Dunmire,2023 The Great Nation of Futurity examines the rhetoric of American exceptionalism the idea that the United States is an exemplary nation with a unique divinely sanctioned role within Cold War foreign policy discourse Taking a discourse analytic approach Patricia L Dunmire focuses specifically on how images and visions of the future within exceptionalist rhetoric are used to promote and endorse the nation s foreign policy during the Cold War *The End of Sovereignty* Antonio Negri,2022-09-30 This book brings together Antonio Negri s critical writings on the nature and form of the modern state The central theme that runs through these writings is our need to be done with the sovereign state that is with the particular form of political power that the capitalist organization of bourgeois society has imposed upon us Negri seeks to show how the sovereign bourgeois state built in the course of modernity has now become a weapon in the hands of a declining ruling class a class sometimes exhausted in its institutional expressions and sometimes frenetic zombie like and parafascist In arguing that the despotic power of the state should be abolished Negri distances himself from some other left wing thinkers who erroneously in his view have come to see the state as an unavoidable institution rather than as a place of power that once conquered should be transformed and ultimately dissolved since it represents the central moment in the organization of force against living labour and free citizenship In Negri s view the call for the abolition of the state remains vital and active today as a concrete utopia that is expressed in every thought and act of liberation The articles brought together in this volume range from Negri s analysis of the first great transformation of the capitalist state in the twentieth century a phenomenon precipitated by the triumph of Keynesianism to his more recent work on how the form of sovereignty changed from being a figure of transcendent and local command to being a dispositif of immanent and global control Like its companion volumes this new collection of essays by Negri will be a valuable resource for anyone interested in radical politics and in the key social and political struggles of our time Congressional Record United States.
