(Ina) ter Avest, 2019-11-22 There are two constants in academic and theological discourse throughout history they are the debate around secularization and the dialogue concerning the intersection of religion and education Each age has had its debate about modernizing forces that drive concerns of impending secularization In this publication this theme is approached from perspectives of teachers of students of policy makers and situated in a politico historical context Aware of the fact that in today's plural societies one sacred canopy is non-existent anymore cracks of the sacred canopy canopies are described as well as the light that gets in the possible and challenging ways out are roughly sketched

**Education, Religion and Diversity** L. Philip Barnes, 2014-02-05

In this thoughtful and provocative book Philip Barnes challenges religious educators to re-think their field and proposes a new post-liberal model of religious education to help them do so His model both confronts prejudice and intolerance and also allows the voices of different religions to be heard and critically explored While *Education Religion and Diversity* is directed to a British audience the issues it raises and the alternative it proposes are important for those educators in the United States who believe that the public schools have an important role in teaching students about religion Walter Feinberg Professor Emeritus of Education Policy Organization and Leadership at the University of Illinois Urbana Champaign Philip Barnes offers a penetrating and lucid analysis of the strengths and weaknesses of modern religious education in Britain He considers a range of epistemological and methodological issues and identifies two contrasting models of religious education that have been influential what he calls a liberal and a postmodern model After a detailed review and criticism of both he outlines his own new post-liberal model of religious education one that is compatible with both confessional and non-confessional forms of religious education yet takes religious diversity and religious truth claims seriously Essential reading for all religious educators and those concerned with the role of religion in schools Bernd Schröder Professor of Practical Theology and Religious Education University of Göttingen What place if any does religious education have in the schools of an increasingly diverse society This lucid and authoritative book makes an incisive contribution to this crucial debate Roger Trigg is Emeritus Professor of Philosophy University of Warwick and Senior Research Fellow Ian Ramsey Centre Oxford The challenge of diversity is central to education in modern liberal democratic states and religious education is often the point where these differences become both most acute and where it is believed of all curriculum subjects resolutions are most

likely to be found Education Religion and Diversity identifies and explores the commitments and convictions that have guided post confessional religious education and concludes controversially that the subject as currently theorised and practised is incapable of challenging religious intolerance and of developing respectful relationships between people from different communities and groups within society It is argued that despite the rhetoric of success which religious education is obliged to rehearse in order to perpetuate its status in the curriculum and to ensure political support a fundamentally new model of religious education is required to meet the challenge of diversity to education and to society A new framework for religious education is developed which offers the potential for the subject to make a genuine contribution to the creation of a responsible respectful society Education Religion and Diversity is a wide ranging provocative exploration of religious education in modern liberal democracies It is essential reading for those concerned with the role of religion in education and for religious and theological educators who want to think critically about the aims and character of religious education

*Engaged Pedagogy, Enraged Pedagogy: Reconciling Politics, Emotion, Religion, and Science for Critical Pedagogy* T. Monchinski, 2011-07-23 Students teachers and schools are under attack The assault comes in the guise of accountability and choice cloaking itself in the scientifically proven with an over emphasis of data It combines a vilification of organized labor along with a promotion of the irrational while readily blurring the line between utopia and dystopia The attack abuses education as it disseminates self serving propaganda simultaneously covering up inconvenient truths like the United States government s long and storied relationships with Saddam Hussein and Osama bin Laden in the Wars on Terror It suppresses solidarity and compassion while it champions a divisive form of selfish individualism Engaged Pedagogy Enraged Pedagogy seeks to counter these attacks and expose the ideological impulses behind them Marshalling critical pedagogy and an ethic of care with the notions of justified anger and the intellectual warrior the book explores the non antagonistic dualisms between faith and science reason and emotion it deconstructs social texts ranging from 80s action films to dystopian literature as it uncovers the ideologies that structure and order our lives it explores and champions the democratic potential of dialogue mutuality and authority while challenging left essentialism and identity politics The book also features an interview with Joe Kincheloe a seminal figure in the field of critical pedagogy      *Congress of Arts and Science: Education.
