**The Future of NATO** Andrew A. Michta, Paal Sigurd Hilde, 2014-06-23 The conclusion of International Security Assistance Force ISAF operations in Afghanistan in 2014 closes an important chapter in the history of the North Atlantic Treaty Organization NATO In this volume European and US experts examine a range of perennial issues facing the Alliance including relations with Russia NATO's institutional organization and command structure and the role of the United States in the Alliance in order to show how these issues shape today's most pressing debate the debate over the balance between NATO's engagement in security operations globally and traditional defense within the North Atlantic region The volume's contributors propose that NATO can indeed find a viable balance between competing but not inherently incompatible strategic visions A theoretically informed empirical account and analysis of NATO's recent evolution this volume will appeal to both security scholars and practitioners from the policy community

**The future of NATO and European defence** Great Britain: Parliament: House of Commons: Defence Committee, 2008-03-20 This report is presented prior to the NATO Summit at Bucharest in April 2008 and examines the status of NATO in dealing with the security environment that exists in Europe today The situation in Afghanistan offers a key test of the strengths and failings of the NATO Alliance To bring stability and encourage development and reconstruction in this region requires a long term military and financial commitment on the part of the Alliance Failure in Afghanistan may diminish the effectiveness of NATO and undermine allied unity perhaps pushing the United States to question the purpose of NATO itself The Bucharest Summit will have to address a number of issues in respect of Afghanistan including the need to generate sufficient military forces to carry out operations

NATO faces broader questions about its role and relevance in the 21st century and the Defence Committee believes it needs to launch a far reaching review of its strategic concept setting forth a future role and purpose NATO's willingness to fulfil a global role is critical to the continued support of the United States NATO has shortfalls across a range of specific military capabilities which are seen as compromising its ability to mount and sustain the expeditionary operations that underpin the Alliance The creation of the NATO Response Force is seen as representing a significant achievement but it needs to be financed out of NATO Common Funding The Committee states that NATO's biggest shortfall is a lack of political will where a large and growing gap exists between the United States and the European members in defence spending The Committee further states that the relationship between NATO and the EU is plagued by mistrust and characterised by unhealthy competition Improving communication and coordination between the two is seen as essential The Committee views NATO as indispensable to the Alliance

**The Future of the American Military Presence in Europe** Lloyd J. Matthews, 2000 Ten years have elapsed since the fall of the Berlin Wall which served as a fitting symbol for the end of the

Cold War That historic juncture brought into question the North Atlantic Treaty Organization which has served Alliance members so well since its founding in 1949 It also brought into question the rationale for America s continued deep involvement in European security affairs With the gradual realization that the Russian menace is essentially dead at least for the next 10 to 15 years and perhaps longer and with NATO s missions having evolved well beyond the original purpose of territorial defense debate on both sides of the Atlantic has begun to intensify concerning the vital issue of where NATO should be headed and America s relation to the Alliance To bring an array of informed voices to the debate four institutions the Office of the Assistant Vice Chief of Staff of the U S Army the Strategic Studies Institute of the U S Army War College the Irving B Harris Graduate School of Public Policy Studies of the University of Chicago and the Program on International Security Policy at the University of Chicago joined hands to sponsor a symposium titled The Future of U S Military Presence in Europe held at the University of Chicago on August 4 1999 The present book is an outgrowth of this symposium It is not designed to set forth a literal record of words and events in the mold of the traditional symposium proceedings but rather is organized as an anthology of individual chapters complemented by selected questions answers and comments by symposium participants and attendees
