Education Of The Young Child:

Families, Schools, and Communities Donna Lee Couchenour, Kent Chrisman, 2000 Families schools and communities together for young children Donna Couchenour Kent Chrisman *Threads of Thinking* Cathy Nutbrown, 1999-07-23 If you are interested in understanding the behaviour and interests of young children this is the place to start Cathy Nutbrown draws upon her own extensive experience of working with children and Early Years Practitioners to demystify the concept of Schemas These are recognizable patterns of behaviour which indicate how children are making the connections necessary for the development of thought and understanding The extensive illustrations and jargon free text make this an excellent text for students parents and workers who wish to be more closely in tune with young children It is the book that I most often lend or recommend to Early Years colleagues and students Seriously interested readers will almost certainly also wish to read the seminal work of Chris Athey 1990 *Extending Thought in Young Children* A Parent Teacher Partnership published by Paul Chapman Publishing London Amazon Review If you are interested in understanding the behaviour and interests of young children this is the place to start Cathy Nutbrown draws upon her own extensive experience of working with children and Early Years Practitioners to demystify the concept of Schemas These are recognizable patterns of behaviour which indicate how children are making the connections necessary for the development of thought and understanding The extensive illustrations and jargon free text make this an excellent text for students parents and workers who wish to be more closely in tune with young children It is the book that I most often lend or recommend to Early Years colleagues and students Seriously interested readers will almost certainly also wish to read the seminal work of Chris Athey 1990 *Extending Thought in Young Children* A Parent Teacher Partnership published by Paul Chapman London Amazon Review The focus of *Threads of Thinking* is on children s patterns of learning and thinking particularly schemas However the book as a whole is much more than that and provides material for reflection by anyone working with and for young children Many of the examples discussed are ones considered in the First Edition but the changes Cathy Nutbrown has made throughout the book bring it right up to date including some speculation on the ideas of a foundation stage in England There is much here that is valuable for reading alone but also a lot that could be shared by groups of people including those already working in the field as well as those in training International Journal of Early Years Education There are some excellent sections on scientific and mathematical learning in Part Three Many practical ideas are provided for developing these concepts in young children There are also excellent sections on literacy that again provide valuable insight into developing these concepts There are valuable ideas and suggestions in the book and I feel that teachers of young children in nurseries or early years settings would be quite interested in the contents Education Review *Threads of Thinking* Second Edition is a book for teachers in nursery and early education and for other professional educators who wish to support and develop children s thinking The author presents evidence of continuity and progression in young children s thinking and shows with detailed observations that they are able

and active learners She considers aspects of children's patterns of learning and thinking or schemas and demonstrates clearly how children learn in an active dynamic and creative way Numerous examples of young children in action are used which illustrate their learning in areas of literacy mathematics and science Implications for curriculum assessment and work with parents are thoroughly considered in a style that compels attention to children's own learning agendas *Threads of Thinking* was first published in 1994 and though children's ways of learning may not have changed the national context of early childhood education has undergone quite radical change In response to these and other important policy developments this fully revised Second Edition includes numerous detailed descriptions of children learning and discusses those observations in the light of our understanding about how children learn and how early childhood educators might teach The impact of current national policies is addressed throughout including the implications for teachers of early assessment and the relationship of assessment to learning

Teaching Young Children Michael L. Henniger, 2002 Exceptionally lively practical and reader friendly this introduction to early childhood education book is unique because of its focus on the value of play Strong coverage of child development as well as thoughtful discussions about guiding young children working with families and celebrating diversity will help teachers facilitate all aspects of the 0 to 8 year old child's physical social emotional and intellectual growth The book also includes an overview and concise history of the field information on professional development and clear explanations of theoretical foundations for early childhood education Chapters on curriculum in the areas of mathematics science social studies language and literacy and the creative arts show teachers how to link theory to classroom practice making this comprehensive and engaging book particularly useful

Preschool Education in America Barbara Beatty, 1995-01-01 A history of policies and programmes for the education of three to five year olds in the USA This book also traces efforts to make pre school education a part of the American public school system and shows why these efforts have been rejected despite evidence of pre school benefit

Guiding Young Children's Learning S. W. Lundsteen, N. B. Tarrow, 1978 The Education of the Young Child David Fontana, 1991-01-08 This book provides a comprehensive introduction to the theory and practice of working with young children in nursery and infant schools The second edition of this popular and successful handbook has been revised throughout to take account of recent work and new chapters have been added to Cognitive Development by Sohan and Celia Modgil Assessment by Steve Tyler and Parent School Relationships by Teresa Smith Intended for students and teachers The Education of the Young Child approaches the subject in a straightforward and readable way emphasizing the implications of the topics covered for the actual business of teaching three to seven year olds These topics include the major curricular activities carried out in nursery and infant schools such as play music art and craft movement reading and writing and number skills There are also chapters on all the major aspects of psychological and social development in young children for example the development of language of physical growth of thinking of intelligence and creativity and of social behavior and personality Throughout the book the accent is upon clarity and informality The authors are all experts in their particular fields and all have had professional experience of the three to seven year old age group *Starting School* Brooker, Liz, 2002-04-01 This is a unique portrait of a group of working class families whose 4 year old children start school on the cusp of the millenium in urban Britain It is a brilliant analysis of ways in which parents children and teachers strive to cross cultural and linguistic boundaries to come to a common understanding of school Beautifully written it is essential reading for all involved in the education of young children Eve Gregory Professor of Language and Culture in Education Goldsmiths University of London This book will challenge and support practitioners in their quest to improve early childhood practice The use of theory is friendly and the real life examples of the experiences of young children and their parents really bring home to the reader the experience of inequality Readers will rarely find a book which expresses the complexity of educational experience in such an accessible form This is a valuable book for every level of early years training Iram Siraj Blatchford Professor of Early Childhood Education Institute of Education University of London How does the home experience of children from poor and ethnic minority communities influence their adaptation to school How does the traditional child centred and progressive pedagogy of early years classrooms meet the needs of children from culturally diverse backgrounds *Starting School* seeks to address these key questions by tracing the learning experiences of individual children from a poor inner urban neighbourhood half of them from Bangladeshi families as they acquire the knowledge appropriate to their home culture and then take this knowledge to their reception class The book highlights the small differences in family life in

parenting practices in perspectives on childhood and in beliefs about work and play which make a big difference to children's adaptations to school. In other words it shows how children succeed and fail from their early days at school. It shows too how the good intentions of good teachers can sometimes allow children from certain backgrounds to become disaffected and learn to fail and it suggests ways of working with children from working class and multicultural families which may help both children and parents to gain a better understanding of school learning in the UK.

Educating and Caring for Very Young Children Doris Bergen, Rebecca Reid, Louis Torelli, 2008-11-29 Praise for the first edition: The text is unique in that it focuses the education that takes place through warm responsive adult-child interactions. *Times Journal* November 15 2000. This is the revised and updated edition of the bestselling textbook on caring and educating infants and toddlers. The authors use case studies and new research to show educators how to transform curricula for very young children into a dynamic responsive experience. The insightful text includes a focus on play, attention to the physical and social environments and advice for accommodating children with different developmental levels, backgrounds, personalities and special needs. The second edition of this popular resource features discussion of NAEYC's most recent standards, State standards and assessments, Eco-friendly classroom materials, Environments for children with disabilities, Developmentally appropriate curricula, Cultural diversity and non-English speaking families, Mental health issues for infants and toddlers. This book is an essential tool for early childhood educators and educators, administrators, parents and all involved in the care and development of very young children. Total Learning Joanne Hendrick, Patricia Weissman, 2007 For a course covering Early Childhood Curriculum. This text is based on primarily a constructivist philosophy and advocates designing curriculum that uses children's emerging interests within a flexible and thoughtful teacher-guided plan. The developmental approach emphasizes that learning should be integrated. The text addresses curriculum through discussion of the five selves: physical, emotional, social, creative and cognitive. The authors emphasize play, cross-cultural sensitivity and encouraging competence in young children. The clear writing and practical examples ensure easy reading. The concise writing style, relevant examples and practical suggestions are hallmarks of this text. Present-day emergent curriculum programs are explored in *New Emergent Curriculum in Action*, which features well-developed tables that organize pertinent information. The excellent theoretical base and conceptual framework for curriculum provide understanding that will stay with students forever. The text encourages students to respond to the needs of children but also explains how to identify goals and objectives, incorporate them into curriculum that meets individual needs and use developmentally appropriate assessment methods.

Building Knowledge in Early Childhood Education Jane Murray, 2017-04-27 A focal point of early childhood education is how young children build knowledge and the ways that practitioners, parents and carers can help them to do so. Many adults find it challenging to identify what knowledge young children are building and how they do so, making it difficult to support young children's learning and development in the most

effective ways This essential guide will help you to identify and develop young children s knowledge and understanding in early years settings not only in terms of statutory requirements but far beyond them Building Knowledge in Early Childhood Education draws on empirical research findings from the Young Children As Researchers YCAR project to examine everyday activities and reveal the means that young children use to build knowledge and understanding as well as exploring the similarities between learning behaviours in early childhood and adult life Interweaving everyday activities in practice with research and theory this book covers how young children construct knowledge learning problem solving and exploring concepts and conceptualising in early childhood evidence based decision making how young children behave as researchers Offering practical advice and suggestions to create opportunities that identify and facilitate young children s own constructions of knowledge and understanding this book is essential reading for practitioners students and all those interested in the theories surrounding young children as researchers

What Kids Need Rima Shore, 2002-06-30 A Carnegie Corporation Initiative Summarizing a Decade of Progress in Early Education *What Kids Need* is a compelling case for making the welfare of all our youngest a national priority it is essential reading for those who work with children and for parents who recognize that the future of their children is profoundly connected to the well being of all youth in America Drawing on a decade of research on children up to the age of ten by top experts *What Kids Need* challenges the belief that early risk factors and problems severely constrain a child s life chances This groundbreaking and encouraging book explores the range of effective parenting techniques and social supports programs and policies that really work While politicians parents and educators across the political spectrum call for improving the lives of American children *What Kids Need* lays the groundwork for bringing this goal within our reach Can we put to use our knowledge about how children develop how they acquire the skills and concepts needed for success and how families communities and schools can support their healthy development so that all American children can thrive For over a decade the Carnegie Foundation has funded research on the needs of children and has been at the forefront of the early education movement The foundation promotes programs and policies that better the lives of families with young children and seeks to broaden public interest in their future
