Future Of Amazonia Destruction Or Sustainable Development:

The Future of Amazonia A. Hall, D. Goodman, 1991-01-12 The future of Brazilian Amazonia the world's largest remaining tropical rainforest hangs in the balance Two decades of destructive development have provoked violent struggles for control over the region's resources with disastrous social and environmental consequences This multi disciplinary collection reviews past experience but focusses on the latest phase of Amazonian settlement Chapters by leading authorities examine such issues as colonisation in the most recent frontier areas multinational mining projects hydro electric schemes and the military occupation of Brazil's borders After demonstrating how new government and business activities have exacerbated social tensions and ecological destruction the volume considers alternative more sustainable strategies

Frontiers of Development in the Amazon Antonio Augusto Rossotto Ioris, Rafael R. Ioris, Sergei V. Shubin, 2020-06-22 Frontiers of Development in the Amazon Riches Risks and Resistances contributes to ongoing debates on the processes of change in the Amazon a region inherently tied to the expansion of internal and external socio economic and environmental frontiers This book offers interdisciplinary analyses from a range of scholars in Europe Latin America and the United States that question the methods of development and the range of socio ecological impacts of those methods by examining the theoretical methodological and empirical dimensions of frontier making along with evaluating and refining existing frameworks Contributors focus on the complex politics of border formation shaped by institutional economic and political forces placing them in relation to ethical imaginary and symbolic elements In doing so contributors explore the dynamic production of identities values and subjectivities covering matters of migratory patterns complex power struggles and intensive at times violent clashes Among other topics this book assesses the recent encroachment of export driven agribusiness into the Amazon Region in the context of recolonization resource exploitation and multiple programs of modernization and national integration Scholars of Latin American studies international development environmental studies and applied social sciences will find this book particularly useful *Emerging Threats to Tropical Forests* William F. Laurance, Carlos A. Peres, 2006-10 Publisher Description **What Drives Deforestation in the Brazilian Amazon?**

Alexander S. P. Pfaff, 1997 **The Brazilian Amazon Rainforest** Luiz C. Barbosa, 2000 Barbosa sociology San Francisco State University provides a global world systemic analysis of the problem of deforestation of the Brazilian Amazon rainforest He shows how changes in global ecopolitics demanding sustainable development coupled with the onset of democracy in Brazil substantially altered the battle over the future of Amazonia He describes deforestation in the region in the context of an expanding frontier of global capitalism and compares Amazon experiences with those of Costa Rica Malaysia and Indonesia **Global Environmentalism and Local Politics** Maria Guadalupe Moog Rodrigues, 2012-02-01 What is the role played by local organizations in transnational environmental advocacy networks Global Environmentalism and Local Politics revisits this question by looking at transnational environmental activism in Brazil Ecuador and India Rodrigues investigates

the internal politics of these networks focusing on their internal balance of power choice of strategies and distribution of resources among members at the international national and local levels Contrary to existing assumptions local organizations rather than international or national non governmental organizations are the key players in these networks while at the same time mere participation in transnational advocacy efforts does not necessarily lead to the empowerment of local organizations Participation may for example impose unanticipated political and technical burdens and despite their overarching common goal of environmental preservation network members may have different understandings of what environmentally sustainable development is and how it can be best achieved

Mobility and Migration in Indigenous

Amazonia Miguel N. Alexiades, 2009 Contrary to ingrained academic and public assumptions wherein indigenous lowland South American societies are viewed as the product of historical emplacement and spatial stasis there is widespread evidence to suggest that migration and displacement have been the norm and not the exception This original and thought provoking collection of case studies examines some of the ways in which migration and the concomitant processes of ecological and social change have shaped and continue to shape human environment relations in Amazonia Drawing on a wide range of historical time frames from pre conquest times to the present and ethnographic contexts different chapters examine the complex and important links between migration and the classification management and domestication of plants and landscapes as well as the incorporation and transformation of environmental knowledge practices ideologies and identities

Entangled Edens Candace Slater, 2002 The skill with which Slater combines various levels and modalities of narrative utilizing her personal experience as a colorful unifying thread is truly remarkable Antonio Candido author of *Antonio Candido On Literature and Society* Howard S Becker editor A very important book that quite gracefully elegantly and persuasively moves beyond the usual myth and history format to put at its center stories about the Amazon and the people who tell them *Entangled Edens* persuasively argues that the Amazon can only be grasped understood and come to terms with through its myths and stories It addresses a very real failing of modern environmentalism which for all its virtues tends to dehumanize and metaphorically depopulate when it does not villainize populations that do share its concerns or share them in very different ways Instead of forcing us to choose between land and people Slater uses the stories and the people who tell them to rethink human relations with nature and each other Richard White author of *The Organic Machine* *The Remaking of the*
