Education In Britain Since 19:

Education in Britain Since 1944 W Kenneth Richmond, 2013-10-28 Originally published 1978 This volume examines the purpose and the functioning of the present education system in the UK and when it was originally published it was the first overall review of developments in British education since the 1944 Education Act It discusses some of the most significant reforms which have stemmed from developments in the primary schools in particular from the adoption of child centred and progressive methods of teaching

Welfare and Social Policy in Britain Since 1870 Lawrence Goldman, 2019-01-24 This collection of twelve essays reviews the history of welfare in Britain over the past 150 years It focuses on the ideas that have shaped the development of British social policy and on the thinkers who have inspired and also contested the welfare state It thereby constructs an intellectual history of British welfare since the concept first emerged at the end of the nineteenth century The essays divide into four sections The first considers the transition from laissez faire to social liberalism from the 1870s and the enduring impact of late Victorian philosophical idealism on the development of the welfare state It focuses on the moral philosophy of T H Green and his influence on key figures in the history of British social policy like William Beveridge R H Tawney and William Temple The second section is devoted to the concept of planning which was once in the mid twentieth century at the heart of social policy and its implementation but which has subsequently fallen out of favour A third section examines the intellectual debate over the welfare state since its creation in the 1940s Though a consensus seemed to have emerged during the Second World War over the desirability and scope of a welfare state extending from the cradle to the grave libertarian and conservative critiques endured and re emerged a generation later A final section examines social policy and its implementation more recently both at grass roots level in a study of community action in West London in the districts made infamous by the fire at Grenfell Tower in 2017 and at a systemic level where different models of welfare provision are shown to be in uneasy co existence today The collection is a tribute to Jose Harris emeritus professor of history in the University of Oxford and a pioneer of the intellectual history of social policy Taken together these essays conduct the reader through the key phases and debates in the history of British welfare

Critical Histories in Care and Education Kate Brooks, 2025-02-07 This groundbreaking and thought provoking book puts the care experience at the centre of education history Engaging and accessible *Critical Histories in Care and Education* provides historical insight to the growing field of care studies and reveals how nineteenth century assumptions and prejudices about care experienced pupils helped shape education policy and continue to do so today Drawing together original archive research with critical theory and written by an academic researcher and writer who is a foster carer herself the book challenges some of the key myths and stereotypes involving the care experience and shines an illuminating light on their origins Aimed primarily at undergraduate and postgraduate students in education this book identifies discursive threads and provides a fresh insight through a critical retelling of the history of the care system In combining the histories of

care and education it challenges some taken for granted assumptions about both Throughout the book students are invited to critically examine relationships between gender class care and work and how they continue to impact on the role today The book is a vital resource for anyone involved in studying childhood education welfare and care and will appeal to anyone wanting to broaden their knowledge and critical understanding of this complex topic **Universities and Elites in Britain**

Since 1800 R. D. Anderson,1995-09-28 A clear and concise introduction to the history of British universities covering all parts of the British Isles *The Culture of Care in Britain since the Second World War* Bernice Martin,2025-02-24 This book examines the evolving value of caregiving in Britain from the welfare state s inception to the present day It explores the shifts in discourse surrounding care charting key social demographic economic political and cultural changes which have led to the current care crisis The author examines five key themes the tension within institutional Christianity between caring for the marginalized versus maintaining respectability the secularization of the value of care and its interaction with emerging social divisions the persistent expectation that women bear the caregiving burden the economic and social undervaluation of emotional and practical care work and the challenges facing the care and health sectors The author suggests that recalibrating the tax system to shift the burden from incomes to profits may be necessary for the survival of welfare systems under these new conditions British Sport: a Bibliography to 2000 Richard Cox,2013-12-16 Volume one of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian

Commonwealth in the 1980's A.J.R. Groom,Paul Taylor,2016-01-23 *What has happened to Sub-Regional Public Sector Efficiency in England since the Crisis?* Samya Beidas-Strom,2017-02-14 This paper estimates public sector service efficiency in England at the sub regional level studying changes post crisis during the large fiscal consolidation effort It finds that despite the overall spending cut and some caveats owing to data availability efficiency broadly improved across sectors particularly in education However quality adjustments and other factors could have contributed e g sector and technology induced reforms It also finds that sub regions with the weakest initial levels of efficiency converged the most post crisis These sub regional changes in public sector efficiency are associated with changes in labor productivity Finally the paper finds that regional disparities in the productivity of public services have narrowed especially in the education and health sectors with education attainment population density private spending on high school education and class size being to be the most important factors explaining sub regional variation since 2003 **Brian Simon and the Struggle for Education**

Gary McCulloch,Antonio Fco Canales,Hsiao-Yuh Ku,2023-09-21 This is the first full length study of the life and career of Brian Simon 1915 2002 leading Marxist intellectual and historian of education in twentieth century Britain Using documentary sources that have only recently become publicly available it reveals the remarkably broad range of Simon s life as student soldier and school teacher Communist Party activist and educational academic campaigner and reformer In a

sympathetic biography that yet retains critical distance the authors analyse Simon's contribution to Marxism and the CP explore the influence of both on his work as a historian of education and trace the significance of his Marxist beliefs political associations and historical approach to the cause of educational reform In so doing they consider the full nature and limitations of Simon's achievements in his struggle for education Unlike many Marxist scholars he remained loyal to the CP in the 1950s which damaged his reputation as a public intellectual Nevertheless his support for comprehensive education helped to promote egalitarian educational reforms in Britain although he was later unable to provide sufficient resistance to the 1988 Education Reform Act and to a decline in the position of the comprehensive schools In all this the significance of Simon's family and especially his relationship with his wife Joan is to the fore Joan and Brian forged a formidable 60 year partnership in politics and the CP as well as in life that lasted until Brian's death in January 2002
