Teach Psychology: An evidence-informed approach Paul Cline,Mike Hobbiss,2025-05-23 Psychology as a subject is more popular in secondary schools than ever before but achieving deep insights into and appreciation of the complexity of human behaviour is a challenge that requires expert guidance and teaching In addition to teaching the often demanding subject

content on their specifications Psychology teachers must also be experts in inculcating mathematical skills and written communication All this in students who often start without any prior experience of the subject This poses serious challenges for teachers subject knowledge pedagogy and planning And yet until now little has been written about how to teach Psychology effectively This book aims to help anyone facing that challenge Drawing on a wealth of psychological and pedagogical insights coupled with years of teaching experience Paul Cline and Mike Hobbiss provide practical advice and concrete suggestions to support Psychology teachers at all levels From curriculum choices to the minutiae of in class decisions from developing as an individual teacher to leading a Psychology department this book provides the complete evidence informed guide to teaching Psychology The Basics of Caring Research Satu Uusiautti,Kaarina Määttä,2016-07-08 What is caring research and how to conduct it This book defines the new concept of caring research as a combination of two perspectives Caring research means research that aims to promote well being It is focused on a good quality of life human strengths and active life as well as characteristics and positive development in human beings that act as buffers against malaise and help coping with adversities in life In addition caring research cares for the researcher well being Caring research is conducted by people who share the passion and enthusiasm to influence positively and collaborate Caring research includes the joy of working and researching together Thus caring research is manifested in the relationships between researchers supervisors students and other experts and their mutual open and respectful interaction The Basics of Caring Research analyzes these two elements of caring research through several viewpoints that are to illustrate the manifold nature of caring research as positively focused and positively conducted research The book also includes critical analysis of the current requirements and future challenges of caring research The book serves as a text book in for example research studies in psychology and educational and behavioral sciences Researchers and supervisors find it a useful tool to support their supervision of various academic theses **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 The Fundamentals of Human Motivation Leonard Thompson Troland,1928 Recording for the Blind & Dyslexic, ... Catalog of Books ,1996 **The Internet University** Daniel Quinn Mills,1998 Welcome to college via the Internet Because of the tremendous growth of education on the Internet students can now experience the college dream through cyberspace and put together all or part of their college education in many fields with few or even no visits to any campus The academic resources of the world are delivered to their front door through modem or network *National Union Catalog* ,1982 **Psychology in Education (An Introduction to Basics)** Mr. Rohit Manglik,2022-04-22 Explores psychological principles in education focusing on learning and student development
