Lacan to the Letter Bruce Fink, 2004

To read Lacan closely is to follow him to the letter to take him literally making the wager that he comes right out and says what he means in many cases though much of his argument must be reconstructed through a line by line examination And this is precisely what Bruce Fink does in this ambitious book a fine analysis of Lacan's work on language and psychoanalytic treatment conducted on the basis of a very close reading of texts in his *ICrits: A Selection* As a translator and renowned proponent of Lacan's works Fink is an especially adept and congenial guide through the complexities of Lacanian literature and concepts He devotes considerable space to notions that have been particularly prone to misunderstanding notions such as the sliding of the signified under the signifier or that have gone seemingly unnoticed such as the ego is the metonymy of desire Fink also pays special attention to psychoanalytic concepts like affect that Lacan is sometimes thought to neglect and to controversial concepts like the phallus From a parsing of Lacan's claim that commenting on a text is like doing an analysis to sustained readings of *The Instance of the Letter in the Unconscious* *The Direction of the Treatment and Subversion of the Subject* with particular attention given to the workings of the Graph of Desire Fink's book is a work of unmatched subtlety depth and detail providing a valuable new perspective on one of the twentieth century's most important thinkers Bruce Fink is a practicing Lacanian psychoanalyst analytic supervisor and professor of psychology at Duquesne University in Pittsburgh He is the author of *A Clinical Introduction to Lacanian Psychoanalysis* 1997 and *The Lacanian Subject* 1995 He has coedited three volumes on Lacan's seminars and is the translator of Lacan's Seminar XX *On Feminine Sexuality the Limits of Love and Knowledge* 1998 *ICrits: A Selection* 2002 and *ICrits: The Complete Text* forthcoming

Foucault/Derrida Fifty Years Later Olivia Custer, Penelope Deutscher, Samir Haddad, 2016-11-08. Early in their careers Michel Foucault and Jacques Derrida argued over madness, reason and history in an exchange that profoundly influenced continental philosophy and critical theory. In this collection Amy Allen, Geoffrey Bennington, Lynne Huffer, Colin Koopman, Pierre Macherey, Michael Naas and Judith Revel among others trace this exchange in debates over the possibilities of genealogy and deconstruction, immanent and transcendent approaches to philosophy and the practical and theoretical role of the archive.

Lacan in the End Times Rob Weatherill, 2022-09-21. This book explores themes around the Father. His absence in modern society and the decline of mental health. The nature of this decline can be uniquely psychoanalytically theorised in both the corresponding ferocity of the internal object and exposure to the Real. The first part of this book underlines what psychoanalysis and psi sciences continue to overlook, what now provides what Lacan called the narrow footbridge between anxiety and death. What terror must replace the father. How can reality be stabilised once more. The second part follows the atomised world as it turns towards extremism and utopian dreams in Ireland via Hanaghan's radical psychoanalysis, Levinasian ethics, in Gnostic belief in an evil world and in the clinic of the death drive. The conclusion turns finally to the God beyond God and the overwhelming evidence for God's presence in the world. *Lacan in the End Times* will be of interest to psychoanalysts, psychotherapists, counsellors, social workers and scholars in critical theory, philosophy, cultural theory, literary theory and theology.

Reading Lacan Jane Gallop, 1985. The influence of the French psychoanalyst Jacques Lacan has extended into nearly every field of the humanities and social sciences, from literature and film studies to anthropology and social work, yet Lacan's major text *Écrits* continues to perplex and even baffle its readers. In *Reading Lacan*, Jane Gallop offers a novel approach to Lacan's work based on his own theories of language. Lacan locates truth in the letter rather than in the spirit; in the ways statements are expressed rather than in their intended meaning. Gallop here grapples with six of Lacan's essays from *Écrits*: *The Seminar on The Purloined Letter*, *The Mirror Stage*, *The Freudian Thing*, *The Agency of the Letter in the Unconscious*, *The Signification of the Phallus* and *The Subversion of the Subject*. While other commentators have chosen not to confront Lacan's notoriously problematic style in their discussions of his ideas, Gallop addresses herself directly to the problem and the practice of reading Lacan. She takes her direction from Lacan's view of subjectivity and offers a deeply personal feminist reading of *Écrits*. Concentrating on the relation of desire and interpretation, she opens up the rich implications of Lacan's thought for psychoanalytic theory, for the act of reading and for knowledge itself. Forceful and revealing yet utterly candid about its own areas of uncertainty, Gallop's book will be indispensable to readers of Lacan and to scholars and students who have felt his impact.

Evolutionary Governance Theory Kristof van Assche, Raoul Beunen, Martijn

Duineveld, 2013-07-26 This short book offers the reader a remarkable new perspective on the way markets, laws and societies evolve together. It can be of use to anyone interested in development, market and public sector reform, public administration, politics, law. Based on a wide variety of case studies on three continents and a variety of conceptual sources, the authors develop a theory that clarifies the nature and functioning of dependencies that mark governance evolutions. This in turn delineates in an entirely new manner the spaces open for policy experiment. As such, it offers a new mapping of the middle ground between libertarianism and social engineering. Theoretically, the approach draws on a wide array of sources: institutional development, economics, systems theories, post-structuralism, actor-network theories, planning theory and legal studies.

Lacan Deleuze Badiou A. J. Bartlett, 2015-01-30 Lacan, Deleuze, Badiou guides us through the crucial, under-remarked interrelations between these three thinkers, identifying the conceptual passages, connections and disjunctions that underlie the often superficial statements of critique, indifference or

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more. In the English-speaking cultures, many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Korean, from Swahili to Russian. For some works, e.g. Virgil's Aeneid, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text, e.g. poetry, oral literature. The second, much longer part consists of entries grouped by language of origin; some are devoted to individual texts, e.g. the Thousand and One Nights, or writers, e.g. Ibsen, Proust, but the majority offer a critical overview of a genre, e.g. Chinese poetry, Spanish Golden Age drama, or of a national literature, e.g. Hungarian, Scottish Gaelic. There is a selective bibliography for each entry and an index of authors and translators.
