Conservation of Furniture Shayne Rivers,Nick Umney,2007-06-07 This book is a comprehensive resource covering the principles and practice of the conservation and restoration of furniture and other decorative art objects made wholly or partly of wood It integrates theory with practice to show the principles which govern interaction between wooden objects the environmental and conservation treatments and the factors which need to be taken into account to arrive at acceptable solutions to conservation problems The practical knowledge and experience of a team of conservators active in the field are brought together with theoretical and reference material from diverse sources and unified within a systematic framework Specialist conservators from related disciplines cover diverse materials often incorporated into furniture

A History of Seating, 3000 BC to 2000 AD Jenny Pynt,Joy Higgs,2010 The focus of this book is on functional seating and the key argument presented is that functional seating needs to assist the person using it for the performance of seated tasks enhance rather than detract from the person s posture and health and it needs to provide aesthetic features that do not limit task or health The book spans the period 3000BC to 2000AD and presents largely Western seating This book is unique in its approach to seating because it draws together evidence that relates to seating that facilitates health and task while also addressing aesthetic factors This evidence creates an understanding of how seats may be designed to not only promote bodily health but also allow functional optimisation of sitting and seating This book is important to furniture and industrial designers interior decorators architects those teaching seat design health professionals attending and educating those who relax or work in the seated position furniture historians and members of the general public interested in the history of seating
