Powerful definitive Rohde tells the Srebrenica story with all the shades of gray the truth demanded The Washington Post In 1996 at the height of the Bosnian wars a correspondent for The Christian Science Monitor named David Rohde uncovered a horrifying story that became an enduring symbol of the genocidal nature of that conflict earning him his first Pulitzer Prize Endgame is the full length narrative of the nightmare he stumbled upon in the town of Srebrenica where a massacre of historic proportions has been allowed to happen due to the negligence of the United States NATO and the United Nations Told through the eyes of the soldiers peacekeepers and civilians who were there this is a vital unforgettable work of history about an atrocity that could have been prevented      **Survivor Transitional Narratives of Nazi-Era Destruction** Dennis B. Klein, 2017-11-16

Robins, Adam

Jones, 2009-05-12 In the last two decades the field of comparative genocide studies has produced an increasingly rich literature on the targeting of various groups for extermination and other atrocities throughout history and around the contemporary world However the phenomenon of genocides by the oppressed that is retributive genocidal actions carried out by subaltern actors has received almost no attention The prominence in such genocides of non state actors combined with the perceived moral ambiguities of retributive genocide that arise in analyzing genocidal acts from below have so far eluded serious investigation Genocides by the Oppressed addresses this oversight opening the subject of subaltern genocide for exploration by scholars of genocide ethnic conflict and human rights Focusing on case studies of such genocide the contributors explore its sociological anthropological psychological symbolic and normative dimensions      **In Search of A Better World** Payam Akhavan, 2017-09-09 A work of memoir history and a call to action the CBC Massey Lectures by

internationally renowned UN prosecutor and scholar Payam Akhavan is a powerful and essential work on the major human rights struggles of our times Renowned UN prosecutor and human rights scholar Payam Akhavan has encountered the grim realities of contemporary genocide throughout his life and career He argues that deceptive utopias political cynicism and public apathy have given rise to major human rights abuses from the religious persecution of Iranian Bah s that shaped his personal life to the horrors of ethnic cleansing in Yugoslavia the genocide in Rwanda and the rise of contemporary phenomena such as the Islamic State But he also reflects on the inspiring resilience of the human spirit and the reality of our inextricable interdependence to liberate us whether from hateful ideologies that deny the humanity of others or an empty consumerist culture that worships greed and self indulgence A timely essential and passionate work of memoir and history In Search of a Better World is a tour de force by an internationally renowned human rights lawyer *Teaching about Genocide* Samuel Totten,2006-07-01 Photography, Bearing Witness and the Yugoslav Wars, 1988-2021 Paul Lowe,2022-09-27

Combining case studies with theoretical and philosophical insights this book explores the role of photography in representing conflict and genocide both during and after the break up of Yugoslavia Concentrating on the photographer this book considers the practice of photojournalism rather than simply in terms of its consumption and use by the media The experiences and working methods of photographers in the field are analysed showing how practitioners conceptualised their work and responded to larger questions about neutrality and moral responsibility Presenting this active form of witness author Paul Lowe investigates a crucial ethical paradox faced by photojournalists Moving beyond the end of the Yugoslav Wars in 2001 this book also considers the therapeutic and validating potential of photography for survivors featuring photographers whose work centres on memory and reconciliation Based on archival research close reading and discourse analyses of photographs and interviews with a range of international photographers this book explores how photography from this period has been used and remediated in editorial photojournalism fine art documentary and advocacy photography This book will be of interest to scholars in the history of photography art and visual culture and photojournalism

The United States and the International Criminal Court  
Sarah B. Sewall, Carl Kaysen, 2000-08-28 American reluctance to join the International Criminal Court illuminates important trends in international security and a central dilemma facing U.S. Foreign policy in the 21st century The ICC will prosecute individuals who commit egregious international human rights violations such as genocide The Court is a logical culmination of the global trends toward expanding human rights and creating international institutions The U.S. which fostered these trends because they served American national interests initially championed the creation of an ICC The Court fundamentally represents the triumph of American values in the international arena Yet the United States now opposes the ICC for fear of constraints upon America's ability to use force to protect its national interests The principal national security and constitutional objections to the Court which the volume explores in detail inflate the potential risks inherent in joining the ICC More fundamentally they reflect a belief in American exceptionalism that is unsustainable in today's world Court opponents also underestimate the growing salience of international norms and institutions in addressing emerging threats to U.S. national interests The misguided assessments that buttress opposition to the ICC threaten to undermine American leadership and security in the 21st century more gravely than could any international institution

*The War in Our Backyard* Margit V. Wunsch Gaarmann, 2015-02-18 The War in Our Backyard is a novel study of the German press textual and visual coverage of the wars in Bosnia 1992-1995 and Kosovo 1998-1999 Key moments from both wars have been selected and analysed using a broad range of publications reaching from far right to far left and including broadsheets a tabloid and a news magazine Two sections with parallel chapters form the core of the book the first part dealing with the war in Bosnia and the second with Kosovo Each section contains one chapter on the initial phase of the conflict one chapter on an important atrocity namely the Srebrenica Massacre in Bosnia and the Račak incident in Kosovo and lastly a chapter each on the international involvement which ended the immediate violence The book examines how the various events were covered what sources were used and what insights these examples of the German press conveyed Special attention has been paid to four key themes which emerged from the research Firstly the changing perceptions of the Serbian President Slobodan Milošević and the issue of who was to blame for the conflicts secondly how various armed forces including the Yugoslav People's Army and the Kosovo Liberation Army were presented in the German press thirdly the persistent presence of the Second World War and the Holocaust in the coverage of the wars in Bosnia and Kosovo and how they shaped the press interpretation of the violence and lastly how Germany's role in the Balkans both in the realms of diplomacy and military intervention was

evaluated by the national press Pictures and cartoons accompanying the textual coverage have been included to present a more rounded picture of press coverage

**Armenian History and the Question of Genocide** M. Gunter, 2011-05-09 An analysis of the Turkish position regarding the Armenian claims of genocide during World War I and the continuing debate over this issue the author offers an equal examination of each side's historical position The book asks what is genocide and illustrates that although this is a useful concept to describe such evil events as the Jewish Holocaust in World War II and Rwanda in the 1990s the term has also been overused misused and therefore trivialized by many different groups seeking to demonize their antagonists and win sympathetic approbation for them The author includes the Armenians in this category because although as many as 600 000 of them died during World War I it was neither a premeditated policy perpetrated by the Ottoman Turkish government nor an event unilaterally implemented without cause Of course in no way does this excuse the horrible excesses committed by the Turks

*Oral History Off the Record* A. Sheftel, S. Zembrzycki, 2013-09-11 Because oral history interviews are personal interactions between human beings they rarely conform to a methodological ideal These reflections from oral historians provide honest and rigorous analyses of actual oral history practice that address the complexities of a human centered methodology

**The Death Marches** Daniel Blatman, 2011-05-03 In an exploration of a topic nearly neglected in the current history of the Shoah Blatman sets out to explain the effort invested by the Nazi regime in liquidating the remnants of the enemies of the Aryan race before it abandoned the stage of history

**Doubt, Time and Violence in Philosophical and Cultural Thought** Artur K. Wardega, 2012-11-16 As the title of the present publication suggests the ten essays of this book try to approach an inconvenient trauma of global human reality and the uniformity of media and cyberspace in which human lives suffer harm loss of inner identity and of broader meaning Indeed our postmodern and post identity times are characterized by a flux of rapid social changes uncertainty vague and shaking moral values by violence and frightening information with its contradictory truths and genuine ambiguity finally by the violence of unpredictable climate change resulting in various and frequent calamities and devastation of life Doubt and time are the central concern of modern philosophy and remind us that violence is inherent in the human condition and that reflection on it regardless of different cultural sensibilities is ipso facto part of the mainstream of our individual and global concerns These and many other fascinating topics from Western and Chinese history were explored and brought to light by a learned forum of distinguished scholars and experts whose contributions are contained in this publication

*The Armenian Genocide* Paula Johanson, 2017-12-15 The systematic extermination of about 1.5 million Armenians by the Ottoman government during and after WWI inspired the formulation of a new term that would come to haunt the modern civilized world genocide It was a harbinger of other genocides that would deeply scar and stain the twentieth century To this day Turkey denies the genocide instead claiming that the victims died of starvation or the violence of isolated gangs or the unintended effects of legitimate deportation These ongoing denials and evasions have generated enormous debate criticism and controversy within and without Turkey all of which is laid out here for readers to sift through and evaluate and within which they may pursue and locate the truth

Nationalism and the Politicization of History in the Former Yugoslavia Gorana Ognjenovic, Jasna Jozelic, 2021-03-19 This book is very timely the instrumentalization of history for political goals has become a pressing issue and worrisome feature of many polities to the point of challenging even the most consolidated democracies Focusing on Yugoslavia's fragile successor states the authors explore plurifold analytical levels including local regional transnational European and global perspectives The authors comprehensively demonstrate how politicizing history in the postwar and postcommunist societies of what was once Yugoslavia has prevented both reconciliation and democratization Sabine Rutar Leibniz Institute for East and Southeast European Studies Germany Ognjenovic and Jozelic focus here on the former Yugoslavia before and after its fragmentation to explore and evaluate the various uses of histories by nationalists both those who promoted federal nationalism and those who peddle specific local nationalisms in successor states The book deals specifically with the Western Balkans but these developments have their parallels in many other parts of the world and the book will be useful well beyond the region on which the study is based Paul Mojzes Professor Emeritus Rosemont College USA The former Yugoslavia has become a battlefield for the Memory Wars in spite of the wealth of judicially established facts and available evidences gathered about the atrocities in the region and various initiatives aimed at dealing with the past and efforts at transitional justice Focusing on three periods of Yugoslav history the Second World War socialist Yugoslavia and the Yugoslav wars of 1991-2001 the contributors show that despite these efforts to deal with the past sustainable peace and reconciliation across ethnic and

religious groups remain a distant aim Marijana Toma Center for Cultural Decontamination Serbia This book analyzes how nationalists in the former Yugoslavia have politicized history to further their political agendas retaining and prolonging conflict among different cultural and religious groups and impeding the process of lasting reconciliation It explores how narratives have been mis used drawing on examples from all of the former Yugoslav republics With contributors from a range of disciplinary backgrounds it provides a vital assessment of how nationalists have attempted to re shape public collective memory and relativize facts
