensive to maintain the same sized military America has an atrophying force that is not sufficiently ready equipped or postured for great power competition in the Indo Pacific a challenge it is working hard to address Twenty years of near continuous combat and budget instability has eroded the readiness of key elements in the US Air Force Navy Army and Marine Corps Military accidents have risen aging equipment is being used beyond its lifespan and training has been cut Some readiness levels across the Joint Force are improving but structural

challenges remain Military platforms built in the 1980s are becoming harder and more costly to maintain while many systems designed for great power conflict were curtailed in the 2000s to make way for the force requirements of Middle Eastern wars leading to stretched capacity and overuse The military is beginning to field and experiment with next generation capabilities But the deferment or cancellation of new weapons programs over the last few decades has created a backlog of simultaneous modernisation priorities that will likely outstrip budget capacity Many US and allied operating bases in the Indo Pacific are exposed to possible Chinese missile attack and lack hardened infrastructure Forward deployed munitions and supplies are not set to wartime requirements and concerningly America s logistics capability has steeply declined New operational concepts and novel capabilities are being tested in the Indo Pacific with an eye towards denying and blunting Chinese aggression Some services like the Marine Corps plan extensive reforms away from counterinsurgency and towards sea control and denial A strategy of collective defence is fast becoming necessary as a way of offsetting shortfalls in America s regional military power and holding the line against rising Chinese strength To advance this approach Australia should Pursue capability aggregation and collective deterrence with capable regional allies and partners including the United States and Japan Reform US Australia alliance coordination mechanisms to focus on strengthening regional deterrence objectives Rebalance Australian defence resources from the Middle East to the Indo Pacific Establish new and expand existing high end military exercises with allies and partners to develop and demonstrate new operational concepts for Indo Pacific contingencies Acquire robust land based strike and denial capabilities Improve regional posture infrastructure and networked logistics including in northern Australia Increase stockpiles and create sovereign capabilities in the storage and production of precision munitions fuel and other materiel necessary for sustained high end conflict Establish an Indo Pacific Security Workshop to drive US allied joint operational concept development Advance joint experimental research and development projects aimed at improving the cost capability curve

Supporting U.S. Strategy for Third World

Conflict Commission on Integrated Long-Term Strategy (U.S.). Regional Conflict Working Group,1988 *Overseas Bases and US Strategy* Jonathan Stevenson,2022-08-01 Overseas military bases have been the bedrock of the United States ability to project military power exert political influence and deter potential adversaries since the Second World War But fatigue with America s forever wars as well as more nuanced financial and strategic reasons has inclined the public and policy community to favour reducing US global military activities and overseas presence In this Adelphi book Jonathan Stevenson argues that this desire does not necessarily translate into sound strategy Overseas bases are a key element of the reassurance required to resurrect and bolster America s reputation among its allies and adversaries Meanwhile strategic imperatives and geopolitical realities impose restraints in every theatre The fluidity prevailing in the Middle East and Indo Pacific counsels maintaining forward deployed forces there at roughly the current level Russia s confrontational posture towards NATO and invasion of Ukraine as well as NATO s short and medium term reliance on US capabilities require the

American presence in Europe to increase and expand eastward The US should not commit itself to a foreign policy that is heavy on forward deployed military power and light on diplomacy But paradoxically reducing forward military presence may not be consistent with a policy that is less focused on military power as a means of achieving stability and security

US Strategy in Africa David J Francis, 2010-02-25 This book outlines the construction interpretations and understanding of US strategy towards Africa in the early twenty first century No single issue or event in the recent decades in Africa has provoked so much controversy and unified hostility and opposition as the announcement by former President George W Bush of the establishment of the United States Africa Command AFRICOM The intensity and sheer scale of the unprecedented unity of opposition to AFRICOM across Africa surprised many experts and lead them to ask why such a hostile reaction occurred This book explores the conception of AFRICOM and the subsequent reaction in two ways Firstly the contributors critically engage with the creation and global imperatives for the establishment of AFRICOM and present an analytical outline of African security in relation to and within the context of the history of US foreign and security policy approaches to Africa Secondly the book has original chapter contributions by some of the key actors involved in the development and implementation of the AFRICOM project including Theresa Whelan the former US Deputy Assistant Secretary for African Affairs This is not only an attempt to contribute to the academic and policy relevant debates based on the views of those who are intimately involved in the design and implementation of the AFRICOM project but also to show in their own words that America has no clandestine agenda for Africa This book will be of interest to students of US foreign policy national security strategic studies international security and African politics David J Francis is Chair of African Peace Conflict Studies in the Department of Peace Studies at the University of Bradford

Afterglow Or Adjustment? Mark Randal Brawley, 1999 Is the United States overstretched in its international commitments This book examines differing responses to overstretch in modern history focusing mostly on military and economic policies in the U S and Britain over the past century

[America's Strategy in a Changing World](#) Sean M. Lynn-Jones, Steven E. Miller, 1992 Del 1 America's Strategic options in a Changing Security Environment Del 2 Dimensions of U S Strategy after the Cold War

American Strategy: Issues and Alternatives For the Quadrennial Defense Review Steven Metz, 2022

U.S. Army War College Guide to Strategy Joseph R. Cerami, James F. Holcomb, 2001 For more than 3 decades the U S Army War College USAWC Department of National Security and Strategy has faced the challenge of educating future strategic leaders on the subject of national security or grand strategy Fitting at the top of an officer's or government official's career long professional development program this challenge has been to design a course on strategy that incorporates its many facets in a short period of time all within the 1 year senior service college curriculum To do this a conceptual approach has provided the framework to think about strategy formulation The purpose of this volume is to present the USAWC strategy formulation model to students and practitioners This book serves as a guide to one method for the formulation analysis and study of strategy an approach which we have found to be useful in

providing generations of strategists with the conceptual tools to think systematically strategically critically creatively and big

Balancing what is described in the chapters as ends ways and means remains at the core of the Army War College s approach to national security and military strategy and strategy formulation *Iraq and the Evolution of American Strategy* Steven Metz,2008-10-31 Today the U S military is more nimble mobile and focused on rapid responses against smaller powers than ever before One could argue that the Gulf War and the postwar standoff with Saddam Hussein hastened needed military transformation and strategic reassessments in the post Cold War era But the preoccupation with Iraq also mired the United States in the Middle East and led to a bloody occupation What will American strategy look like after U S troops leave Iraq

Iraq and the Evolution of American Strategy examines the ways in which the Gulf War the WMD standoff the Iraq War and the ongoing occupation have driven broader changes in U S national security policy and military strategy Steven Metz answers three overarching questions 1 How did the conflict with Iraq drive and shape broader changes in national security and military strategy 2 Did policymakers and military leaders interpret the conflict correctly and make the most effective responses 3 What does this process tell us about the process of change in America s national security and military strategy and in the evolution of its strategic culture Metz concludes that the United States has a long standing continuing problem developing sound assumptions when the opponent operates within a different psychological and cultural framework He sees a pattern of misjudgments about Saddam and Iraq based on Western cultural and historical bias and a pervasive faith in the superiority of America s worldview and institutions This myopia contributed to America being caught off guard by Saddam s invasion of Kuwait in 1990 then underestimating his longevity and finally miscalculating the likelihood of a stable and democratic Iraq after he was toppled With lessons for all readers concerned about America s role in the world Dr Metz s important new work will especially appeal to scholars and students of strategy and international security studies as well as to military professionals and DOD civilians With a foreword by Colin S Gray *Streamlining U. S. Strategy for the Sequester Era* Nikolas Gvosdev,2013-02-28 Whether the U S defense budget is cut through sequestration or more thoughtfully planned measures U S strategy and America s defense posture will be dramatically impacted over the coming decade by reduced spending on defense and national security Whether in rebalancing America s strategic focus to the Asia Pacific region realigning the force structure of the armed forces especially the U S Army pursuing counterterrorism and other security priorities and seeking contributions from allies and partners American policymakers can no longer ignore cost and budgetary constraints when it comes to shaping U S strategy and rightsizing America s global security role **Future Survey Annual 1988-1989** Michael Marien,Lane Jennings,1990-01-01 BMW Z cars have carved a huge reputation for themselves in a very short time From the revolutionary and innovative Z1 of the late 1980s to the beautiful and exclusive Z8 of more recent times via the popular Z3 and its controversial replacement the Z4 the family has made BMW s name in the increasingly competitive sports car market Asia Eyes America Jonathan D. Pollack,2007 Contains a collection of papers produced by participants U

S and regional scholars and analysts at a conference Asia Eyes America held at the Naval War College in Newport Rhode Island in May 2006 What are the implications of Asia s longer term transformation for U S interests How might change reconfigure American security requirements in the next decade and beyond On what basis does United States reaffirm yet redefine its enduring commitment to regional order This volume is a collaborative effort involving prominent specialists on both sides of the Pacific The book focuses on underlying attitudes toward American power and policy especially as viewed by strategic analysts within the region Various contributors describe contradictory attitudes toward American power Most states hope to deepen ties with the United States while avoiding comprehensive envelopment in U S strategy There is a tension between the preference for continued American regional involvement while seeking to limit possibilities of highly intrusive U S policy interventions Both considerations will continue to shape regional attitudes toward American power especially U S military power Publisher s description [U.S. Army War College Guide to Strategy](#) , [Strategic Horizons](#) Steven Metz,1997 **A US Strategy for the Asia-Pacific** Douglas T. Stuart,William T. Tow,2013-09-13 First Published in 2005 This is Adelphi Paper 299 and discusses a strategy for the United States of America for the continued stability of the Asia Pacific region Looking at ways in which the US dominated system of Asia Pacific security that evolved during the Cold War must be fundamentally transformed to determine its security in the future *American Strategy in Vietnam* Harry G Summers,2012-04-19 A politico military assessment of the Vietnam War analyzing the U S Army s strategic and tactical ideologies Particularly relevant today it stresses the futility of any military action without the full support of the people

America's Strategy in World Politics Nicholas John Spykman, Less than a year after the United States entered the Second World War Nicholas Spykman wrote a book that placed the war effort in the broader context of the 1940s global balance of power In *America s Strategy in World Politics* Spykman examined world politics from a realist geopolitical perspective The United States he explained was fighting for its very survival as an independent country because the conquests of Germany and Japan raised the specter of our geopolitical encirclement by hostile forces controlling the power centers of Europe the Middle East and East Asia Spykman warned that the United States could not safely retreat to a defensive position in the Western Hemisphere Spykman looked beyond the immediate strategic requirements of the Second World War envisioning a postwar world in which the United States would help shape the global balance of power to meet its security needs Even though Soviet Russia was our wartime ally Spykman recognized that a geopolitically unbalanced Soviet Union could threaten to upset the postwar balance of power and thereby endanger U S security Spykman also foresaw the rise of China in postwar Asia and the likely need for the United States to ally itself with Japan to balance China s power He also recognized that the Middle East would play a pivotal role in the postwar world Spykman influenced American postwar statesmen and strategists During the Cold War the U S sought to deny the Soviet Union political control of Western Europe the Middle East and East Asia Spykman s geopolitical vision of U S security supported by a balanced Eurasian land mass

coupled with his focus on power as the governing force in international relations makes America's Strategy in World Politics relevant to the twenty first century **American Foreign Policy** Richmond M. Lloyd, 2009 NOTE NO FURTHER DISCOUNT FOR THIS PRODUCT OVERSTOCK SALE Significantly reduced list price while supplies last Proceedings form a forum which provided a collegial forum for a small and select group of foreign policy and regional experts to formulate and recommend new directions for American foreign policy for each of the major regions of the world With a new American administration in office this is an opportune time to assess American foreign policy and to set future directions 1 What challenges and opportunities will the United States and its allies and friends face in the future 2 What changes should be made to all elements of U S foreign policy including the diplomatic economic military and informational elements 3 What elements should continue 4 What are the varying perspectives of nations within the region concerning U S foreign policy 5 What changes in U S foreign policy would they desire 6 Overall what new directions for U S foreign policy will better support the interests and objectives of the United States its allies and its friends A total of thirty three foreign policy and regional experts participated in the workshop Seventeen panelists presented papers on seven panels A Global Perspective Western Hemisphere Asia and the Pacific South Asia The Greater Middle East Europe and Russia and Africa Policymakers members of government and governmental committees and agencies and students and members of the general public interested in American foreign policy will be interested in this publication Related products International and Foreign Affairs resources collection is available here <https://bookstore.gpo.gov/catalog/international-foreign-affairs> Countering Radicalization and Recruitment to Al Qaeda Fighting the War of Deeds is available here [https://bookstore.gpo.gov/search/apachesolr_search/Countering Radicalization Armed Groups](https://bookstore.gpo.gov/search/apachesolr_search/Countering%20Radicalization%20Armed%20Groups) Studies in National Security Counterterrorism and Counterinsurgency can be found here <https://bookstore.gpo.gov/products/sku/008020015733> The Evolution of Los Zetas in Mexico and Central America Sadism as an Instrument of Cartel Warfare can be found here [https://bookstore.gpo.gov/search/apachesolr_search/Los Zetas](https://bookstore.gpo.gov/search/apachesolr_search/Los%20Zetas)
