Zafiropoulos, 2018-05-08 Lacan and Levi Strauss are often mentioned together in reviews of French structuralist thought but what really links their distinct projects In this important study the author shows how Lacan's famous return to Freud was only made possible through Lacan's reading of Levi Strauss Via a careful and illuminating comparison of the work of the psychoanalyst and that of the anthropologist Zafiropoulos shows how Lacan's theories of the symbolic function of the power of language of the role of the father and even of the unconscious itself owe a major debt to Levi Strauss Lacan and Levi Strauss is much more than an academic study of the relations between these two thinkers it is also a superb introduction to the work of Lacan setting out with detail and lucidity the major concepts of his work in the 1950s
