El Dorado in West Africa Raymond E. Dumett, 1998 *El Dorado in West Africa* explores the first modern gold rush of Ghana in all its dimensions land labor capital traditional African mining technology transport management the clash of cultures and colonial rule The rich tapestry of events is textured with unexpected ironies and paradoxes Professor Dumett tells the story of the expatriate led gold boom of 1875 1900 against the background of colonial capitalism Through the use of field interviews he also brings to light the expansion of a parallel African gold mining frontier which outpaced the expatriate mining sector

Africanizing Knowledge Toyin Falola, 2017-11-30 Nearly four decades ago Terence Ranger questioned to what extent African history was actually African and whether methods and concerns derived from Western historiography were really sufficient tools for researching and narrating African history Despite a blossoming and branching out of Africanist scholarship in the last twenty years that question is still haunting The most prestigious locations for production of African studies are outside Africa itself and scholars still seek a solution to this paradox They agree that the ideal solution would be a flowering of institutions of higher learning within Africa which would draw not only Africanist scholars but also financial resources to the continent While the focus of this volume is on historical knowledge the effort to make African scholarship more African is fundamentally interdisciplinary The essays in this volume employ several innovative methods in an effort to study Africa on its own terms The book is divided into four parts Part 1 *Africanizing African History* offers several diverse methods for bringing distinctly African modes of historical discourse to the foreground in academic historical research Part 2 *African Creative Expression in Context* presents case studies of African art literature music and poetry It attempts to strip away the exotic or primitivist aura such topics often accumulate when presented in a foreign setting in order to illuminate the social historical and aesthetic contexts in which these works of art were originally produced Part 3 *Writing about Colonialism* demonstrates that the study of imperialism in Africa remains a springboard for innovative work which takes familiar ideas about Africa and considers them within new contexts Part 4 *Scholars and Their Work* critically examines the process of African studies itself including the roles of scholars in the production of knowledge about Africa This timely and thoughtful volume will be of interest to African studies scholars and students who are concerned about the ways in which Africanist scholarship might become more African

Mining Tycoons in the Age of Empire, 1870-1945 Raymond E. Dumett, 2016-12-05 The years of the late nineteenth and early twentieth centuries aptly described by Mark Twain as the Gilded Age witnessed an unprecedented level of technological change material excess untrammled pursuit of profit and imperial expansion Within this dynamic and often ruthless environment many colorful characters strode across the world stage among them the great mining tycoons who with the thousands of prospectors diggers shift bosses timbermen blastmen and muckers in mining enterprise constituted one of the major spearheads of global capitalistic expansion and colonial exploitation This volume which carries the epic story to the mid twentieth century provides a truly international perspective

on the role of mining entrepreneurs investors and engineers in shaping the economic and political map of the globe in testing management techniques and in setting a vogue for extravagant displays of wealth among the world's rich. Each chapter is loosely focussed on a biographical account of a particular mining tycoon that allows for broad and comparative accounts to be made about the individuals, their business interests, the technologies they employed and the national and international political considerations under which they operated. Furthermore, this structure also allows for consideration of the effect that these tycoons had on the countries and territories in which they worked, particularly the often long-lasting impact on indigenous populations, the environment, transport links and economic development. By approaching the subject matter through this stimulating mix of cultural, social, economic, business and colonial history, many intriguing and thought-provoking conclusions are reached that will reward any scholars with an interest in late nineteenth and early twentieth century history.

Global Gold Production Touching Ground Boris Verbrugge, Sara Geenen, 2020-05-04. In recent decades, gold mining has moved into increasingly remote corners of the globe. Aside from the expansion of industrial gold mining, many countries have simultaneously witnessed an expansion of labor-intensive and predominantly informal artisanal and small-scale gold mining. Both trends are usually studied in isolation, which contributes to a dominant image of a dual gold mining economy. Counteracting this dominant view, this volume adopts a global perspective and demonstrates that both industrial gold mining and artisanal and small-scale gold mining are functionally integrated into a global gold production system. It couples an analysis of structural trends in global gold production, expansion, informalization and technological innovation to twelve country case studies that detail how global gold production becomes embedded in institutional and ecological structures.

Spaces of Responsibility Diana Ayeh, 2021-09-20. *Spaces of Responsibility* explores the role of ethics in re-ordering extractive relations under the global condition. Through an empirical investigation of actors, places and ideas in and around Burkina Faso's industrial gold mining sector, this volume carries out an anti-essentialist yet critical examination, offering new insights into global mining capitalism. Corporate concession-making practices, the implementation of national mining legislation and civil society interventions in mining areas all contribute in different ways to the dialectics of the global. Accordingly, the ongoing territorialization of mining investment often has considerable impacts on the well-being of populations in the Global South. At the same time, multinational corporations today cannot completely distance or isolate themselves from the political, economic and social contexts they are interacting in and with. Drawing on theoretical debates about the links between resource extraction and socio-economic development, multi-scalar negotiations of ethics in mining governance are ethnographically retraced. In terms of gains and benefits, these negotiations manifest themselves spatially, providing access for some actors while excluding others.

Bibliography of Imperial, Colonial, and Commonwealth History Since 1600 Andrew N. Porter, 2002. The twentieth century witnessed an unprecedented growth of research and publication on the history of Britain's empire, the Commonwealth and British expansion overseas. Historical work by area specialists has

transformed the state of knowledge concerning colonial North America India the Caribbean sub Saharan Africa South and South East Asia the Pacific and Australasia Much has been written about Britain s interests and presence in areas and societies never formally subjected to British rule such as Latin America and the Middle and Far East Most recently a preoccupation with the reciprocal impact of overseas expansion and colonial possessions on Britain itself has produced a rapidly growing historiography Publication on this scale has made it virtually impossible for anyone either to keep track of the results or to follow up particular interests Britain s overseas history has never been well supplied with comprehensive bibliographical aids and despite extensive public interest in the subject the position has steadily worsened Following the recent Oxford History of the British Empire this volume is therefore designed to provide a general source of reference and bibliographical guidance at once wide ranging up to date and accessible
