Poetics of Singularity Timothy Clark, 2019-06-01 This polemical book reveals the basic tenets of what may be called a poetics of singularity in Martin Heidegger Maurice Blanchot Jacques Derrida and the strange late essays of Hans Georg Gadamer At issue is the at first simple even familiar idea that literary or poetic meaning cannot be stated in terms other than its own that a text strives towards the status of being an example if of anything only of itself sole witness of what it alone projects This issue opens a series of powerful questions concerning basic features of Western thought about the

nature of understanding on Kierkegaard's singular individual that is yet each human life in its exceptionality of the uniqueness of historical testimony the nature of community The Poetics of Singularity forms an ethically compelling alternative to the currently dominant cultural social studies paradigm in literary criticism a neo Darwinian understanding of art and life which is sometimes only a disguised version of American nationalism Features An original work of scholarship combining elucidation research and polemics Identifies a forceful tradition of twentieth century poetics which differs from received ideas of deconstruction which the author names the poetics of singularity Makes available in English some previously untranslated material in the chapters on Heidegger and Gadamer and covers relatively unknown texts by Blanchot and some very recent work by Derrida

Kathy Acker and Transnationalism Polina Mackay, Kathryn Nicol, 2009-03-26 Since Kathy Acker's death in 1997 the body of critical work on her fiction has continued to grow and even to flourish The continuing critical attention that her work has received is testament both to the complexity and intellectual scope of her many artistic and critical projects and to the continuing relevance of her concerns and ambitions in the recent and contemporary world a world that her fictions prefigure and interrogate in ways that we perhaps could not have recognized during her lifetime This collection of essays provides readers with access to a range of critical and theoretical essays that present a detailed analysis of transnationalism in Kathy Acker's fiction A wider aim of this book is to locate Acker's work in the context of current debates on transnationalism postnationalism and global identity Kathy Acker and Transnationalism therefore constitutes a timely re appraisal of an important American writer and a contribution to the growing field of studies in transnationalism

What Happens to History Howard Marchitello, 2014-06-11 While the questions of ethics have become increasingly important in recent years for many fields within the humanities there has been no single volume that seeks to address the emergence of this concern with ethics across the disciplinary spectrum Given this lack in currently available critical and secondary texts and also the urgency of the issues addressed by the critics assembled here the time is right for a collection of this nature

Surrealism, Feminism, Psychoanalysis Natalya Lusty, 2017-03-02 How did women Surrealists such as Leonora Carrington and Claude Cahun take up the question of female identity in terms of

their own aesthetic and intellectual practice What was the response of women analysts such as Joan Riviere to Freud's psychoanalytic construction of femininity These are among the questions that Natalya Lusty brings to her sophisticated and theoretically informed investigation into the appropriation of the feminine by the Surrealist movement Combining biographical and textual methods of analysis with historically specific discussions of related cultural sites such as women's magazines fashion debutante culture sexology modernist lesbian subculture pornography and female criminality the book examines the ambiguities and blind spots that haunt the work of more central figures such as Andr  Breton Georges Bataille Jacques Lacan Walter Benjamin and the Surrealist photographer Hans Bellmer Lusty's examination of a series of psychoanalytic Surrealist themes including narcissism fantasy masquerade perversion and the double illuminates a modernist preoccupation with the crisis of subjectivity and representation and its ongoing relevance to more recent work by Cindy Sherman and Judith Butler Her book is an important contribution to modernist studies that will appeal to scholars and students working across a diverse range of fields including literary studies gender studies visual culture cultural studies and cultural history

Joyce and the Law Jonathan Goldman, 2020-01-15 Making the case that legal issues are central to James Joyce's life and work international experts in law and literature offer new insights into Joyce's most important texts They analyze *Dubliners* *A Portrait of the Artist as a Young Man* *Giacomo Joyce* *Ulysses* and *Finnegans Wake* in light of the legal contexts of Joyce's day Topics include marriage laws the Aliens Act of 1905 laws governing display and use of language minority rights debates municipal self government rentier culture and regulations on alcohol consumption and licensing This volume also highlights Joyce's own fascination with law and legal inquiry and explores how by adopting a unique visual and linguistic style Joyce constructed an authorial identity that mirrored the process of trademark It also offers a deeper understanding of Judge John Woolsey's decision in the *Ulysses*

obscenity case and reveals the many ways copyright has affected publication of Joyce's work and the scholarly and aesthetic use of his words. These discussions show how reading Joyce alongside the law enriches both legal studies and literary scholarship. A volume in the Florida James Joyce Series edited by Sebastian D. G. Knowles. **Visualizing Law in the Age of the Digital Baroque** Richard K. Sherwin, 2012-05-23. *Visualizing Law in the Age of the Digital Baroque* explores the profound impact that visual digital technologies are having on the practice and theory of law. Today lawyers, judges and lay jurors face a vast array of visual evidence and visual argument. From videos documenting crimes and accidents to computer displays of their digital simulation increasingly the search for fact-based justice inside the courtroom is becoming an offshoot of visual meaning-making. But when law migrates to the screen it lives there as other images do motivating belief and judgment on the basis of visual delight and unconscious fantasies and desires as well as actualities. Law as image also shares broader cultural anxieties concerning not only the truth of the image but also the mimetic capacity itself the human ability to represent reality. What is real and what is simulation? This is the hallmark of the baroque when dreams fold into dreams like immersion in a seemingly endless matrix of digital appearances. When fact-based justice recedes laws proliferate within a field of uncertainty. Left unchecked this condition of ontological and ethical uneasiness threatens the legitimacy of law's claim to power. *Visualizing Law in the Age of the Digital Baroque* offers a jurisprudential paradigm that is equal to the challenge that current cultural conditions present. **Cultural Studies: Crossing Boundaries**, 2025-02-03. *Imagining Culture* Jonathan Hart, 2019-07-23. This book of original essays explores three important areas in comparative literature and history and in cultural studies: the boundaries between history and fiction; women as writers and subjects; and the connection between the early modern, modern and postmodern. New history and new literary studies look at innovative ways to see past cultures in a new light. Traditional methods are used to new ends and writers who are familiar within their cultures are translated to other cultures. This study promotes an expanded understanding of our cultural artifacts in a rapidly changing present. It discusses English-speaking culture in the early modern period in the context of other European cultures and relates Europe to other parts of the world, most notably America. After grounding the discussion of culture in history, identity, dialogue as a genre that crosses the boundaries between philosophy and fiction, the rhetoric of prefaces to historical collections, cosmographies and histories that share something with the techniques of literary and forensic rhetoric, the book proceeds to discuss two central issues in cultural studies today: gender and postmodernity. The final section of the book provides a general assessment through early modern texts of modernity and postmodernity. **The Polish Studies Newsletter**, 1999. **A Press of Their Own** Megan McGurk, 2007. *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences*, 2000. *The Cambridge Handbook of Sociocultural Psychology* Alberto Rosa Jaan Valsiner, 2018-07-12. Sociocultural psychology is a discipline located at the crossroads between the natural and social sciences and the humanities. This international overview of the field provides an antireductionist and comprehensive

account of how experience and behaviour arise from human action with cultural materials in social practices The outcome is a vision of the dynamics of sociocultural and personal life in which time and developmental constructive transformations are crucial This second edition provides expanded coverage of how particular cultural artefacts and social practices shape experience and behaviour in the realms of art and aesthetics economics history religion and politics Special attention is also paid to the development of identity the self and personhood throughout the lifespan while retaining the emphasis on experience and development as key features of sociocultural psychology *Discourse* ,2003
