Doglietto, 2020-05-19. Life in a state prison is seldom seen and even more seldom understood. It is a strange and often dangerous world. Scott Doggett is a seasoned prison investigator with twenty-eight years of experience and the goal of a comfortable retirement somewhere on the approaching horizon. Daily, he accepts the challenges of conducting major criminal investigations in the custodial setting. The Pajaro Murder and Other Stories is based in part on actual investigations conducted at California state prisons with the greatest due deference to their investigators. The stories involve a world that is for the most part unknown to anyone outside the correctional system. It is at times an unbelievable world, but it is a real world. More than anything, these stories are lessons in investigative procedure, interview techniques, and the application of forensic sciences in solving crimes. The exact details and names of all involved have been changed to protect the innocent as well as the guilty.
