Schmitz, 2004-06-16 On Their Own Terms is a study of how

post 1990 German literature reconfigures the legacy of National Socialism and the Holocaust In five sections Historisation Perpetrators Hitler Youth Memories War Memories and Victim Perspective a number of key literary works such as Bernhard Schlink's *Der Vorleser* Martin Walser's *Ein springender Brunnen* Gunter Grass's *Im Krebsgang* and W G Sebald's *Austerlitz* are analysed The literary texts are situated within the wider context of contemporary German debates on the issue from the exhibition *Crimes of the German Wehrmacht 1941-1945* to the Walser-Bubis affair and the ensuing debate about representations of German suffering One of the central concerns of this book is the literary configuration of German experience and the narrative strategies employed by the writers to validate it against or set it in context with a perspective of victim experience

New German Literature Julian Preece, Frank Finlay, Ruth J. Owen, 2007 Twenty five essays by scholars from the UK Ireland Germany and Australia explore two aspects of new German language literature The first dozen studies focus on the variety and depth of the dialogue in the sense of reciprocal influences between literature photography film painting architecture and music The remaining essays alight on Life Writing in most of its forms diaries memoirs autobiographies and autobiographical fiction and examine its centrality in recent years in German literature not least because of the shadow which World War Two continues to cast over national life

*Children and Cultural Memory in Texts of Childhood* Heather Snell, Lorna Hutchison, 2013-11-07 The essays in this collection address the relationship between children and cultural memory in texts both for and about young people The collection overall is concerned with how cultural memory is shaped contested forgotten recovered and re-circulated sometimes in opposition to dominant national narratives and often for the benefit of young readers who are assumed not to possess any prior cultural memory From the innovative development of school libraries in the 1920s to the role of utopianism in fixing cultural memory for teen readers it provides a critical look into children and ideologies of childhood as they are represented in a broad spectrum of texts including film poetry literature and architecture from Canada the United States Japan Germany Britain India and Spain These cultural forms collaborate to shape ideas and values in turn contributing to dominant discourses about national and global citizenship The essays included in the collection imply that childhood is an oft imagined idealist construction based in large part on participation identity and perception childhood is invisible and tangible exciting and intriguing and at times elusive even as cultural and literary artifacts recreate it *Children and Cultural Memory in Texts of Childhood* is a valuable resource for scholars of children's literature and culture readers interested in childhood and ideology and those working in the fields of diaspora and postcolonial studies

*Tabu und Tabubruch in Literatur und Film* Michael Braun, 2007

Memory Traces Silke Arnold-de Simine, 2005 This essay collection examines the dynamics of memory organization and the way it varies among different media and modes of discourse in post-unification Germany German unification has put the post-war period into a historical perspective Such a rupture raises questions concerning the appropriate commemoration preservation and reinterpretation of the past The processes of reorientation after unification influenced the self-perception of literary authors

as well as the social role position and status of German literature They also affected the way writers viewed the competition in which they found themselves pitted against visual and electronic media as rival windows on the past In the context of several debates on German literature during the 1990s the discussion revolved not only around the adequate aesthetic representation of the historical and cultural heritage but even more so around the role of literature itself in that process The contributions look at different discourses that were and still are concerned with reinterpreting and creating new collective symbols and narrative patterns in relation to Germany's past The volume focuses on the effects of the characteristic discourses of the press literature and its different genres film the internet and memorials on the depiction and performance of memories

**German Culture and the Uncomfortable Past**  
Helmut Schmitz, 2017-07-05 Beginning with the question of the role of the past in the shaping of a contemporary identity this volume spans three generations of German and Austrian writers and explores changes and shifts in the aesthetics of Vergangenheitsbewältigung coming to terms with the past The purpose of the book is to assess contemporary German literary representations of National Socialism in a wider context of these current debates The contributors address questions arising from a shift over the last decade triggered by a generation change questions of personal and national identity in Germany and Austria and the aesthetics of memory One of the central questions that emerges in relation to the Hitler youth generation is that of biography as examined through Günter Grass and Martin Walser's conflicting views on the subject of National Socialism Other themes explored here are the conflict between the post war generations and the contributions of that conflict to West German mentality and the growing historical distance and its influence on the aesthetics of representation
