Gorbachev's Failure In Lithuania:

Gorbachev's Failure in Lithuania Alfred Erich Senn, 1995-06-19 The world watched first in fascination then in horror and eventually in amazement From 11 to 14 January 1990 Mikhail Gorbachev went to Lithuania to persuade the leaders of that rebel Soviet republic to remain within the traditional Soviet system from 11 to 13 January 1991 Soviet troops killed unarmed civilians in Vilnius in an effort to persuade the people of Lithuania to overthrow their leaders then in September 1991 Gorbachev presiding over the collapse of the Soviet Union recognized Lithuanian independence It was Lithuania above all that demonstrated to the world the empire's bankruptcy The book takes the reader into the maelstrom of politics in three different capitals during the period 1988-91 In Vilnius Lithuanians surged forward in what they called their national rebirth in Moscow Gorbachev struggled to maintain his position in a crumbling empire and in Washington the administration doggedly supported Gorbachev as the foundation of its East European policy In the end the Lithuanians in a remarkable display of peaceful non violent resistance were the only ones to achieve their ambitions

Vilnius between Nations, 1795-2000 Theodore R. Weeks, 2015-12-04 The inhabitants of Vilnius the present day capital of Lithuania have spoken various languages and professed different religions while living together in relative harmony over the years The city has played a significant role in the history and development of at least three separate cultures Polish Lithuanian and Jewish and until very recently no single cultural linguistic group composed the clear majority of its population *Vilnius between Nations 1795 2000* is the first study to undertake a balanced assessment of this particularly diverse city Theodore Weeks examines Vilnius as a physical entity where people lived worked and died as the object of rhetorical struggles between disparate cultures and as a space where the state attempted to legitimize a specific version of cultural politics through street names monuments and urban planning In investigating these aspects Weeks avoids promoting any one national narrative of the history of the city while acknowledging the importance of national cultures and their opposing myths of the city s identity The story of Vilnius as a multicultural city and the negotiations that allowed several national groups to inhabit a single urban space can provide lessons that are easily applied to other diverse cities This study will appeal to scholars of Eastern Europe urban studies and multiculturalism as well as general readers interested in the region

A History of the Baltic States Andres Kasekamp, 2017-10-26 In this key textbook Andres Kasekamp masterfully traces the development of Estonia Latvia and Lithuania from the northern crusades against Europe s last pagans and

Lithuania's rise to become one of medieval Europe's largest states to their incorporation into the Russian Empire and the creation of their modern national identities. Employing a comparative approach a particular emphasis is placed upon the last one hundred years during which the Baltic states achieved independence, endured occupation by the Soviet Union and Nazi Germany and transformed themselves into members of the European Union. This is an essential textbook for undergraduate students taking modules on Eastern or Central European History, Communism and Post Communism, the Soviet Union or Baltic Culture and Politics. Engaging and accessible, this is also an ideal introduction to the Baltic States for general readers.

Eastern Europe Richard Frucht, 2004-12-22 A contemporary analysis of the people, cultures and society within the regions that make up Eastern Europe. *Eastern Europe: An Introduction to the People, Lands and Culture* sheds light on modern day life in the 16 nations comprising Eastern Europe. Going beyond the history and politics already well documented in other works, this unique three volume series explores the social and cultural aspects of a region often ignored in books and curricula on Western civilization. The volumes are organized by geographic proximity and commonality in historical development, allowing the countries to be both studied individually and juxtaposed against others in the region. The first volume covers the northern tier of states, the second looks at lands that were once part of the Hapsburg empire and the third examines the Balkan states. Each chapter profiles a single country, its geography, history, political development, economy and culture, and gives readers a glimpse of the challenges that lie ahead. Vignettes on various topics of interest illuminate the unique character of each country.

Post-Industrial Landscape Scars A. Storm, 2014-10-22 Post industrial landscape scars are traces of 20th century utopian visions of society; they relate to fear and resistance expressed by popular movements and to relations between industrial workers and those in power. The metaphor of the scar pinpoints the inherent ambiguity of memory work by signifying both positive and negative experiences as well as the contemporary challenges of living with these physical and mental marks. In this book Anna Storm explores post industrial landscape scars caused by nuclear power production, mining and iron and steel industry in Malmberget, Kiruna, Barsebäck and Avesta in Sweden, Ignalina and Visaginas in Lithuania, former Soviet Union and Duisburg in the Ruhr district of Germany. The scars are shaped by time and geographical scale; they carry the vestiges of life and work, of community spirit and hope of betrayed dreams and repressive hierarchical structures. What is critical, Storm concludes, is the search for a legitimate politics of memory. The meanings of the scars must be acknowledged. Past and present experiences must be shared in order to shape new understandings of old places.

The Baltic Transformed Walter C. Clemens Jr., 2001-06-06 Why isn t the Baltic region like the Balkans Why have the Baltic republics not experienced ethnic cleansing border wars authoritarian rule and social chaos Instead peace democracy and market economies have taken root since the fall of communism Walter C Clemens Jr here uses complexity theory which analyzes the role of self organization in complex adaptive systems to explain the Baltic miracle He argues that the theory is a vital tool for understanding the remarkable strides made by Estonia Latvia and Lithuania since 1991 in coping with the transition to partnership with the new Europe The Baltic peoples have adapted well to the demands of democracy a market economy and a constructive role in world affairs The achievements of Estonia Latvia and Lithuania in the past decade are the more amazing when considered against the hundreds of years they were dominated by Teutonic knights Hanseatic merchants Sweden Russia and the USSR Clemens uses this history as a springboard to analyze how Balts self organize today to meet the challenges of transition One of the first books to apply complexity theory to a major sphere of world politics The Baltic Transformed will provoke constructive debate with its ambitious and well grounded analysis of not only Baltic developments but European security more generally Despite its theoretical foundation the book is written in a clear and accessible style that will make it invaluable for courses on comparative politics political
