Educational Competition Roy Bedichek, 1956 This book contains the most thorough examination of competition as an educational force that has yet appeared It is far more than the history of the University Interscholastic League it is an intelligent and consistent evaluation of rivalry as a motivating force in education and of interscholastic competition as a means of turning to advantage the strong competitive urge present in most human beings front flap of dust jacket

Writing the Story of Texas Patrick L. Cox, Kenneth E. Hendrickson, Jr., 2013-03-01 The history of the Lone Star state is a narrative dominated by larger than life personalities and often contentious legends presenting interesting challenges for historians Perhaps for this reason Texas has produced a cadre of revered historians who have had a significant impact on the preservation some would argue creation of our state's past An anthology of biographical essays *Writing the Story of Texas* pays tribute to the scholars who shaped our understanding of Texas's past and ultimately the Texan identity Edited by esteemed historians Patrick Cox and Kenneth Hendrickson this collection includes insightful cross generational examinations of pivotal individuals who interpreted our history On these pages the contributors chart the progression from Eugene C Barker's groundbreaking research to his public confrontations with Texas political leaders and his fellow historians They look at Walter Prescott Webb's fundamental innovative vision as a promoter of the past and Ruthe Winegarten's efforts to shine the spotlight on minorities and women who made history across the state Other essayists explore Llerena Friend delving into an ambitious study of Sam Houston Charles Ramsdell courageously addressing delicate issues such as racism and launching his controversial examination of Reconstruction in Texas Robert Cotner an Ohio born product of the Ivy League bringing a fresh perspective to the field and Robert Maxwell engaged in early work in environmental history

The Ideology of Competition in School Music Sean Robert Powell, 2023 *The Ideology of Competition in School Music* explores competition as a structuring force in school music and provides critiques of that system from multiple philosophical and theoretical perspectives Competition is seen by many music teachers students and supporters as natural and inevitable a taken for granted aspect of music education or an irresistible force rather than a choice This book uncovers this ideological nature of competition and examines its effect on student learning teacher agency and equity within music education It considers ways in which music educators might reconsider the role of competition in their teaching practice and offers alternative frameworks for organizing school music In this book author Sean Robert Powell views competition as a microcosm of the wider neoliberal capitalist society in which subjects are interpellated in an antagonistic competitive field as market logic dictates a system of accountability reduction and audit culture Music teachers students and education administrators consciously and unconsciously reinforce replicate and sustain the competitive structure even if they do so while expressing a cynical disavowal Powell considers competition broadly including for example formal competitions between schools in which ensembles are given numerical scores and ranked festivals in which groups are given ratings based on pre given criteria

state regional and national honor ensembles hierarchical arrangements within school music programs or simply the pursuit of social prestige reputation and ever higher performance standards Although the book provides examples from the competitive landscape of school music in the United States and especially Texas considered a hyper example of competitive culture Powell s analyses and discussions are relevant to readers in any context around the world Although the degree to which competitive achievement as an explicitly stated aim of instruction varies from program to program and location to location the realism of neoliberal capitalism and its effect on all aspects of education is a global phenomenon *The Rise of American High School Sports and the Search for Control* Robert Pruter,2013-08-29 Nearly half of all American high school students participate in sports teams With a total of 7 6 million participants as of 2008 this makes the high school sports program in America the largest organized sports program in the world Pruter s work traces the history of high school sports from the student led athletic clubs of the 1800s through to the establishment of educator control of high school sports under a national federation by the 1930s Pruter s research serves not only to highlight this rich history but also to provide new perspectives on how high school sports became the arena by which Americans fought for some of the most contentious issues in society such as race immigration and Americanization gender roles religious conflict the role of the military in democracy and the commercial exploitation of our youth *Texas High School Football Dynasties* Rick Sherrod,2013-08-06 Since the first annual state football champion was crowned in 1920 Texas has never been the same Today millions of Texans gather in stadiums across the Lone Star State eagerly awaiting that magical mid to late December moment when the season comes to its dramatic conclusion Of the 391 high schools reaching the championship matchup only a handful 26 have won the title four times or more laying claim to the coveted moniker dynasty From Waco High School s fourth title win in 1927 to Stamford s fourth official win in 2012 writer and lifelong football enthusiast Rick Sherrod traces the best of the best in this pigskin empire across ninety three action packed seasons **Three Men in Texas** Ronnie Dugger,2010-06-28 This book is a tribute to an incomparable triumvirate One was a naturalist one a historian and one a chronicler but each of them was each of these The manly love between them a handsome thing in times and places blighted by great ugliness and banality shone from them into their friends and contemporaries and they shared themselves freely with those younger than they who went to them wishing to learn from them Most of this collection of writing by friends of Roy Bedichek Walter Prescott Webb and J Frank Dobie originally appeared in special editions of the Texas Observer devoted to each of the three men Some pieces were however written expressly for this volume **The Roy Bedichek Family Letters** Roy Bedichek,Jane Gracy Bedichek,1998 Roy Bedichek 1878 1959 author of *Adventures with a Texas Naturalist* loved both reading and writing letters His daughter in law Jane Gracy Bedichek offers a selection of the Bedichek family correspondences which highlight Roy s talent for eloquently describing the natural world and additionally his entire family s rather remarkable epistolary skills Annotation copyrighted by Book News Inc Portland OR [Legendary Texas Storytellers](#) Jim Gramon,2002-10-29 Storytelling is alive and
