Future Of Christian Social Ethics

Malcolm Brown

Future Of Christian Social Ethics:

The Future of Christian Ethics Ronald H. Preston, 1987 This book is about decision making Its underlying theme is that we cannot move directly from basic Christian Insights to key areas where ethical choices have to be made without some kind of empirical investigation with all the hazards which that brings And the more detailed the analysis and recommendations drawn from the investigation the greater the difference of opinion will be This makes it important to work on particular topics in groups looking for agreement at a middle level on a general direction this is important where the situation is polarized as it often is The studies collected here relate to three areas ecumenical Christianity economics and politics The subjects discussed include the development of social ethics in the Church of England the future of Protestant ethics the end of the Protestant work ethic the New Right political theology liberation theology penal theory and practice and the demoralization of modern society

The Future of Ethics Willis Jenkins, 2013-10-28 The Future of Ethics interprets the big questions of sustainability and social justice through the practical problems arising from humanity's increasing power over basic systems of life What does climate change mean for our obligations to future generations How can the sciences work with pluralist cultures in ways that will help societies learn from ecological change Traditional religious ethics examines texts and traditions and highlights principles and virtuous behaviors that can apply to particular issues Willis Jenkins develops lines of practical inquiry through prophetic pragmatism an approach to ethics that begins with concrete problems and adapts to changing circumstances This brand of pragmatism takes its cues from liberationist theology with its emphasis on how individuals and communities actually cope with overwhelming problems Can religious communities make a difference when dealing with these issues By integrating environmental sciences and theological ethics into problem based engagements with philosophy economics and other disciplines Jenkins illustrates the wide understanding and moral creativity needed to live well in the new conditions of human power He shows the significance of religious thought to the development of interdisciplinary responses to sustainability issues and how this calls for a new style of religious ethics

Anglican Social Theology Malcolm Brown, 2014-07-04 This volume commissioned by a group of Bishops in hard hit dioceses looks to develop strong theological foundations for local social action initiatives by churches especially for activists who are not familiar with the Church of England's tradition of social theology developed by William Temple and others a century ago

Tensions in Christian Ethics Malcolm Brown, 2011-01-01 The book draws on the author's teaching of ethics at undergraduate and postgraduate level for the Cambridge Theological Federation since 2000 Its purpose is to introduce the reader to questions in Christian ethics through a careful examination of the fundamental meta ethical questions posed by the state we're in whether understood as a new phase of modernity or as postmodernity

Brown draws on sources and authors from a variety of Christian traditions and from Britain the U S A and Europe The book will be of use not only to university departments and denominational and ecumenical teaching institutions but also as a more general exposition of the current state of ethical thinking in the Christian churches **Towards an Ethical Framework for Poverty reduction , Interruption and Imagination** Kjetil Fretheim,2016-12-22 As we are faced with recurring crises financial migration climate etc there is a need to reconsider public theology as both a practice and a field of study By discussing public statements made by Christians faced with different kinds of crisis this book contributes to the development and understanding of public theology The public statements addressed are three kairos documents The Kairos Document from South Africa in the mid 1980s The Road to Damascus document from authors in developing countries issued in 1989 and the Palestinian Kairos Document from 2009 The discussion is structured around three problems of public theology social analysis politics and ethics and language and voice Fretheim suggests a constructionist understanding of public theology a public theology that interrupts current debates and expands the imagination of the public sphere As public theology is concerned with public life and social issues Interruption and Imagination will be of interest to scholars and students of theology political science sociology and religious studies as well as practitioners policymakers and professionals in the public sector civil society churches and Christian organizations *Religion, Economics, and Culture in Conflict and Conversation* Laurie M. Hermeneutical Theology and the Imperative of Public Ethics Paul S. Chung, 2013-10-23 *Hermeneutical Theology and the Imperative of Public Ethics* is a groundbreaking attempt to present constructive missional theology in an integrative and interdisciplinary framework as it provocatively utilizes and contextualizes Reformation theology and hermeneutics concerning ethical theology embedded within the wider horizon of World Christianity Mission as constructive theology is explored and refined in an hermeneutical and interdisciplinary fashion underlying a new horizon of postcolonial theology and mission in light of God s act of speech Missional church founded up God s grace of justification and Christ s diakonia of reconciliation becomes ethically oriented public church as it is engaged in mutireligious diversity of people s lives and lifeworld in the postcolonial context of World Christianity

Celebrating Forty Years of Faith in the City Terry Drummond, Joseph Forde, Alan Billings, Andrew Bradstock, Sophie Valentine Cowan, Ian K. Duffield, Susan Lucas, John Perumbalath, Angus Ritchie, Jenny Sinclair, David Walker, Averil Pooten Watan, 2025-07-15 Faith in the City defined a generation of ministry in the Church of England Some who were there and some who minister in inner city contexts now reflect on its significance

Basic Income in Korea and Beyond Mee-Hyun Chung, 2023-02-08 This book shows that basic income is a powerful tool for realizing economic justice in our modern society Through an interdisciplinary investigation of basic income in Korea involving theological and social scientific perspectives the book covers the topic of basic income on an academic basis an economic basis and in terms of its institutionalization potential Although modern society is a global one centered on the economic ideology of neo liberalism the negative effects of social polarization caused by this are quite severe It is also urgent to come up with alternative solutions to the problems of labor reduction and wage labor Moreover the expansion of productivity through collaboration between humans and artificial intelligence also presents a challenge An

interdisciplinary study on the meaning and restructuring of labor is therefore needed This book traces themes supporting the concept of basic income appearing in the Old and New Testaments as well as precedents relating to basic income in the context of capitalism in the thought of the Reformers Within the framework of Christian ethics the book looks at the ideological basis for basic income and its applicability to the current situation in order to pursue economic justice Additionally the book examines the practical feasibility and rationale for basic income by discussing the economics of basic income financing and the political economy implications for how it can be applied to real politics *Social development under Christian influence. Donnellan lects., 1899-1900* Moritz Kaufmann, 1900 **Historical Dictionary of Ecumenical Christianity**

Ans Joachim van der Bent, 1994-12-01 This historical dictionary covers the major trends in the 20th century ecumenical movement until today It deals with developments in the realms of church unity mission and evangelism laity women in church and society and many other ecumenical subjects It also covers many programs and activities of the World Council of Churches since its inception in 1948 The longer articles survey important theological themes while short articles provide quick reference on a precise question The bibliography is not exhaustive some 50 000 titles have been published since the beginning of this century but very helpful for major bibliographical information The dictionary is particularly strong in American subjects and includes a great number of ecumenical personalities which cannot be found in other reference works This publication is not only an indispensable tool of research for university and seminary libraries but also for individual persons belonging to whatever Christian church who are interested in knowing more about reflections relations and activities in the several regions of the ecumenical world A helpful description of the most important ecumenical assemblies and conferences is provided To take stock of the past to interpret the present and to look forward into the third millennium of Christian existence are exciting and challenging enterprises **Christian Faith, Philosophy & International Relations**

, 2019-10-29 International relations are in constant turbulence Globalisation the rise and fall of superpowers the fragilisation of the EU trade wars real wars terrorism persecution new nationalism and identity politics climate change are just a few of the recent disturbing developments How can international issues be understood and addressed from a Christian faith perspective In this book answers are presented from various Christian traditions Neo calvinism Catholic social teaching critical theory and Christian realism The volume offers fundamental theological and Christian philosophical perspectives on international relations and global challenges case studies about inspiring Christian leaders such as Robert Schuman Dag Hammarskjöld Abraham Kuyper and prophetic critiques of supranational issues **Ernst Troeltsch and Comparative Theology**

Echol Lee Nix, 2010 Ernst Troeltsch and Comparative Theology examines the methodological attempts of Ernst Troeltsch and Robert Neville for discerning Christian normativity The investigation of Troeltsch focuses on his treatment of the absoluteness of Christianity and highlights the crisis brought upon absolute religious claims by the study of the history of religions By rejecting both the supernatural exclusive apologetic of orthodox Protestantism and the evolutionary apologetic of

liberal Protestantism Troeltsch insists that theology's method should be the history of religions method die religionsgeschichtliche Methode Like Troeltsch Neville agrees with historical inquiries but contrary to Troeltsch Neville advances an axiological hypothesis to thinking which is founded in valuation Neville explains the role of valuation at the imaginative level of thinking and relates it to his theory of normative truth in religious symbols This study shows that Neville begins with Troeltsch's methodological presuppositions but achieves more normative theology than Troeltsch especially on ways in which God is engaged in symbolically shaped thinking and practice Both thinkers offer creative insights for theology that make possible a critical comparison of truth claims regarding the validity of Christianity in and for a historically conscious age

Ethics and Advocacy Harlan Beckley, Douglas F. Ottati, Matthew R. Petrusek, William Schweiker, 2022-03-25 Ethics and Advocacy considers the connections and differences between critical reflection or moral arguments or narratives and advocacy for particular issues regarding justice and moral behavior and dispositions The chapters in this volume share an interest in overcoming polarizing division that does not enable fruitful give and take discussion and even possible persuasive justifications The authors all believe that both ethics and advocacy are important and should inform each other but each offers a divergent point of view on the way forward to these agreed upon ends Our shared goal is to avoid academic withdrawal and to speak relevantly to the important issues of our day while halting or at least mitigating the disruptive discourse almost shouting that characterizes our polarized current society
