realize that nearly every page shows the need of more facts more data Experimental psychology is a thing of only yesterday educational psychology is a new born infant of today But it is an infant of great promise The army of trained investigators that is attacking the myriad problems of the school will give us even in a decade results of great importance to education But the work must be carefully done It is my belief that a text book should be a mere outline to be elaborated by teacher and students The questions and exercises and the references will help toward this elaboration About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
