the most part the more elementary facts processes and approaches are slighted or omitted as beneath the high development of our minds However learned our thinking may be its foundation must be elementary thinking and if elementary thinking is neglected because it seems too elementary for attention the result is likely to be unsoundness of the whole structure because it has been erected on unsound foundation About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
