Futility and Other Animals Frank Moorhouse,1977 Futility and Other Animals Frank Moorhouse,James Clifford,1969 **Writing in Hope and Fear** John McLaren,1996 A compelling critical and historical account of politics in postwar Australian literary culture Animal Ethics in the Wild Catia Faria,2022-12-22 Animals like humans suffer and die from natural causes This is particularly true of animals living in the wild given their high exposure to and low capacity to cope with harmful natural processes Most wild animals likely have short lives full of suffering usually ending in terrible deaths This book argues that on the assumption that we have reasons to assist others in need we should intervene in nature to prevent or reduce the harms wild animals suffer provided that it is feasible and that the expected result is positive overall It is of the utmost importance that academics from different disciplines as well as animal advocates begin to confront this issue The more people are concerned with wild animal suffering the more probable it is that safe and effective solutions to the plight of wild animals will be implemented in the future **The Cambridge History of Australian Literature** Peter Pierce,2009-09-17 Draws on scholarship from leading figures in the field and spans Australian literary history from colonial origins indigenous and migrant literatures as well as representations of Asia and the Pacific and the role of literary culture in modern Australian society **The Best Novels of the Nineties** Linda Parent Leshner,2015-11-17 This reader's guide provides uniquely organized and up to date information on the most important and enjoyable contemporary English language novels Offering critically substantiated reading recommendations careful cross referencing and extensive indexing this book is appropriate for both the weekend reader looking for the best new mystery and the full time graduate student hoping to survey the latest in magical realism More than 1 000 titles are included each entry citing major reviews and giving a brief description for each book **The Country of Lost Children** Peter Pierce,1999-06-07 This book traces the figure of the lost child in Australia's history and imagination **Rational Animal Ethics** Stijn Bruers,2024-12-04 Our relations with non human animals are plagued by moral illusions A rational ethic attempts to avoid such moral illusions such that our ends and values become consistent and the means to achieve those ends become most effective This book constructs a rational animal ethic It presents a consistent moral theory of non discrimination and equality that includes animals It shows how to construct a strong foundation for animal rights and equal treatment of all sentient beings These rights can be derived from a new mild welfarist ethic that is less demanding than classical welfarist or utilitarian theories and more concerned about welfare than classical rights based or deontological theories The second part deals with the practice of animal ethics In particular it discusses the most effective means to promote animal welfare and rights Topics in high impact practical animal ethics include effective altruism veganism the welfare footprint alternative protein and wild animal suffering My Husband and other animals 2: The Wildlife Adventure Continues Janaki Lenin,2024-08-27 GREAT STORIES OF THE UPS AND THE DOWNS THE PLEASURES AND THE PERILS OF LIVING ON THE EDGE OF THE JUNGLE MARK TULLY AUTHOR OF NON

Animals' Defender and Zoophilist ,1918 *On Animals* David L. Clough,2018-12-27 This book presents an authoritative and comprehensive survey of human practice in relation to other animals together with a Christian ethical analysis building on the theological account of animals which David Clough developed in *On Animals* Volume I Systematic Theology 2012 It argues that a Christian understanding of other animals has radical implications for their treatment by humans with the human use and abuse of non human animals for food the most urgent immediate priority Following an introduction examining the task of theological ethics in relation to non human animals and the way it relates to other accounts of animal ethics this book surveys and assess the use humans make of other animals for food for clothing for labour as research subjects for sport and entertainment as pets or companions and human impacts on wild animals The result is both a state of the art account of what humans are doing to other animals and a persuasive argument that Christians in particular have strong faith based reasons to acknowledge the significance of the issues raised and change their practice in response
