Economics The Culture Of A Controversial Science:

Economics Melvin W. Reder, 1999-01-15 Since the 1930s economists have increasingly emphasized the scientific quantitative side of their field which has directed research to topics that can be elaborated through mathematical models Economist Melvin Reder argues that this ongoing historical shift has been the result of pressure from two directions from society's demand that expert advice be based on scientific findings and from economists themselves who have wanted to view their own profession as a science Economics The Culture of a Controversial Science describes the profession of economics as it has developed in response to these challenges **Economics, Culture and Development** Eiman O.

Zein-Elabdin, 2017-09-19 This book examines the treatment of culture and development in the discipline of economics thereby filling a conspicuous gap in current literature Economics has come a long way to join the cultural turn that has swept the humanities and social sciences in the last half century This volume identifies some of the issues that major philosophies of economics must address to better grasp the cultural complexity of contemporary economies This book is an extensive survey of the place of culture and development in four theoretical economic perspectives Neoclassical Marxian Institutional and Feminist Organized in nine chapters with three appendices and a compendium of over 50 interpretations of culture by economists this book covers vast grounds from classical political economy to contemporary economic thought The literatures reviewed include original and new institutionalism cultural economics postmodern Marxism economic feminism and the current culture and development discourse on subjects such as economic growth in East Asia businesswomen entrepreneurs in West Africa and comparative development in different parts of Europe Zein Elabdin carries the project further by borrowing some of the insights from postcolonial theory to call for a more profound rethinking of the place of culture and of currently devalued cultures in economic theory This book is of great interest for those who study Economic development International relations feminist economics and Economic geography The Visionary Realism of German Economics Erik S.

Reinert, 2019-02-15 The Visionary Realism of German Economics forms a collection of Erik S Reinert's essays bringing the more realistic German economic tradition into focus as an alternative to Anglo Saxon neoclassical mainstream economics Together the essays form a holistic theory explaining why economic development by its very nature is a very uneven process Herein lie the important policy implications of the volume The Oxford Handbook of Economic Geography Gordon L.

Clark, Maryann P. Feldman, Meric S. Gertler, 2003-07-10 1 Economic Geography Transition and Growth Gordon L Clark and Maryann Feldmann and Meric Gertler 2 Economic Geography The Great Half Century Allen Scott Part I Conceptual Perspectives Section 1 Mapping the Territory 3 Where in the World is the New Economic Geography Paul Krugman 4 Doing Regulation Jamie Peck Section 2 Analytical Frameworks 5 The New Economics of Urban and Regional Growth Ed Glaeser 6 Geography or Economics Conceptions of Space Time Interdependence and Agency Eric Sheppard Part II Global Economic Integration Section 3 Investment and Trade 7 The Geography of International Investment Tony Venables and Howard Shatz 8

The Philosophy of Economics Daniel M. Hausman, 2007-12-17 An anthology of works on the philosophy of economics including classic texts and essays exploring specific branches and schools of economics Completely revamped this edition contains new selections a revised introduction and a bibliography The volume contains 26 chapters organized into five parts I Classic Discussions II Positivist and Popperian Views III Ideology and Normative Economics IV Branches and Schools of Economics and Their Methodological Problems and V New Directions in Economic Methodology It includes crucial historical contributions by figures such as Mill Marx Weber Robbins Knight and Veblen and works by most of the leading contemporary figures writing on economic methodology including five Nobel Laureates in Economics *Ibss:*

Economics: 1999 Compiled by the British Library of Political and Economic Science, 2000-12-07 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Handbook of New Institutional Economics Claude Ménard, Mary M. Shirley, 2008-06-27 New Institutional Economics NIE has skyrocketed in scope and influence over the last three decades This first Handbook of NIE provides a unique and timely overview of recent developments and broad orientations Contributions analyse the domain and perspectives of NIE sections on legal institutions political institutions transaction cost economics governance contracting institutional change and more capture NIE s interdisciplinary nature This Handbook will be of interest to economists political scientists legal scholars management specialists sociologists and others wishing to learn more about this important subject and gain insight into progress made by institutionalists from other disciplines This compendium of analyses by some of the foremost NIE specialists including Ronald Coase Douglass North Elinor Ostrom and Oliver Williamson gives students and new researchers an introduction to the topic and offers established scholars a reference book for their research

The Methodology of Positive Economics Uskali Mäki, 2009-05-28 A team of world renowned experts cast new light on Milton Friedman s 1953 essay The methodology of positive economics

The Economics of Economists Alessandro Lanteri, Jack Vromen, 2014-06-05 The profession of academic economics has been widely criticized for being excessively dependent on technical models based on unrealistic assumptions about rationality and individual behavior and yet it remains a sparsely studied area This volume presents a series of background readings on the profession by leading scholars in the history of economic thought and economic methodology Adopting a fresh critique the contributors investigate the individual incentives prevalent in academic economics describing economists as rational actors who react to their intellectual environment and the incentives for economic research Timely topics are addressed including the financial crisis and the consequences for the discipline as well as more traditional themes such as pluralism in research academic organizations teaching methodology gender issues and professional ethics This collection will appeal to scholars working on topics related to economic methodology and the teaching of economics

Fact and Fiction in Economics Maki, 2002-12-12 There is an embarrassing polarization of opinions about the status of economics as an academic discipline as reflected in epithets such as the Dismal Science and the Queen of the Social Sciences This collection brings together some of the leading figures in the methodology and philosophy of economics to provide a thoughtful and balanced overview of the current state of debate about the nature and limits of economic knowledge Authors with partly rival and partly complementary perspectives examine how abstract models work and how they might connect with the real world they look at the special nature of the facts about the economy and they direct attention towards the academic institutions themselves and how they shape economic research These issues are thus analysed from the point of view of methodology semantics ontology rhetoric sociology and economics of science

Economics Melvin W. Reder, 1999 Since the 1930s economists have

increasingly emphasized the scientific quantitative side of their field which has directed research to topics that can be elaborated through mathematical models Economist Melvin Reder argues that this ongoing historical shift has been the result of pressure from two directions from society's demand that expert advice be based on scientific findings and from economists themselves who have wanted to view their own profession as a science Economics The Culture of a Controversial Science describes the profession of economics as it has developed in response to these challenges

Feminist Economics Today Marianne A. Ferber, Julie A. Nelson, 2020-05-22 The 1993 publication of Marianne A Ferber and Julie A Nelson's Beyond Economic Man was a landmark in both feminist scholarship and the discipline of economics and it quickly became a handbook for those seeking to explore the emerging connections between the two A decade later this book looks back at the progress of feminist economics and forward to its future offering both a thorough overview of feminist economic thought and a collection of new high quality work from the field's leading scholars

The New Palgrave Dictionary of Economics, 2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product

The Boundaries of Technique Andrew Yuengert, 2004-01-01 In this engaging and thought provoking new work Andrew Yuengert uses the moral philosophy of Thomas Aquinas to offer a fresh perspective on the sharp distinctions currently drawn between economics and ethics In contrast to modern philosophical approaches which focus on the contrast between is and ought statements a Thomistic analysis begins with the actions of economic researchers This approach reconciles two popular extreme positions economics as ethical at every turn and economics as morally neutral Exploring recent controversies over the role of ethics in economics The Boundaries of Technique encourages scholars and students to discover and debate the ways in which economics is insulated from ethics and the ways in which it is dependent upon it Ultimately by bringing readers to a deeper awareness of the intrinsic involvement of the individual and the responsibility of moral choice Yuengert makes an invaluable contribution to the study and practice of economics

Postcolonialism Meets Economics S. Charusheela, Eiman Zein-Elabdin, 2013-04-15 In the last half century economics has taken over from anthropology the role of drawing the powerful conceptual worldviews that organize knowledge and inform policy in both domestic and international contexts Until now however the colonial roots of economic theory have remained relatively unstudied This book changes that The wide array of contributions to this book draw on the rapidly growing body of postcolonial studies to critique both orthodox and heterodox economics This book addresses a large gap in postcolonial studies which lacks the type of sophisticated analysis of economic questions that it displays in its analysis of culture The intellectual and disciplinary terrain covered within this book spans economics history anthropology philosophy literary theory political science and women's studies

The Other Canon of Economics, Volume 2 Erik Reinert, 2024-02-13 Other Canon

Economics Essays in the Theory and History of Uneven Economic Development brings together key essays on development economics from one of the most prolific and important development economists and historians of economic policy today Erik S Reinert argues through essays ranging from 1994 to 2020 that neo classical economics damages developing countries the theory of comparative advantage leaves out a number of factors which make economic activities qualitatively different as carriers of economic growth Based on a long intellectual tradition started by the Italian economists Giovanni Botero 1589 and Antonio Serra 1613 and later used in virtually all presently industrialised countries Reinert shows that the country which exports increasing returns goods e g high end manufacture has advantages over the country which exports diminishing returns goods e g commodities This has important implications for today s development strategies that Reinert argues should be seen as industrial strategies

Liberalism against Liberalism Javier Aranzadi, 2006-04-18 The defence of the market and economic freedom have been the main objectives of the investigations by liberal thinkers such as Milton Friedman Gary Becker F Hayek and L Von Mises Bearing in mind that the first two economists are the maximum exponents of the Chicago School and the last two of the Austrian School it is often concluded that the theories of both schools are similar This book demonstrates that in reality there is no convergence or complementariness to be found between both schools of thought The anthropological categories contributed by Mises allow us to understand all human phenomena from the view of the man who acts In this view economics is part of a philosophical system whose core is the creative capacity of people Becker s work on the other hand is concentrated on the generalization of the homo economicus as the basis for explaining all human behaviour He generalizes the maximizing principle to explain all human reality and extends the scope of the application of a so called scientific and technical view of the world In this key volume an important read for those in the fields of economic theory and political economy Javier Aranzadi argues in essence that the tradition of Hayek and Mises encourages a humanistic liberalism whereas the Chicago School proposes only a technical humanism

Advanced Introduction to New Institutional Economics Ménard, Claude, Shirley, Mary M., 2022-01-14 New institutional economics NIE is a powerful tool for understanding real world phenomena This Advanced Introduction explores NIE s answers to fundamental questions about the organization growth and development of economies such as why are some countries rich and others poor Why are activities organized as firms or markets or through alternative organizational solutions When are shared resources overexploited

40 Years of Research on Rent Seeking 2 Roger D. Congleton, Arye L. Hillman, Kai A. Konrad, 2008-08-01 The last survey of the rent seeking literature took place more than a decade ago Since that time a great deal of new research has been published in a wide variety of journals covering a wide variety of topics The scope of that research is such that very few researchers will be familiar with more than a small part of contemporary research and very few libraries will be able to provide access to the full breadth of that research This two volume collection provides an extensive overview of 40 years of rent seeking research The volumes include the foundational papers many of which have not been in print for two decades

They include recent game theoretic analyses of rent seeking contests and also applications of the rent seeking concepts and methodology to economic regulation international trade policy economic history political competition and other social phenomena The new collection is more than twice as large as any previous collection and both updates and extends the earlier surveys Volume I contains previously published research on the theory of rent seeking contests which is an important strand of contemporary game theory Volume II contains previously published research that uses the theory of rent seeking to analyze a broad range of public policy and social science topics The editors spent more than a year assembling possible papers and although the selections fill two large volumes many more papers could have been included

Comparative Law and Economics the late Theodore Eisenberg, Giovanni B. Ramello, 2016-02-26 Contemporary law and economics has greatly expanded its scope of inquiry as well as its sphere of influence By focussing specifically on a comparative approach this Handbook offers new insights for developing current law and economics research It also provides stimuli for further research exploring the idea that the comparative method offers a valuable way to enrich law and economics scholarship With contributions from leading scholars from around the world the Handbook sets the context by examining the past present and future of comparative law and economics before addressing this approach to specific issues within the fields of intellectual property competition contracts torts judicial behaviour tax property law energy markets regulation and environmental agreements This topical Handbook will be of great interest and value to scholars and postgraduate students of law and economics looking for new directions in their research It will also be a useful reference to policymakers and those working at an institutional level
