Comparative Perspectives on Refugee Youth Education Alexander W. Wiseman,Lisa Damaschke-Deitrick,Ericka L. Galegher,Maureen F. Park,2019-05-22 This volume explores the shared expectations that education is a panacea for the difficulties that refugees and their receiving countries face This book investigates the ways in which education is both a dream solution as well as a contested landscape for refugee families and students Using comparative cross national perspectives across five continents the editors and contributors critically analyze the educational structures policies and practices intended to support refugee youth transition from conflict and post conflict zones to mainstream classrooms and schools in their new communities

Systematic Approaches to Mental Health Care and Promotion Bach Tran,Roger C. Ho,Brian James Hall,2020-06-05

Globally mental health problems remain as one of the largest contributors to the population burden of diseases According to WHO common mental disorders including depression and anxiety affect the health of about 9% of the world's population and account for over 10% of the total years lived with disability In many parts of the world the number of people with mental health disorders has been increasing fueled by a rapid population growth and aging as well as urbanization and immigration It is estimated that 80% of these non fatal diseases occurred in low and middle income countries However in such settings coverage of both preventive and curative services is still very limited Diversity in socio cultural backgrounds and limited capacity of local health care systems are emphasizing the importance of systematic approaches to understanding and intervening in the issue Although the social economic and health burden of mental health issues are substantial effectiveness of policies and interventions is varied across regions and largely driven by contextual factors Evidence based prevention and treatment approaches involve the synthesis of epidemiological surveys assessment of clinical populations e.g chronic medical diseases chronic psychiatric illnesses and studies exploring the role of biological markers in psychiatric illnesses This Research Topic aims to introduce the latest research findings on the application of system thinking in Mental Health Care

and Promotion **Resources in Education** ,1997 **Wellbeing and Resilience Education** Mathew A.
