*Future Iraq* Geoffrey Leslie Simons, 2003 Accomplished author Geoff Simons offers an incisive look at the implications of US involvement in Iraq *Strategies for reshaping U.S. Policy in Iraq and the Middle East* United States. Congress. Senate. Committee on Foreign Relations, 2005 US Policy Towards the Muslim World M. Saleem Kidwai, 2010-05-10 By all accounts the overall relationship between the US and the Muslim world is marked by confrontation at several levels In the aftermath of 9 11 a great deal needs to be done to build bridges between America and the Muslim world A broad and immediate shift in America s policies towards the Muslim world is necessary What is the appropriate paradigm for the war on terrorism How should the US now deal with authoritarian regimes considered its traditional allies in the Muslim world How should the US deal with civil society opposition parties and other Islamist groups often located within these friends and allies How can the US maintain a close alliance with Israel while still continuing positive relations with Muslim states and movements US Policy Towards the Muslim World seeks to find answers to these and similar questions The volume is comprised of fourteen contributions from specialists in the field It is a serious attempt to address and analyze key factors affecting US interests and suggests measures for the US policy makers The main objective is to provide a policy framework that will enable the US to face the challenges posed and opportunities thrown open in the Muslim world NATO and the Middle East Mohammed Moustafa Orfy, 2010-10-04 This book examines the role of NATO in the Middle East It reviews the strategic importance of the region and why it has become a source of instability looks at US and international initiatives to counteract this instability and charts the development of NATO in this context **Dynamics of Change in the Persian Gulf Political Economy, War and Revolution** Anoushiravan Ehteshami, 2013 The Persian Gulf has come to represent one of the most strategically significant waterways of the world In terms of geography geopolitics resources global political economy and regional influence the Gulf is perhaps home to the world s most significant group of countries Focusing on the complexities of the interplay between domestic level changes and region wide interactions this book presents the reader with the first comprehensive survey of the dynamics of change in this crucial area Systemic oriented in its approach the impact of war and revolution on the countries of the sub region is discussed and the ways in which these factors have shaped the security dilemmas and responses of the Gulf States is also explored The role of oil is examined in terms of the impact of its income on these states and societies and the manner in which oil has shaped the integration of these states into the global system Oil has shrunk developmental time in these countries and has accelerated generational shift At the same time it has created the dialectical relationship which now characterizes the difficult balance between prosperity and instability which is at the heart of the sub region Casting new light on the workings of a strategically significant part of the international system this book will be an essential resource for students and scholars of international relations international security and Middle Eastern politics Minority Rights in the Middle East Joshua Castellino, Kathleen A.
