Future History Rajan P Guruvanshy, 2017-09-27 Most of us have no or short history If you have doubts then try to recollect the names of your forefathers You might stop with your great grand fathers name Their is a limit to most of our past It remains unrecorded hidden or wiped out Hence won t it be beneficial for your grandchildren if we consciously leave them something to remember us The Subject presented in the book is to succeed in today s market driven economy and leave a legacy for your future generations The book focuses on your inherent qualities which lay hidden suppressed for over a 1000 years which the Author tries to awaken More specifically the substance of the book deals with our own traits both independent and inter dependent Self realization of them can be harnessed in the new realm of history making The writings are eye openers for reengineering one self and succeed in the market Youth and Nation-Building in Cameroon. A Study of National Youth Day Messages and Leadership Discourse (1949-2009) Churchill Ewumbue-Monono, 2009 This meticulous and comprehensive documentation of Cameroonian Youth Day Messages and leadership discourse on youth from 1949 2009 is a gold mine for researchers historians and anyone interested in studying youth politics and society in Africa The book presents and explores themes and content of Youth Day Messages how these messages tied in with or veered away from key events and issues of the time how they served as a platform for West Cameroon governments and the Ahidjo and Biya regimes to articulate their political vision justify their policies sell their respective ideologies to the youth and what lessons could be drawn from them on competing conflicting and complementary perspectives on youth agency in Cameroon and Africa Churchill links the Youth Day to ongoing discussions in Africa about the role and place of youths as agents of development in Africa Most significantly he finally puts Cameroon s controversial Youth Day in its appropriate historical context not as a political device created by the Francophone politicians to distort Cameroonian history and erase plebiscite day from the collective memory as Anglophone nationalists claim but as a British Cameroons colonial legacy successfully sold to the Ahidjo regime as a day to be commemorated throughout the federation by leaders of the federated state of West Cameroon Churchill Ewumbue Monono a senior career diplomat is Minister Counsellor in the Cameroon Embassy in Moscow A graduate of the International Higher School of Journalism and the International Relations Institute of Cameroon in the University of Yaounde he was a 1991 92 Fellow in Public Diplomacy in Boston University USA He has served in Cameroon in various professional capacities Ewumbue Monono has written extensively on Cameroon s political history and his books include Men of Courage published in 2005 **Future Survey Annual 1987** Michael Marien, 1988-01-01 *Humanistic Rural Development a Projection* Inter-American Institute of Agricultural Sciences, *1981 Report. Humanistic rural development a projection ,* **Robert Michels, Political Sociology and the Future of Democracy** Juan Linz, 2017-07-05 These essays by the brilliant historian of political science Juan Linz comprise a remarkable intellectual review of the life and work of Robert Michels his major book Political Parties and the dimensions of democracy as a functioning system Linz elucidates the

importance of Michels in a way that offers more than a mechanical view of political parties as some sort of precisely ordered system of authority and influence. Instead, Michels offers a view of politics that is bottom up and untidy, what he calls a reciprocal deference structure. Michels is not simply the father of the iron law of oligarchy, but the idea of politics as a less than orderly network of responsiveness, responsibility, and accountability. Linz demonstrates with magisterial power why Michels must be ranked as a foremost thinker in classical political sociology. The remaining three segments of the volume cover areas with which Linz has also long been identified. Each in its own way illumines aspects of Michels as well. Time and Regime Change articulates differences between change within a regime and change of a regime, sometimes hard to identify because of the elongated time frames involved. The next essay explains why Spain is neither a traditional society nor a successful modern nation. The reliance upon central authority displaced the hoped for evolution of a society based on representative democratic institutions. The final section, Freedom and Autonomy of Intellectuals and Artists, is a topic that gripped Michels and Linz alike. Freedom as a goal of the intelligentsia has been frustrated by those who provide ideological justification for repression of ideas and actions in the name of higher values. This segment provides a bridge between Michels and Weber, not to mention both of these major figures with Linz himself. The role of state power in mediating intellectual freedom is the leitmotif that blankets the twentieth century. The work is graced by a full length bibliography.
