Future Of Foundations In An Open Society:

The Future of Foundations in an Open Society Bertelsmann Stiftung (Gütersloh, Germany), 1999 The forces of globalization affect the world of politics and business in powerful ways Electronic media instant communication and the free flow of goods and services exert pressure on societies to adapt to new ways of life But they also allow for the rapid dissemination of new ideas and perspectives and have made possible the spreading of democratic values and open societies This new environment presents both challenges and opportunities for foundations They are called upon to adopt new roles that were once the domain of state and governmental institutions At the same time they are asked to perform them in better and more efficient ways In addition international integration mandates that their perspectives and strategies transcend national borders This book contains the proceedings of an international symposium hosted by the Bertelsmann Foundation It documents the growing consensus that in the open society it is not enough for foundations to do good they have to do it well The contributors are Dieter Feddersen Caio K Koch Weser Reinhard Mohn Kenneth Prewitt John Richardson and Dorothy S Ridings

Foundations of the American Century Inderjeet Parmar, 2012-04-03 Inderjeet Parmar reveals the complex interrelations shared mindsets and collaborative efforts of influential public and private organizations in the building of American hegemony Focusing on the involvement of the Ford Rockefeller and Carnegie foundations in U S foreign affairs Parmar traces the transformation of America from an isolationist nation into the world's only superpower all in the name of benevolent stewardship Parmar begins in the 1920s with the establishment of these foundations and their system of top down elitist scientific giving which focused more on managing social political and economic change than on solving modern society's structural problems Consulting rare documents and other archival materials he recounts how the American intellectuals academics and policy makers affiliated with these organizations institutionalized such elitism which then bled into the machinery of U S foreign policy and became regarded as the essence of modernity America hoped to replace Britain in the role of global hegemon and created the necessary political ideological military and institutional capacity to do so yet far from being objective the Ford Rockefeller and Carnegie foundations often advanced U S interests at the expense of other nations Incorporating case studies of American philanthropy in Nigeria Chile and Indonesia Parmar boldly exposes the knowledge networks underwriting American dominance in the twentieth century

The Nonprofit Sector Walter W. Powell, Richard Steinberg, 2006-01-01 Provides a multi disciplinary survey of nonprofit organizations and their role and function in society This book also examines the nature of philanthropic behaviours and an array of organizations international issues social science theories and insight

The Politics of Foundations Helmut Anheier, Siobhan Daly, 2006-11-24 This book explores the roles and visions foundations have of and for themselves in the new Europe The leading contributors go beyond a quantitative profile of foundations in Europe and probe deeper into their role and contributions in meeting the economic cultural environmental and educational needs of European societies Includes a mapping and appraisal of

foundation visions policies and strategies and an overall assessment of the current and future policy environment in which they operate The Politics of Foundations combines the detailed comparative analysis of current challenges facing foundations with individual country studies on Austria Belgium Czech Republic Denmark Estonia France Germany Greece Hungary Ireland Italy the Netherlands Norway Poland Spain Sweden Switzerland and the United Kingdom and also includes a comparative view from the United States This valuable reference will be of interest to researchers and students of foundations policy making comparative politics and international business as well as policy makers and professionals

Creative Philanthropy Helmut K. Anheier,Diana Leat,2006-04-18 Philanthropy and endowed foundation are vitally important institutions of modern society yet in recent years they ve faced new threats such as declining resources and questions of accountability and performance To address these questions individual philanthropists and foundation leaders have looked to strategic philanthropy to become more effective and efficient This important book provides an overview of creative philanthropy along with an analysis of its theory and practice The authors spell out the implications of their study for management and policy and provide readers with vital tools and techniques Drawing on case study examples and incorporating sections on key questions and dilemmas this revealing book covers the philanthropic deficit finding a distinctive role to do more with less characteristics of the creative foundation beyond strategic philanthropy the strength of creative philanthropy developing creative foundations and philanthropic practices Essential reading for all those who study or work in foundations philanthropy and non profit organizations this volume clearly navigates a path through this significant yet highly complex subject area Manufacturing Civil Society T. Brandsen,W. Trommel,B. Verschuere,2014-05-07 Faced with falling social cohesion governments have sought to revitalise society by trying to reconstruct local communities civil society and citizenship As a result civil society is increasingly brought within the realm of public management subject to accountability and embedded in hierarchies the impact and origins of which this book explores **Strategic Giving** Peter Frumkin,2008-09-15 The philanthropic landscape is changing dramatically as a new generation of wealthy donors seeks to leave its mark on the public sphere Peter Frumkin reveals in Strategic Giving why these donors could benefit from having a comprehensive plan to guide their giving And with this thoughtful and timely book he provides the much needed framework to understand and develop this kind of philanthropic strategy After listening for years to scores of individual and institutional funders discuss the challenges of giving wisely Frumkin argues here that contemporary philanthropy requires a thorough rethinking of its underlying logic Philanthropy should be seen he contends as both a powerful way to meet public needs and a meaningful way to express private beliefs and commitments He demonstrates that finding a way to simultaneously fulfill both of these functions is crucial to the survival of philanthropy and its potential to support pluralism in society And he goes on to identify the five essential elements donors must consider when developing a philanthropic strategy the vehicle through which giving will flow the way impact will be achieved the level of engagement and profile sought the time frame for giving and the

underlying purpose of the gift Frumkin's point is that donors must understand strategic giving as the integration of these five critical dimensions to giving Essential reading for donors researchers and anyone involved with the world of philanthropy Strategic Giving provides a new basis for understanding philanthropic effectiveness and a promising new way for philanthropy to achieve the legitimacy that has at times eluded it **Europa International Foundational Directory 2024**

Agenda Setting: A Wise Giver's Guide to Influencing Public Policy John J. Miller, Karl Zinsmeister, Ashley May, 2015-03-07 Donating money to modify public thinking and government policy has now taken its place next to service centered giving as a constructive branch of philanthropy Many donors now view public policy reform as a necessary adjunct to their efforts to improve lives directly This is perhaps inevitable given the mushrooming presence of government in our lives In 1930 just 12 percent of U S GDP was consumed by government by 2012 that had tripled to 36 percent Unless and until that expansion of the state reverses it is unrealistic to expect the philanthropic sector to stop trying to have a say in public policies Sometimes it s not enough to build a house of worship one must create policies that make it possible for people to practice their faith freely within society Sometimes it s not enough to pay for a scholarship one must change laws so that high quality schools exist for scholarship recipients to take advantage of Yet public policy philanthropy has special ways of mystifying and frustrating practitioners It requires understanding of governmental practice interpretation of human nature and some philosophical perspective Public policy philanthropists may encounter opponents operating from different principles who view them as outright enemies Moreover public policy struggles never seem to end victories one year become defeats the next followed by comebacks then setbacks and on and on This book was written to help donors navigate all of those obstacles It draws on deep history and rich interviews with the very best practitioners of public policy philanthropy in America today Whatever your aspirations for U S society and governance this guide will help you find the best ways to make a difference
