End Of The Game The Last Word From Paradise:

The Last Train to Zona Verde Paul Theroux, 2013-05-07 The acclaimed author of *Dark Star* Safari journeys across western Africa in this thoroughly engrossing and at times tragic travelogue Washington Post Paul Theroux's best selling *Dark Star* Safari chronicled his epic overland voyage from Cairo to Cape Town providing an insider's look at modern Africa Now with *The Last Train to Zona Verde* he returns to discover how both he and Africa have changed in the ensuing years Traveling alone Theroux sets out from Cape Town going north through South Africa Namibia then into Angola encountering a world increasingly removed from tourists itineraries and the hopes of postcolonial independence movements After covering nearly 2 500 arduous miles Theroux cuts short his journey a decision he chronicles with unsparing honesty in a chapter titled *What Am I Doing Here* Vivid witty and beautifully evocative *The Last Train to Zona Verde* is a fitting final African adventure from the writer whose gimlet eye and effortless prose have brought the world to generations of readers If this book is proof age has not slowed Theroux or encouraged him to rest on his achievements Gutsy alert to Africa's struggles its injustices and history San Francisco Chronicle Catalog of Copyright Entries. Dark Faith Jerry Gordon, Maurice Broaddus, 2010-05-07 The destructiveness of passion both earthly and supernatural makes cities bleed and souls burn across worlds through endless time Experience the spiritual side of the zombie apocalypse in *The Days of Flaming Motorcycles* and transcend both hell and nirvana in *Zen and the Art of Gordon Dratch's Damnation* Look into *The Mad Eyes of the Heron King* to find the beautiful brutality written Before They Vanish Paul R. Ehrlich, Gerardo Ceballos, Rodolfo Dirzo, 2024-09-17 This work is a new hopeful analysis from the world's top natural scientists that shows us the way to save the endangered species of the world *Elephant Trails* Nigel Rothfels, 2021-11-30 Why have elephants and our preconceptions about them been central to so much of human thought From prehistoric cave drawings in Europe and ancient rock art in Africa and India to burning pyres of confiscated tusks our thoughts about elephants tell a story of human history In *Elephant Trails* Nigel Rothfels argues that over millennia we have made elephants into both monsters and miracles as ways to understand them but also as ways to understand ourselves Drawing on a broad range of sources including municipal documents zoo records museum collections and encounters with people who have lived with elephants Rothfels seeks out the origins of our contemporary ideas about an animal that has been central to so much of human thought He explains how notions that have been associated with elephants for centuries that they are exceptionally wise deeply emotional and have a special understanding of death that they never forget are beloved of the gods and suffer unusually in captivity and even that they are afraid of mice all tell part of the story of these amazing beings Exploring the history of a skull in a museum a photograph of an elephant walking through the American South in the early twentieth century the debate about the quality of life of a famous elephant in a zoo and the accounts of elephant hunters Rothfels demonstrates that elephants are not what we think they are and they never have been *Elephant Trails* is a compelling

portrait of what the author terms our elephant **Zoo Story** Thomas French, 2024-09-24 An insightful and detailed look at the complex life of a zoo and its denizens both animal and human New York Times bestselling author Yann Martel A New York Times Bestseller Welcome to the savage and surprising world of Zoo Story an unprecedented account of the secret life of a zoo and its inhabitants Based on six years of research Pulitzer Prize winning journalist Tom French's book follows a handful of unforgettable characters at Tampa's Lowry Park Zoo an alpha chimp with a weakness for blondes a ferocious tiger who revels in Obsession perfume and a brilliant but tyrannical CEO known as El Diablo Blanco The sweeping narrative takes the reader from the African savannah to the forests of Panama and deep into the inner workings of a place some describe as a sanctuary and others condemn as a prison Zoo Story shows us how these remarkable individuals live how some die and what their experiences reveal about the human desire to both exalt and control nature This story told by a master teller of such things does more than take you inside the cages fences and walls of a zoo It takes you inside the human heart and an elephant's and a primate's and on and on Tom French did in this book what he always does He took real life and wrote it down for us with eloquence and feeling and aching detail Rick Bragg Pulitzer Prize winning journalist Told with breathtaking novelistic punch People Wild: The Life of Peter Beard: Photographer, Adventurer, Lover Graham Boynton, 2022-10-11 Graham Boynton's Wild is the definitive biography of photographer Peter Beard a larger than life icon who pushed the boundaries of art and scandalized international high society with his high profile affairs He was the original 20th century enfant terrible with the looks of a Greek god who blazed like a comet across the worlds of art photography and fame The scion of several old WASP fortunes he was by instinct an adventurer and the more dangerous the escapade the better whether he was hunting big game in Africa ingesting epic quantities of drugs or pursuing the most beautiful women in the world Among his friends were Jackie Onassis Andy Warhol and Francis Bacon When Peter Beard died in 2020 after mysteriously disappearing from his Montauk home he remained an enigma to even his closest friends Journalist and author Graham Boynton was a friend for more than 30 years spending time with Beard at his bush camp in Africa in London and at his Long Island home From hundreds of Boynton's interviews with Beard's closest friends former lovers and fellow artists comes this intimate portrait of a man Sir Mick Jagger called a visionary **Twentieth-Century Man** Christopher Wallace, 2023-07-04 An exuberant biography of the life of the iconic photographer and naturalist Peter Beard whose life and work captured the cultural imagination Peter Beard lived an astonishing life The artist wildlife photographer and bon vivant enthralled and inspired both because of his work and his legendary lifestyle A scion of American industry turned explorer of Africa and environmental advocate Beard embodied the extremes of his time grand adventurer and sexually voracious partier friend of everyone from the Rolling Stones to Jackie Onassis to Andy Warhol to Karen Blixen And Beard had a passion probably more like an obsession with the faults of the entire human experiment with the ways in which our consumption of the world's resources have come to consume us all Beard's outsize life and character his death defying documentation of

both the endangered wildlife of Africa and closer to home some of the world's most beautiful women for a range of fashion magazines animate this lively but authoritative biography The journalist Christopher Wallace long fascinated by Beard's artistic legacy adventurous spirit and hard partying persona came to know him well later in Beard's life Capturing the varied social and cultural scenes that Beard moved through with glamorous ease over five decades Wallace also makes a powerful case for the lasting impact of his work In *Twentieth Century Man* Wallace has rendered this towering figure in all of his contradictions and complexities a deeply romantic and idiosyncratic personality beloved by so many whose sensibilities nonetheless remained firmly rooted in an era characterized by racist and colonialist attitudes Stirring and visceral *Twentieth Century Man* is the definitive portrait of Peter Beard

Beryl Markham Catherine Gourley, 1997-03-01 Markham an early pioneer in aviation was a passionate free spirited girl struggling to come to terms with her identity and her place in the world This biography tells of the obstacles she faced and how she overcame adversity to follow her dreams of flying

Ecology and Management of the African Buffalo Alexandre Caron, Daniel Corn  lis, Philippe Chardonnet, Herbert H. T. Prins, 2023-11-23 One of iconic Africa's Big Five the African buffalo is the largest African bovine or antelope that occurs throughout most of sub Sahara and in a wide range of ecosystems from savanna to rainforest The African buffalo is also one of the most successful large African mammals in terms of abundance and biomass This species thus represents a powerful model to enhance our understanding of African biogeography and wildlife conservation ecology and management Edited by four researchers experienced in different aspects of the African buffalo's biology this volume provides an exhaustive compilation of knowledge on an emblematic species that stands out as an important component of African natural and human ecosystems It delivers a global view of the African buffalo and all known aspects of its ecology and management This book will appeal to students scholars scientists and wildlife managers as well as those enthusiastic about the charismatic species This title is also available as Open Access on Cambridge Core

Environment Glenn Adelson, James Engell, Kevin P. Van Anglen, Brent Ranalli, 2008-01-01 This major anthology is the first to apply a fully interdisciplinary approach to environmental studies A comprehensive guide to environmental literacy the book demonstrates how the sciences social sciences and humanities all contribute to understanding our interrelationships with the natural world Though not specialized *Environment* is a book that even specialists can learn from Ten innovative case studies climate shock species endangerment nuclear power biotechnology sustainable development deforestation environmental security globalization wilderness and the urban environment are followed by readings from specific disciplines These can be integrated with the case studies to shape individual interests and teaching strategies The volume presents an imaginative array of texts from scientific papers to poetry legal decisions to historical accounts personal essays to economic analysis Taken together these selections provide a balanced authoritative and up to date treatment of key issues in environmental studies

The White Spaces of Kenyan Settler Writing Terrence L. Craig, 2017-03-27 *The White Spaces of Kenyan Settler Writing* provides an overview of Kenyan

literature by white writers in the half century before Independence in 1964 Such literature has been over shadowed by that of black writers to the point of critical ostracism It deserves attention for its own sake as the expression of a community that hoped for permanence but suffered both disappointment and dispossession It deserves attention for its articulation of an increasingly desperate colonial and Imperial situation at a time when both were being attacked and abandoned in Africa as in other colonies elsewhere and when a counter discourse was being constructed by writers in Britain as well as in Africa Kenya was likely the best known twentieth century colony for it attracted publicity for its iconic safaris and its Happy Valley scandals Yet behind such scenes were settlers who had taken over lands from the native peoples and who were trying to make a future for themselves based on the labour willing or forced of those people This situation can be seen as a microcosm of one colonial exercise and can illuminate the historical tensions of such times The bibliography is an attempt to collect the literary resources of white Kenya in this historically significant period

The Archaeology of Environmental Change

Christopher T. Fisher, J. Brett Hill, Gary M. Feinman, 2022-05-24 Water management soil conservation sustainable animal husbandry because such socio environmental challenges have been faced throughout history lessons from the past can often inform modern policy In this book case studies from a wide range of times and places reveal how archaeology can contribute to a better understanding of humans relation to the environment The Archaeology of Environmental Change shows that the challenges facing humanity today in terms of causing and reacting to environmental change can be better approached through an attempt to understand how societies in the past dealt with similar circumstances The contributors draw on archaeological research in multiple regions North America Mesoamerica Europe the Near East and Africa from time periods spanning the Holocene and from environments ranging from tropical forest to desert Through such examples as environmental degradation in Transjordan wildlife management in East Africa and soil conservation among the ancient Maya they demonstrate the negative effects humans have had on their environments and how societies in the past dealt with these same problems All call into question and ultimately refute popular notions of a simple cause and effect relationship between people and their environment and reject the notion of people as either hapless victims of unstoppable forces or inevitable destroyers of natural harmony These contributions show that by examining long term trajectories of socio natural relationships we can better define concepts such as sustainability land degradation and conservation and that gaining a more accurate and complete understanding of these connections is essential for evaluating current theories and models of environmental degradation and conservation Their insights demonstrate that to understand the present environment and to manage landscapes for the future we must consider the historical record of the total sweep of anthropogenic environmental change

Animal Harm Angus Nurse, 2016-04-15 Why do people harm injure torture and kill animals This book evaluates the reasons why these crimes are committed and outlines the characteristics of the animal offender It considers ethical and value judgements made about animals and the tacit acknowledgement and justification of unacceptable criminal behaviour

towards the harming of animals made by offenders Situating animal abuse wildlife crime illegal wildlife trading and other unlawful activities directed at animals firmly within Green Criminology the book contends that this is a distinct multi dimensional type of criminality which persists despite the introduction of relevant legislation Taking a broad approach the book considers the killing and harming of animals in an international context and examines the effectiveness of current legislation policy and sentencing Including a section on further reading and useful organizations this book is a valuable exploration into perspectives on the responsibility owed by man to animals as part of broader ecological and legal concerns It will interest criminologists ecologists animal protectionists and those interested in law and society and law and the environment

Tarangire: Human-Wildlife Coexistence in a Fragmented Ecosystem Christian Kiffner,Monica L. Bond,Derek E. Lee,2022-04-22 This edited volume summarizes multidisciplinary work on wildlife conservation in the Tarangire Ecosystem of northern Tanzania By drawing together human centered wildlife centered and interdisciplinary research this book contributes to furthering our understanding of the often complex mechanisms underlying human wildlife interactions in dynamic landscapes By synthesizing the wealth of knowledge generated by anthropologists ecologists conservationists entrepreneurs geographers sociologists and zoologists over the last decades this book also highlights practicable and locally adapted solutions for shaping human wildlife interactions towards coexistence Readers will discover the reciprocal and often unexpected direct and indirect dynamics between people and wildlife While boundaries e g between people and wildlife between protected and un protected areas and between different groups of people are a common theme throughout the different chapters this book stresses the commonalities links and synergies between seemingly disparate disciplines opinions and conservation approaches The chapters are divided into clear sections such as the human dimension the wildlife dimension and human wildlife interactions representing a detailed summary of anthropological ecological and interdisciplinary research projects that have been conducted in the Tarangire Ecosystem over the last decades Beyond this work contributes to the debate about land sharing versus land sparing and provides an in depth case study for understanding the complexities associated with human wildlife coexistence in one of the few remaining ecosystems that supports migratory populations of large mammals The topic of this book is particularly relevant for students scholars and practitioners who are interested in reconciling the needs of human populations with those of the environment in general and large mammal populations in particular
