Gorbachev's Information Revolution Wilson P. Dizard, 2019-10-02 This book analyzes Gorbachev's perestroika and its relationship to the information revolution. It examines the Gorbachev initiatives in scientific and technological sectors and their implications for Soviet society as well as for the world beyond Soviet borders. **1978-1989** Heinz-Dietrich Fischer, 2020-01-20 No detailed description available for 1978-1989. [The Collapse of the Soviet Union, 1985-1991](#) David R. Marples, 2016-09-17 Why did the Soviet Union collapse in 1991? The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology. This book argues that the disintegration was mainly a result of two interrelated factors: the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev. Written in a clear and accessible manner, the book provides an explanation of how the national question came to dominate Soviet politics by 1990: 1. analysis of the economic crisis that occurred in the late 1980s; a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December; a discussion of the personalities of and political confrontation between the two key statesmen Gorbachev and Yeltsin. Also containing a Chronology, Glossary, and Who's Who of key figures. *The Collapse of the Soviet Union* is essential reading for students of twentieth-century European history. **Politics, Society, And Nationality Inside Gorbachev's Russia** Seweryn Bialer, 2019-06-04 The East West Forum is a New York-based research and policy analysis organization sponsored by the Samuel Bronfman Foundation. Its goal is to bring together experts and policy leaders from differing perspectives and generations to discuss changing patterns of East-West relations. It attempts to formulate long-term analyses and recommendations. In p. **Tendencies and Tensions of the Information Age** Jorge Reina Schement, Terry Curtis, 1995-01-01 The development of technology and the hunger for information has caused a wave of change in daily life in America. Nearly every American's environment now consists of cable television, video cassette players, answering machines, fax machines, and personal computers. Schement and Curtis argue that the information age has evolved gradually throughout the twentieth century. National focus on the production and distribution of information stems directly from the organizing principles and realities of the market system, not from a revolution sparked by the invention of the computer. Now available in paperback. *Tendencies and Tensions of the Information Age* brings together findings from many disciplines, including classical studies, etymology, political sociology, and macroeconomics. This valuable resource will be enjoyed by sociologists, historians, and scholars of communication and information studies. **Adaptation And Transformation In Communist And**

Post-communist Systems Sabrina Petra Ramet, 2019-03-04 This book tackles different aspects of the adaptive and transformative process in communist and post communist systems in Eastern Europe offering competing models which locate the explanatory variable in different places and account for the unfolding of change in different ways *The ^ADigital Flood*
