End Of Eternity:

The End of Eternity Isaac Asimov, 2020-09-01 A spellbinding novel set in the universe of Isaac Asimov's classic Galactic Empire series and Foundation series. Due to circumstances within our control tomorrow will be canceled. The Eternals, the ruling class of the Future, had the power of life and death not only over every human being but over the very centuries into which they were born. Past, Present, and Future could be created or destroyed at will. You had to be special to become an Eternal. Andrew Harlan was special. Until he committed the one unforgivable sin: falling in love. Eternals weren't supposed to have feelings. But Andrew could not deny the sensations that were struggling within him. He knew he could not keep this secret forever. And so he began to plan his escape, a plan that changed his own past and threatened Eternity itself.

The End of Eternity Isaac Asimov, 2000 Andrew Harlan is an Eternal, a man whose job it is to range through past and present Centuries, monitoring and where necessary altering Time's myriad cause and effect relationships. But when Harlan meets and falls for a non-Eternal woman, he seeks to use the awesome powers and techniques of the Eternals to twist time for his own purposes so that he and his love can survive together.

Get to the End Michael Hickey, 2016-03-07 Get to the End is written about the end times, i.e. the end of the world and history as we know it. But it is written from a Catholic perspective. There are many books on the market that speak to the end times; however, they are all written from a Protestant perspective, and for the most part, they are written by Christians from conservative churches who are generally Fundamentalist Christians. There are virtually no books written about the end times from a Catholic perspective. The few that have been written with a Catholic perspective of the end times have been written for the most part by Catholic priests, and they are generally weighed down heavily in doctrine and dogma. This will be one of the first on the subject written by a Catholic layman who has a broader perspective than Catholic Doctrine and Dogma and who views himself as uniquely in the world but not of the world.

Space 1999 and Critical Theory John K. Balor, 2017-11-11 The television series SPACE 1999 was in its first series shaped by the late sixties and early seventies counterculture movements, making SPACE 1999 into an example of how certain SF scholars see a natural alignment between science fiction and critical theory. However, due to changes in the political climate, SPACE 1999 went through an ideological reversal in its second series. As a result, the schizophrenic nature of the series has ever since caused debate. This book is written on an idealistic basis. It is sold at the lowest price the publisher was willing to accept. The End of Earth John Uri Lloyd, 2020-12-17 This book purports to be a manuscript dictated by a strange being named I Am The Man to a man named Llewellyn Drury. Drury's adventure culminates in a trek through a cave in Kentucky into the core of the earth. It blends passages on the nature of physical phenomena such as gravity and volcanoes with spiritualist speculation and adventure story elements like traversing a landscape of giant mushrooms.

Shapes of Time Michael McGillen, 2023-12-15 Shapes of Time explores how concepts of time and history were spatialized in early twentieth-century

German thought Michael McGillen locates efforts in German modernism to conceive of alternative shapes of time beyond those of historicism and nineteenth century philosophies of history at the boundary between secular and theological discourses By analyzing canonical works of German modernism those of Karl Barth Franz Rosenzweig Siegfried Kracauer and Robert Musil he identifies the ways in which spatial imagery and metaphors were employed to both separate the end of history from a narrative framework and to map the liminal relation between history and eschatology Drawing on theories and practices as disparate as constructivism non Euclidean geometry photography and urban architecture Shapes of Time presents original connections between modernism theology and mathematics as played out within the canon of twentieth century German letters Concepts of temporal and spatial form McGillen contends contribute to the understanding not only of modernist literature but also of larger theoretical concerns within modern cultural and intellectual history [Bible Threatenings Explained](#)

West,2015-09-29 What do you believe about souls There are many very different doctrines taught in the world today concerning souls that are believed to be in all humans By most a soul is believed to be something that is wholly apart from the person a soul is in that a soul is something that is that is believed to be complete in its self without the person it will live after the person it is in is dead it is believed that a soul will exist forever without the person it will never be dead therefore a soul cannot be resurrected from the dead It is believed that a soul must live someplace forever and it will live either in Heaven or Hell even if there is no resurrection The doctrine of unconditional immortality of a deathless soul being in a person and that soul leaving that person at the death of the person makes it impossible for Christ to have give His life to save that soul from death if a soul had immortality it would already have life and could never not have life all Christ could do is give it a reward or punish it **CliffsNotes on Asimov's Foundation Trilogy & Other Works** L. Disruptive Grace George Hunsinger, 2000. Among the studies of Karl Barth's thought, no other work covers as this one does the areas of political, doctrinal, and ecumenical theology in single compass. Written by a leading Barth scholar, *Disruptive Grace* is unique not only for its range of study, depth of insight, and accuracy of presentation, but also for the way it displays the heart as well as the mind of the great Swiss pastor and theologian. Each of the book's three main sections consists of five major essays. Part 1 relates Barth to contemporary issues of social justice, war, and peace. Part 2 covers Christology, pneumatology, the Trinity, scriptural interpretation, and the question of universal salvation. Part 3 discusses the Reformed tradition as Barth understood it in relation to Roman Catholicism, Lutheranism, modern liberalism, evangelical conservatism, and the postliberal theology of the contemporary Yale school. The book concludes with a meditation on the saving significance of Christ's death, a theme that runs throughout the book. The result of more than twenty-five years of intensive Barth research, this volume provides scholars, teachers, and students with a thorough discussion of the twentieth century's most significant Christian thinker. *Bible Threatenings Explained* J.W. Hanson D.D., 2014-07-25. Bible Threatenings Explained: Passages of Scripture Sometimes Quoted to Prove Endless Punishment Shown to Teach Consequences of Limited Duration, Showing that Christian Universalism or Ultimate Reconciliation is the True Biblical Doctrine. *Dogmatics I* Emil Brunner, 2025-04-24. One of the great twentieth century works of theology, Emil Brunner's *Dogmatics* series presents a profoundly biblical systematic theology. Finding a path between Barth and Bultmann, Brunner explores key doctrines such as the doctrine of God, creation and redemption, and the doctrine of the church and of faith. These foundational texts from a leading theologian of the 20th century are crucial for scholars and students, illuminating how modern Protestant theology was formed in the last century. The first volume serves as an introduction to Brunner's view of dogmatics, setting out the nature, position, and necessity of dogmatics before exploring the many facets of the doctrine of God. In detailed, vigorous explanation, Brunner considers the nature and will of God, including his name, his holiness, his wisdom, and his glory. Thorough, insightful, and extensive, this first volume is an illuminating beginning to this series. The second volume explores the fundamental concepts of the Protestant doctrine, from creation and the creator to man's position within creation, sin and its consequences, and the saving work of Jesus. Brunner explores all of the possibilities of these fundamentals, and his detailed, thoughtful arguments are designed, as he says, to set us free to have a faith which is based on nothing save the Love of God revealed in Jesus Christ. The third and final volume

focusses on the theology of the Church as a reflection of God's self-revelation through the Holy Spirit and an eternal consummation of Divine self-communication. Drawing together the understanding gleaned in the previous two volumes, Brunner addresses the nature of the church and faith to bring his systematic biblical theology into the experiences of his readers. **The End of the World and the Ends of God** John Polkinghorne, Michael Welker, 2000-02-01 In this provocative collection of essays, scientists, theologians, ethicists, and biblical scholars look at eschatology through their various lenses.

Individuum, Society, Humankind Makoto Ozaki, 2021-10-01 In this collection on the Kyoto School of Philosophy, the author offers the reader Tanabe's religious philosophy but also, and for the first time, his philosophy of nature and ontology. It is not only on individuum, society, and humankind but also on the logical structure of Tanabe's thinking and aspects such as nature, beauty, matter, contemplation, practice, politics, religion, science, history, eternity, etcetera. A highly original work, the more as the reader becomes acquainted with Ozaki's own creative synthetic view of the main problems of Christian Buddhist theological and philosophical encounter. *The Universalist's Book of Reference* Everett Emmett Guild, 1881

Human Nature in Its Four-fold State Thomas Boston, 1812 Human nature in its fourfold state ... The seventh edition, carefully read by the author's own copy, wherein the errors of former editions are corrected. The preface signed: Robert Wightman

Thomas BOSTON (the Elder.), 1776 *1999: A Space Odyssey* John K. Balor, 2018-08-03 Part of the premise of the online discussion transcribed in this book is how Gerry Anderson's television series *Space: 1999* can be understood in relation to Stanley Kubrick's 2001 *A Space Odyssey* by looking at both narratives through the perspective of systems theory. As a result of doing so, an engaged debate concerned with the political and philosophical subtext of both stories developed. This book gives a full account of the debate with summaries of ideas and insights. The book has been developed on an idealistic basis. It is sold at the lowest price the publisher was willing to accept. A free e-book version can be downloaded at www.lulu.com.
