From the time of the foundation of its cathedral in 597 Canterbury has been the epicentre of Britain's ecclesiastical history and an exceptionally important centre for architectural and visual innovation Focusing especially but not exclusively on Christ Church cathedral this legacy is explored in seventeen essays concerned with Canterbury's art architecture and archaeology between the early Anglo Saxon period and the close of the middle ages Papers consider the relationship between architectural setting and liturgical practice and between stationary and movable fittings while fresh insights are offered into the aesthetic spiritual and pragmatic considerations that shaped the fabric of Christ Church and St Augustine's abbey alongside critical reflections on Canterbury's historiography and relationship to the wider world Taken together these studies demonstrate the richness of the surviving material and its enduring ability to raise new questions **Long Ago**, 1873 *The Tarragona Vortex* Lawrence J. McCrank, 2022-09-30

This extensive bibliographic essay underpins the entire Tarragona Vortex study by focusing on this arena as one of the most contested frontiers in Western history comparable to Jerusalem in the East for broad issues of Romanization Westernization Islamization and Christianization Its book length chapters treat 1 diverse historiographies from local and Spanish to comparative Mediterranean and Crusade History and especially Ethno historiography and the explanatory concept of frontiers 2 the phenomena of religion conversion and reform and the conditioning agents of Islam and Latin Christianity in practice and adversity 3 religious universalism and violence especially religious war 4 the Crusade and Reconquest paradigms and century long debate 5 the environment on land and sea and setting for this History Although these themes are explored to include due reconsideration but avoid major digressions in its telling about Tarragona and the Tarraconensis they underly so much of Late Antique and Medieval historical research that this discussion pertains to the whole field of historical cultural and religious studies **Civil Affairs Handbook: Italy** United States.
