Good Taste Bad Taste And Christian Taste Aesthetics In Religious Life:

Good Taste, Bad Taste, & Christian Taste Frank Burch Brown, 2000 Good Taste Bad Taste and Christian Taste is essential reading for students and scholars of religion and theology pastors and churchgoers liturgists and church musicians and artists Jacket

Good Taste, Bad Taste, & Christian Taste Frank Burch Brown, 2000 By exploring the complex relation between taste religious imagination and faith this work hopes ultimately to offer a new perspective on what it means to be spiritual religious and indeed Christian

Good Taste, Bad Taste, & Christian Taste Frank Burch Brown, 2003 Christians frequently come into conflict with themselves and others over such matters as music popular culture and worship style Yet they usually lack any theology of art or taste adequate to deal with aesthetic disputes In this provocative book Frank Burch Brown offers a constructive ecumenical approach to artistic taste and aesthetic judgment a non elitist but discriminating theological aesthetics that has teeth but no fangs While grounded in history and theory this book takes up such practical questions as How can one religious community accommodate a variety of artistic tastes What good or harm can be done by importing music that is worldly in origin into a house of worship How can the exercise of taste in the making of art be a viable and sometimes advanced spiritual discipline In exploring the complex relation between taste religious imagination and faith Brown offers a new perspective on what it means to be spiritual religious and indeed Christian

Heaven and the Popular Imagination T. M. Allen, 2018-11-15 Popular culture continues to search the depths of the poetic imagination concerning heaven It seems to be a constant theme in literature film and music spanning genres throughout the Western world Yet some contemporary scholars suggest that all of these narratives are somewhat misguided and remain at best only partial constructions of a proper eschatology The creative imagination in popular culture especially in relation to the arts has often carried a less than trustworthy role in theology and philosophy Heaven and the Popular Imagination analyzes a number of approaches within the theology of culture conversation to suggest that a hermeneutic of popular imagery can open up new horizons for understanding and challenging the role heaven plays in Christian theology From ancient literature to popular music and films heaven is part of the framework of our ecumenical imagining about beginnings and endings Such a hermeneutic must encompass an interdisciplinary approach to theology

Restless David J. Gillard, 2022-01-06 Why do many popular songs positively reference God if our culture is widely viewed as secular Why is it a challenge to tell the Christian story when many say they are spiritual and believe in God Why do we draw so much meaning from the popular songs we listen to And might a deeper understanding of popular music culture help us to explore the bigger stories we listen to throughout our lives such as the Christian story Primarily using Zygmunt Bauman's understanding of liquid modernity we look at the social forces that shape Western society and consider why while many are looking for authentic ontologically based stories to understand their life experiences historic providers of the big stories that shape our lives such as the church favor a different epistemological way of telling them How do these different approaches to

storytelling affect their reception and what insight might we draw from that Whilst this book is written primarily with those in Christian ministry in mind it will be of interest too to those who use music to explore life experiences through their work who are interested in the social forces that shape society or who simply enjoy listening to popular music

Protestant Aesthetics and the Arts Sarah Covington, Kathryn Reklis, 2020-01-27 The Reformation was one of the defining cultural turning points in Western history even if there is a longstanding stereotype that Protestants did away with art and material culture Rather than reject art and aestheticism Protestants developed their own aesthetic values which *Protestant Aesthetics and the Arts* addresses as it identifies and explains the link between theological aesthetics and the arts within a Protestant framework across five hundred years of history Featuring essays from an international gathering of leading experts working across a diverse set of disciplines *Protestant Aesthetics and the Arts* is the first study of its kind containing essays that address Protestantism and the fine arts visual art music literature and architecture and historical and contemporary Protestant theological perspectives on the subject of beauty and imagination Contributors challenge accepted preconceptions relating to the boundaries of theological aesthetics and religiously determined art disrupt traditional understandings of periodization and disciplinarity and seek to open rich avenues for new fields of research Building on renewed interest in Protestantism in the study of religion and modernity and the return to aesthetics in Christian theological inquiry this volume will be of significant interest to scholars of Theology Aesthetics Art and Architectural History Literary Criticism and Religious History

Aesthetic Revelation Oleg V. Bychkov, 2010 Presents a rigorous reexamination of von Balthasars interpretation of major ancient and medieval texts

Sense and Spirituality James McCullough, 2015-06-02 There is growing interest in the relationship between the arts and Christian faith Much has been written about the arts and theology and the place of the arts in church life Not as much has been written however about how the arts might actually advance spiritual formation in terms of the cumulative effect of religious experience and intentional practices This book provides a modest step forward in that conversation a conversation between theological aesthetics and practical theology Understanding aesthetics as the realm of sense perception and spiritual formation as growing capacities to participate in God s purposes James McCullough suggests how these dynamics can mutually enhance each other with the arts as an effective catalyst for this relationship McCullough proposes an analysis of artistic communication and explores exciting examples from music poetry and painting which render theoretical proposals in concrete terms This book will engage both those new to the arts and those already deeply familiar with them

Saving Beauty Kathryn B. Alexander, 2014-08-01 Kathryn B Alexander argues that natural beauty is a source of religious insight into the need and way of salvation and this project develops a theological aesthetics of nature and beauty with an aim toward cultivating a theological and ethical framework for redeemed life as participation in ecological community With interdisciplinary verve engaging systematic philosophical and art theory systems of aesthetics the volume fosters the cultivation of the sense of beauty through creative religious and sacramental experience

A Theological Aesthetics of Liberation Vicente Chong, 2019-02-07 Since its emergence in the sixties of the last century liberation theology in Latin America has paid little attention to the areas of aesthetics and art At the same time theological aesthetics seldom has been directly and explicitly concerned about the reality of the poor and the struggle for justice This mutual disinterest between liberation theology and theological aesthetics is regrettable because discerning a correlation between them would benefit both theological disciplines in their attempt to understand the saving action of God in the world It is the intention of this book to fill that gap A Theological Aesthetics of Liberation correlates liberation theology and theological aesthetics exploring different themes such as the liberating power of art and how the Spirit of God is involved in the process of liberation in and through art This study is a critical reflection upon the question of the beauty of Jesus Christ especially in relationship with the event of the cross and upon its meaning for Christian life This book analyzes such topics in conversation with important theologians Gustavo Gutierrez Jon Sobrino Karl Rahner Hans Urs von Balthasar Edward Schillebeeckx and other contemporary Christian theologians who have explored these themes

Glimpses of the New Creation W. David O.

Taylor,Jeremy Begbie,2019-09-03 How do the arts in worship form individuals and communities Every choice of art in worship opens up and closes down possibilities for the formation of our humanity Every practice of music every decision about language every use of our bodies every approach to visual media or church buildings forms our desires shapes our imaginations habituates our emotional instincts and reconfigures our identity as Christians in contextually meaningful ways generating thereby a sense of the triune God and of our place in the world Glimpses of the New Creation argues that the arts form us in worship by bringing us into intentional and intensive participation in the aesthetic aspect of our humanity that is our physical emotional imaginative and metaphorical capacities In so doing they invite the people of God to be conformed to Christ and to participate in the praise of Christ and in the praise of creation which by the Spirit's power raises its peculiar voice to the Father in heaven for the sake of the world that God so loves

Beyond Belief Ronald R. Bernier,2010-06-01 Beyond Belief Theoaesthetics or Just Old Time Religion explores the possible reemergence of a theological dimension to contemporary art Long estranged from symbol and sacrament contemporary artists and those who think and write about them seem to have turned once again to a vision rooted in the sacred In an era marked culturally by world weary cynicism and self conscious irony a new humanism may be emerging one which aims to move beyond fragmentation and opposition to integration and unification The aim of this book is not to propose a resurgence of religious iconography but rather to give voice to long suppressed often maligned and certainly professionally risky positions informed by and reverberating with themes of the sacred The essays included here by a range of scholars working on these issues today originated as a lively and spirited session of the 2008 College Art Association annual conference

sites function and the ways in which sites which have no explicitly religious import may come to bear a religious meaning
