Arab Economies in the Twenty-First Century Paul Rivlin, 2009-02-09 This book examines the relationship between demographic growth and economic development in eight Arab countries Despite a slowdown in demographic growth as a result of the change in the age structure of the population the labor force is increasing rapidly In other parts of the world similar developments have enhanced economic growth In the Arab world however many of the opportunities presented by demographic transition are being lost resulting in serious threats to the political stability of the region The main reason for this is that the region has missed out on industrialization The book goes beyond conventional analysis to ask two closely related questions The first is why were governments so slow in tackling stability The second is why has the response been similar in apparently different economies Answers are provided using new literature in economics and economic history

Economic Performance in the Middle East and North Africa Serdar Sayan, 2009-05-07 The economies of the Middle East and North Africa MENA region are in dire need of substantial institutional reform to improve their growth performance so as to create enough jobs for millions of entrants into their respective job markets and to fight poverty and income inequality This is necessary not only to reduce the risk of social unrest and domestic regional conflicts but also to assure stability of energy supply to the rest of the world and to hamper the violence originating from the region

So the region's convergence to global standards of governance quality is desirable for increased prosperity and stability both in the region and outside. This volume contributes to the recently burgeoning political economy literature on institutions by putting together well-written chapters that empirically study the relationship between economic performance and institutional characteristics in MENA economies to point out some of the areas where institutional reform is particularly needed and possible tools to use for such reform. Perhaps one common lesson that can be derived from all chapters in the volume is that both the region itself and the global economy will benefit from a MENA region that is better integrated to the rest.

the last three decades the Arab world has undergone a process of developmental descent or de development As a result of defeat in wars the loss of security and sovereignty and even their own class proclivity the Arab ruling classes have been transformed into fully compradorial classes that have relinquished autonomy over policy The neoliberal policies adopted since the early eighties are not developmental policies but the terms of surrender by which Arab resources human or otherwise are stifled or usurped In this book Ali Kadri attributes the Arab world s developmental failure to imperialist hegemony over oil and the rising role of financialisation which goes hand in hand with the wars of encroachment that strip the Arab world of its sovereignty and resources *Muslim Democratic Parties in the Middle East* A. Kadir

Yildirim,2016-09-26 Represents an important advancement in developing the strand of literature that considers how economic conditions affect Islamist movements Middle Eastern Studies A Kadir Yildirim and other scholars have used the term Muslim Democrat to describe moderate Islamist political parties suggesting a parallel with Christian Democratic parties in Europe These parties MDPs are marked by their adherence to a secular political regime normative commitment to the rules of a democratic political system and the democratic political representation of a religious identity In this book Yildirim draws on extensive field research in Turkey Egypt and Morocco to examine this phenomenon and assess the interaction of economic and political factors in the development of MDPs Distinguishing between competitive economic liberalization and

crony liberalization he argues that MDPs are more likely to emerge and succeed in the context of the former He summarizes that the broader implication is that the economic liberalization models adopted by governments in the region in the wake of the Arab Spring have significant implications for the future direction of party systems and democratic reform
