**Maoism in India** Bidyut Chakrabarty, Rajat Kumar Kujur, 2009-12-04 The rise of Maoism as one of the organized political movements in India is the outcome of a historical situation. Both colonialism and the failure of the Indian state to implement land reforms more stringently in the aftermath of independence resulted in terrible sufferings of the marginalized and land-dependent sections of society. Through historical analysis, this book assesses the ideological articulation of the contemporary ultra-left movement in India, including Maoism, which is expanding gradually in India. The author provides answers to the following issues: Is Maoism reflective of the growing disenchantment of the people in the affected areas with the state? Is it a comment on the distorted development planning pursued by the Indian state? Is this an outcome of the processes of deepening of democracy in India? Using Orissa as a case study, the book raises questions on India's development strategy. The author argues that Maoism provides critical inputs for an alternative paradigm for development relevant for transitional societies and that it is still a powerful ideology for the poorer parts of the world, although its ideological appeal has declined internationally.

**The Emergence of Global Maoism** Matthew Galway, 2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong's writings, ideology, and institutions when they traveled outside of China. Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals. How do ideas manifest outside of their place of origin? Galway analyzes how universal ideological systems became localized both in Mao's indigenization of Marxism-Leninism and in the Communist Party of Kampuchea's indigenization of Maoism into its own revolutionary ideology. By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full-fledged Communists, he shows that they responded to political and socioeconomic crises by speaking back to Maoism, adapting it through practice without abandoning its universality. Among Mao's greatest achievements, the Sinification of Marxism enabled the CCP to canonize Mao's thought and export it to a progressive audience of international intellectuals. These intellectuals would come to embrace the ideology as they set a course for social change. The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia.

*Maoism* Julia Lovell, 2019-09-03 WINNER OF THE 2019 CUNDILL HISTORY PRIZE, SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON FICTION 2019, SHORTLISTED FOR THE NAYEF AL RODHAN PRIZE FOR GLOBAL UNDERSTANDING, SHORTLISTED FOR DEUTSCHER PRIZE, LONGLISTED FOR THE 2020 ORWELL PRIZE FOR POLITICAL WRITING. Revelatory and instructive, a beautifully

written and accessible book *The Times* For decades the West has dismissed Maoism as an outdated historical and political phenomenon Since the 1980s China seems to have abandoned the utopian turmoil of Mao's revolution in favour of authoritarian capitalism But Mao and his ideas remain central to the People's Republic and the legitimacy of its Communist government With disagreements and conflicts between China and the West on the rise the need to understand the political legacy of Mao is urgent and growing The power and appeal of Maoism have extended far beyond China Maoism was a crucial motor of the Cold War it shaped the course of the Vietnam War and the international youth rebellions that conflict triggered and brought to power the murderous Khmer Rouge in Cambodia it aided and sometimes handed victory to anti colonial resistance movements in Africa it inspired terrorism in Germany and Italy and wars and insurgencies in Peru India and Nepal some of which are still with us today more than forty years after the death of Mao In this new history Julia Lovell re-evaluates Maoism as both a Chinese and an international force linking its evolution in China with its global legacy It is a story that takes us from the tea plantations of north India to the sierras of the Andes from Paris's fifth arrondissement to the fields of Tanzania from the rice paddies of Cambodia to the terraces of Brixton Starting with the birth of Mao's revolution in northwest China in the 1930s and concluding with its violent afterlives in South Asia and resurgence in the People's Republic today this is a landmark history of global Maoism

**Future of Maoism** Samir Amin, 1981-01-01 0 [Ending the Crisis of Capitalism Or Ending Capitalism?](#) Samir Amin, 2010-11-25 The factors that brought about the 2008 financial collapse are examined in this analysis that explores the systemic crisis of capitalism after two decades of neoliberal globalization Samir Amin lays bare the relationship between dominating oligopolies and the globalization of the world economy and argues that the current crisis is a profound crisis of the capitalist system itself bringing forward an era in which wars and perhaps revolutions will once again shake the world The author examines the threat to the plutocracies of the United States Europe and Japan from decisions of recent G20 meetings and analyzes these powers' attempts to get back to the pre 2008 system and to impose their domination on the peoples of the South through intensifying military intervention by using institutions such as NATO An alternative strategy which by building on the advances made by progressive forces in Latin America would allow for a more humane society through both the North and the South working together is proposed
