The Pedagogy of Protest Brendan Walsh, 2007 This book provides the first complete account of Patrick Pearse's educational work at St Enda's and St Ita's schools Dublin Extensive use of first hand accounts reveals Pearse as a humane energetic teacher and a forward looking and innovative educational thinker Between 1903 and 1916 Pearse developed a new concept of schooling as an agency of radical pedagogical and social reform later echoed by school founders such as Bertrand Russell This placed him firmly within the tradition of radical educational thought as articulated by Paulo Freire and Henry Giroux The book examines the tension between Pearse's work and his increasingly public profile as an advocate of physical force separatism and by employing previously unknown accounts questions the perception that he influenced his students to become active supporters of militant separatism The book describes the later history of St Enda's revealing the ambivalence of post independence administrations and shows how Pearse's work which has long been neglected by historians has had a direct influence on a later generation of school founders up to the present

Teacher Education in Australia: Investigations into Programming, Practicum and Partnership. David E. Lynch, Tony Yeigh, 2013 In the last decade in Australia teacher education has undergone numerous critical reviews yet little on the teacher education front appears to have changed Related to this the teaching profession's struggles to cope with a changing world have been publicly documented and an increasing push for improved school outcomes from Australian governments at both the state and federal level appear as regular pieces in the national press This forms a complex situation involving competing concerns and raises questions concerning what to make of the situation and how to move teacher education forward in Australia This book seeks to answer these questions by providing an evidence based framework for investigating and directing teacher education practice into the future

Critical Voices in Teacher Education Barry Down, John Smyth, 2012-04-28 We live in dangerous times when educational policies and practices are debated largely in terms of how they fit with the needs of the free market This volume is a collection of writing by teacher educators that draws on their unique biographies experiences and perspectives to denounce these misguided norms It explores what it means practically and intellectually to teach for social justice in conservative times In a globalised world where the power of capital holds sway the purposes of social institutions such as universities and schools is being refashioned in ways that are markedly instrumental and technicist in nature The consequence is that teachers work is increasingly constrained by regimes of control such as standardised testing accountability transparency and national curricula In the meantime large numbers of students and teachers are disengaging physically emotionally and intellectually from learning The contributors to this edited volume present both a powerful critique of these developments and a counter hegemonic vision of teacher education founded

on the principles and values of social justice democracy and critical inquiry Teacher education they argue involves a commitment to critical intellectual work that subjects some deeply entrenched assumptions beliefs habits routines and practices to closer scrutiny The contributing authors expose how ideology and power operate in seemingly blameless rational ways to perpetuate social hierarchies based on class gender sexuality race and culture
