**Fundamentals of Tibetan Medicine** Jampa Gyaltsen Drakton, Lobsang Chomphel, 1981      **Fundamentals of Tibetan Medicine** - འཇམ་པ་རྒྱལ་མཚན་ལྷ་སྐུ་ལོ་སངས་འཇམ་པ་རྒྱལ་མཚན་ལྷ་སྐུ་ Dr. Lobsang Tsultrim, Dr. Tenzin Dakpa, 2017-03-23 The first edition of the Fundamentals of Tibetan Medicine published in 1981 has remained one of the most popular and widely used publications on Tibetan Medicine available in English In 1995 a second revised edition was published in response to an increasing interest in Tibetan Medicine and a greater demand for literature on the subject The need for a third revised edition was again felt and in 1996 the Director of Men Tsee Khang appointed us to expand and revise the book However due to our other Institutional responsibilities we could not begin work on the project until the summer of 1997 We are pleased to bring out this book started initially during the Directorship of Mr Tsering Tashi and completed with the encouragement of our current Director Mr Pema Dadhul Arya The support of both Directors has been invaluable In this third Edition as in the Second alterations additions and deletions have been made to material from the edition preceding it The material in Part One has been divided into four distinct chapters with the addition of an introductory section on the history of Tibetan Medicine Where new information has been added from the rGyudbZhi or its commentary Vaidurya sNgon po and the original text was too complicated or technical for the purposes of an introductory book such as this we have attempted to simplify the material without sacrificing the essential points In doing so errors or omissions may have occurred for which we take full responsibility When it seemed useful we have condensed material into tables We have updated some photos from the previous edition and also have added a pronunciation guide to Tibetan medical terms It is our sincere desire that all who read this book will benefit from it and experience good health Dr Lobsang Tsultrim Dr Tenzin Dakpa      **Fundamentals of Tibetan Medicine (Fourth Edition)** Dr. Tsultrim Kalsang, Dr. Rigzin Sangmo, Dr. Namdol Lhamo, Dr. Sonam Dolkar Oshoe, 2024-11-26 PREFACE TO THE FOURTH EDITION The Fundamentals of Tibetan Medicine is one of the most popular and widely used publications on Tibetan Medicine available in English so far This is credited to the contributions of the editorial teams of its successive editions The first edition of the Fundamentals of Tibetan Medicine was published in 1981 It has remained one of the basic learning sources of Tibetan Medicine available in English and due to an increasing interest in and demand for Tibetan Medicine and literature on the subject in 1995 a second revised edition was published In 1997 a third revised edition was published based on the existing material content and the first part of the book was divided into four chapters with the addition of an introductory section on the history of Tibetan Medicine to make it easier for the readers to understand With the growing interest demand and popularity of Tibetan Medicine all over the world the need for a fourth revised edition was felt The fifteenth Director of Men Tsee Khang Mr Tashi Tsering Phuri appointed a 4 member editorial board to revise the book because we all had our responsibilities in various Departments of Men Tsee Khang Our task was to complete the edition of the book within a scheduled time frame However because of the long hours which were needed to be

spent on this important project it took more time Finally now we are able to bring this book out with complete support from our Men Tsee Khang Director This fourth edition has more or less retained the original format but the text has been thoroughly revised to make it more concise and comprehensive It starts with the history of Tibetan Medicine followed by Introduction to rgyud bzhi Understanding of the human body the three principal energies Etiology of disease Diagnostic techniques and Therapeutic approaches etc in an orderly format New information has been added after conscientious research based on rgyud bzhi the principal text of Tibetan Medicine and other reference materials and literature such as Vaedurya ngon po the most popular commentary on rgyud bzhi We have also tried to simplify the material while retaining its original and essential points adding important updated information where necessary Some key technical terms of Tibetan Medicine have been written in Tibetan transliteration based on the THL Extended Wylie transliteration scheme to avoid dilution of the original meaning The Tibetan terms have been italicized and footnotes have been inserted wherever necessary We have updated some new colour photographs and also retained some previous photos from the original edition We have redone the previous section Guide to Pronunciation of Tibetan Medical Terms by providing transliteration for the major Tibetan terms in this edition their equivalent Tibetan Phonetics and their translation We have endeavoured and given our best efforts to make this fourth edition as trustworthy as possible however inadvertent errors may certainly have crept in for which we take sole responsibility Any useful suggestions feedback and comments on this edition to improve the quality of the book would be highly appreciated It is our sincere hope that this book will inspire and encourage readers all over the world to further deepen their understanding of the ancient Tibetan wisdom of healing May those who read it receive wider benefits to remain healthy and to provide better health for others Dr Tsultrim Kalsang Dr Rigzin Sangmo Dr Namdol Lhamo Dr Sonam Dolkar Oshoe

**Healing Powers and Modernity** Linda H. Connor,Geoffrey Samuel,2001-02-28 What is the current state of traditional healing practices in contemporary Asian societies How are their practitioners faring in the encounter with Western science and its biomedical approach How are traditional healing practices being transformed by the politics of health within the modern nation state and by the processes of commodification typical of modern economies How do patients in Asian societies see the various healing options now open to them The authors all of whom are anthropologists observe the clashes and complementarities between traditional therapies and biomedicine which in its many manifestations is the dominant form of medicine supported by national governments and is emblematic of the modernity to which they aspire Some of the medical traditions such as the

sophisticated herbal humoral systems of Tibetan medicine and Indian Ayurveda are becoming well known in the West both through scholarly study and through their increasing popularity with Western patients interested in their healing potential. This book adds a new dimension to their study being focused unlike most previous writing on practice rather than textual tradition.
