Holstein-Friesian Association of America,1921 **Oil and Gas Field Code Master List** ,1982 *National Telephone Directory* United States. Department of Energy,1981 **Objects of Survivance** Lindsay M. Montgomery,Chip Colwell,2019-11-21 Between 1893 and 1903 Jesse H Bratley worked in Indian schools across five reservations in the American West As a teacher Bratley was charged with forcibly assimilating Native Americans through education Although tasked with eradicating their culture Bratley became entranced by it collecting artifacts and taking glass plate photographs to document the Native America he encountered Today the Denver Museum of Nature Science s Jesse H Bratley Collection consists of nearly 500 photographs and 1 000 pottery and basketry pieces beadwork weapons toys musical instruments and other objects traced to the S Klallam Lakota Sioux Cheyenne Arapaho Havasupai Hopi and Seminole peoples This visual and material archive serves as a lens through which to view a key moment in US history when Native Americans were

sequestered onto reservation lands forced into unfamiliar labor economies and attacked for their religious practices Education the government hoped would be the final tool to permanently transform Indigenous bodies through moral instruction in Western dress foodways and living habits Yet Lindsay Montgomery and Chip Colwell posit that Bratley s collection constitutes objects of survivance things and images that testify not to destruction and loss but to resistance and survival Interwoven with documents and interviews Objects of Survivance illuminates how the US government sought to control Native Americans and how Indigenous peoples endured in the face of such oppression Rejecting the narrative that such objects preserve dying Native cultures Objects of Survivance reframes the Bratley Collection showing how tribal members have reconnected to these items embracing them as part of their past and reclaiming them as part of their contemporary identities This unique visual and material record of the early American Indian school experience and story of tribal perseverance will be of value to anyone interested in US history Native American studies and social justice Co published with the Denver Museum of Nature Science Hearings, Reports and Prints of the House Committee on Interstate and Foreign Commerce United States. The Chinese Typewriter Thomas S. Mullaney,2018-10-09 How Chinese characters triumphed over the QWERTY keyboard and laid the foundation for China s information technology successes today Chinese writing is character based the one major world script that is neither alphabetic nor syllabic Through the years the Chinese written language encountered presumed alphabetic universalism in the form of Morse Code Braille stenography Linotype punch cards word processing and other systems developed with the Latin alphabet in mind This book is about those encounters in particular thousands of Chinese characters versus the typewriter and its QWERTY keyboard Thomas Mullaney describes a fascinating series of experiments prototypes failures and successes in the century long quest for a workable Chinese typewriter The earliest Chinese typewriters Mullaney tells us were figments of popular imagination sensational accounts of twelve foot keyboards with 5 000 keys One of the first Chinese typewriters actually constructed was invented by a Christian missionary who organized characters by common usage but promoted the less common characters for Jesus to the common usage level Later came typewriters manufactured for use in Chinese offices and typewriting schools that turned out trained typewriter girls and typewriter boys Still later was the Double Pigeon typewriter produced by the Shanghai Calculator and Typewriter

Factory the typewriter of choice under Mao Clerks and secretaries in this era experimented with alternative ways of organizing characters on their tray beds inventing an input method that was the first instance of predictive text Today after more than a century of resistance against the alphabetic not only have Chinese characters prevailed they form the linguistic substrate of the vibrant world of Chinese information technology The Chinese Typewriter not just an object history but grappling with broad questions of technological change and global communication shows how this happened A Study of the Weatherhead East Asian Institute Columbia University
