Species Interactions

Types of interactions include predation, mutualism, parasitism, commensalism, and competition.

Energy Flow

Energy from the sun is transformed and moves through the ecosystem in a process illustrated by the food web.

Succession

Over time, an ecosystem experiences changes in biodiversity and nutrient availability.

Human Impact

Through construction, agriculture, and pollution, humans make a significant impact on the ecosystem. Modern ecologists focus on measuring this impact.

Ecology The Circle Of Life:

The Circle of Life is Broken Brendan Myers, 2022-09-30 The Circle of Life is more than the food web It s a self organizing system of global life cooperation and energy dissipation Its balance and stability have been taken for granted for millennia But in the age of the climate crisis the Circle is breaking down From the 1960s onward philosophers artists and spiritual teachers promoted the idea of the Green Self to help us understand how the Circle works and how we harm ourselves when we damage it But in all that time the climate crisis only got worse The Greening of the Self didn t happen Using the science of ecology and a deep dive into human nature this book explores what the Circle of Life really is and what becomes of us when we face it in different ways The exploration reveals a deeper eco spiritual perspective in which the Immensity of the Earth and the breakdown of the Circle are calls to action to heal the Circle and to create a better world **The Ecological Life** Jeremy Bendik-Keymer, 2006-01-19 Written as a series of lectures this open access title offers a humanistic perspective on environmental philosophy that challenges some of the dogmas of deep ecology and radical environmentalism while speaking for their best desires The book argues that being human centered leaves us open to ecological identifications rather than the opposite Bendik Keymer draws on analytic and continental traditions of philosophy as well as literature and visual media He argues for a sense of ecological justice consonant with human rights and shows how humanistic thinking is committed to deepening respect for life and our ecological orientation In a clear jargon free and conversational tone The Ecological Life presents a timely and important contribution to civic engagement in an ecological century The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on bloomsburycollections com **Ecology: the Circle of Life** Harold R. Hungerford, 1971 Discusses some of the important interrelationships that exist in nature what happens when they are disturbed and man s role in preserving the ecological balance **Ecovillages** Karen T. Litfin, 2014-01-15 In a world of dwindling natural resources and mounting environmental crisis who is devising ways of living that will work for the long haul And how can we as individuals make a difference To answer these fundamental questions Professor Karen Litfin embarked upon a journey to many of the world s ecovillages intentional communities at the cutting edge of sustainable living From rural to urban high tech to low tech spiritual to secular she discovered an under the radar global movement making positive and radical changes from the ground up In this inspiring and insightful book Karen Litfin shares her unique experience of these experiments in sustainable living through four broad windows ecology economics community and consciousness or E2C2 Whether we live in an ecovillage or a city she contends we must incorporate these four key elements if we wish to harmonize our lives with our home planet Not only is another world possible it is already being born in small pockets the world over These micro societies however are small and time is short Fortunately as Litfin persuasively argues their successes can be applied to existing social structures from the local to the global scale providing sustainable ways of living for generations to come You can learn more about Karen s experiences on the Ecovillages website
