Good Terrorist:

The Good Terrorist Doris Lessing, 1985 A story about militant left wing group *British Terrorist Novels of the 1970s* Joseph Darlington, 2018-04-19 This book discusses British novels published during the 1970s which feature terrorists either as main characters or a major plot points The focus on terrorism s literary depiction provides insight into the politics of the decade The book analyses texts from Gerald Seymour Anthony Burgess V S Naipaul Graham Greene Doris Lessing B S Johnson Tom Sharpe and Eric Ambler among others in order to engage with the IRA the end of Empire counterculture and environmentalism The book provides a brief history of terrorism as a concept and tactic before discussing British literature s relationship with terrorism It presents a standard terrorist morphology by which to analyse terrorist narratives along with other insights into the British post war imagination writing and extremism

Memoirs of a Terrorist Sally Patterson Tubach, 1996-01-01 Memoirs of a Terrorist is a gripping experimental novel about a young woman raped at the age of fifteen by her father Having repressed this crime from her conscious awareness Megan Lloyd s short intense life becomes a quest for sexual and human identity A privileged daughter from suburban southern California the heroine writes about early periods of her life in revolutionary Berkeley as well as later events in Malibu Dallas Munich and finally Paris Her failure to bring the repressed crime to consciousness reveals a tragic blind spot from which emerges the sexual bondage murder of her lover in a Munich hotel The heroine s internal story is told by her fragmentary diaries and stories that her father retrieves after her death as a suspected terrorist in Europe As he approaches his own death years later Arthur Lloyd attempts to comprehend his daughter by analyzing her texts and finally confesses his crime to the reader Thus two narrative voices one male and one female intersect clash and reinforce each other in this rich and complex text that weaves a tale of sexual violence and portrays quests for insight and redemption

Terrorism: A Very Short Introduction Charles Townshend, 2002-10-10 This book charts a path through the outpouring of efforts to understand and explain modern terrorism by asking what makes terrorism different from other forms of political military action what makes it effective and what can be done about it It unravels complex central questions such as whether terrorists are criminals whether terrorism is a kind of war what kind of threat terrorism represents how far media publicity sustains terrorism and whether democracy is especially vulnerable to terrorist attack It examines the historical ideological and local roots of terrorist violence and the success of specific terrorist and anti terrorist campaigns in the more distant as well as the recent past

notions of homeland heritage and community Finalist of the MSA First Book Prize by The Modernist Studies Association The waning British empire left behind an abundance of material relics and an inventory of feelings not easily relinquished In *The Obsolete Empire* Philip Tsang brings together an unusual constellation of writers Henry James James Joyce Doris Lessing and V S Naipaul to trace an aesthetics of frustrated attachment that emerged in the wake of imperial decline Caught between an expansive Britishness and an exclusive Englishness these writers explored what it meant to belong to an empire that did not belong to them Thanks to their voracious reading of English fiction and poetry in their formative years all of these writers experienced a richly textured world with which they deeply identified but from which they felt excluded The literary England they imagined frozen in time and out of place with the realities of imperial decline in turn figures in their writings as a repository of unconsummated attachments contradictory desires and belated exchanges Their works arrest the linear progression from colonial to postcolonial from empire to nation and from subject to citizen Drawing on a rich body of scholarship on affect and temporality Tsang demonstrates how the British empire endures as a structure of desire that outlived its political lifespan By showing how literary reading sets in motion a tense interplay of intimacy and exclusion Tsang investigates a unique mode of belonging arising from the predicament of being conscripted into a global empire but not desired as its proper citizen Ultimately *The Obsolete Empire* asks What does it mean to be inside or outside any given culture How do large scale geopolitical changes play out at the level of cultural attachment and political belonging How does literary reading establish or unsettle narratives of who we are These questions preoccupied writers across Britain's former empire and continue to resonate today
