End Of The Peasantry:

The End of the Peasantry in Southeast Asia R.E. Elson, 2016-01-13 This book analyses the changing context and conditions of production and livelihood amongst Southeast Asia's peasants since the beginning of the nineteenth century. It argues that with demographic growth and the nineteenth century development of great global markets based on small scale production the size and economic significance of peasantries throughout the region was magnified. However such changes brought with them new forces: stronger states, more regular legal systems, a revolution in communications, intensive commercialisation which themselves worked to undermine the foundations of peasant society and eventually to transform peasants into farmers, workers and citizens.

Peasant Rebels Under Stalin Lynne Viola, 1999-01-28 The first book to document the peasant rebellion against Soviet collectivization. *Peasant Rebels Under Stalin* retrieves a crucial lost chapter from the history of Stalinist Russia. The peasant revolt against collectivization as reconstructed by author Lynne Viola was the most violent and sustained resistance to the Soviet state after the Russian Civil War. Conservative estimates suggest that over the course of the 1920s and early 1930s more than 1,100 people were assassinated, more than 13,000 villages rioted and over 2.5 million people participated in this active struggle of resistance. This book is about the men and women who tried to preserve their families, communities and beliefs from the depredations of Stalinism. Their acts were often heroic but these heroes were homespun, ordinary people who were driven to acts of desperation by cruel and brutal state policies. This is a study of peasant community culture and politics through the prism of resistance. Based on newly declassified Soviet archives including previously inaccessible OGPU secret police reports, Viola's work documents the manifestation in Stalin's Russia of universal strategies of peasant resistance in what amounted to a virtual civil war between state and peasantry. This book is must reading for scholars of Soviet history, Stalinism, popular resistance and Russian peasant culture.

The Russian Peasantry 1600-1930 David Moon, 2014-07-16 This impressive work set to become the standard history on the subject offers a definitive survey of peasant society in Russia from the consolidation of serfdom and tsarist autocracy in the 17th century through to the destruction of the peasant's traditional world under Stalin. Over three quarters of Russian society were peasants in these years and David Moon explores all aspects of their life, including the rural economy, peasant households, village communities and their political role including protest against the landowning elites. In the process he presents a fresh perspective on the history of Russia itself. A big book in every way and compellingly readable.

Peasants in World History Eric Vanhaute, 2021-03-22 This is the first world history of peasants. *Peasants in World History* analyzes the multiple transformations of peasant life through history by focusing on three primary areas: the organization of peasant societies, their integration within wider societal structures and the changing connections between local, regional and global processes. Peasants have been a vital component in human history over the last 10,000 years with nearly one third of the world's population still living a peasant lifestyle today. Their role as rural producers of ever new surpluses instigated complex

and often opposing processes of social and spatial change throughout the world Eric Vanhaute frames this social change in a story of evolving peasant frontiers These frontiers provide a global comparative historical lens to look at the social economic and ecological changes within village systems agrarian empires and global capitalism Bringing the story of the peasantry up through the modern period and looking to the future the author offers a succinct overview with students in mind This book is recommended reading to anyone interested in the history and future of peasantries and is a valuable addition to undergraduate and graduate courses in World History Global Economic History Global Studies and Rural Sociology

The New Fate of Peasants Shukai Zhao, 2017-11-16 This book discusses the historical transformation of the destiny of Chinese peasants under the contemporary political economic conditions and tries to explore the institutional mechanism behind the formation and maintenance of these conditions The analysis focuses on the consequences of the great social mobilization brought about by the reform The phenomenon of migrant workers is the most significant consequence of the change of Chinese peasants life courses The destiny of migrant workers will be the destiny of Chinese peasants The introduction chapter of this book discusses the historical context and peasants fates their political participation and citizenship of peasants after they become urban dwellers Chapter one discusses the social implication and economic consequences of the urbanization of rural population Chapter two discusses the living conditions for peasants that moved to work in cities including working environments living environments education of their children and their social networking Chapter three discusses the challenges that the mobilization of peasants has posed on government policy making and urban managements Chapter four discusses the latest development in the social mobilization of Chinese peasants

[Farewell to Peasant China](#) Gregory Eliyu Guldin, 2016-09-16 Chinese urbanization including the daily life migration strategies and life choices of villagers and townspeople is the focus of this study by Chinese and North American scholars The study looks at the urbanization process and the vitality of post reform Chinese society

The End of Peasantry? Grigory Ioffe, Tatyana Nefedova, Ilya Zaslavsky, 2006-10-19 The End of Peasantry examines the dramatic recent decline of agriculture in post Soviet Russia Historically Russian farmers have encountered difficulties relating to the sheer abundance of land the vast distances between population centers and harsh environmental conditions More recently the drastic depopulation of rural spaces decreases in sown acreage and overall inefficiency of land usage have resulted in the disruption and spatial fragmentation of the countryside For many decades rural migration has been a selective process resulting in the most enterprising and self motivated people leaving the rural periphery The new agricultural operators representing nascent but aggressive Russian agribusiness have difficulty co-opting traditional rural communities afflicted by profound social dysfunction The contrast between agriculture in proximity to large cities and in their hinterlands is as sharp as ever and some vacant niches are increasingly occupied by ethnically non Russian migrants All of these conditions existed to some degree in pre Soviet times but they have been exacerbated since Russia took steps toward a market economy Understudied and often underestimated in

the West the crisis facing Russian agriculture has profound implications for the political and economic stability of Russia The authors see hope in the significant increase in land use intensity on vastly diminished farmland The lessons gathered from this thoroughly researched study are far reaching and relevant to the disciplines of Slavic and European studies agriculture political science economics and human geography *Return of the Peasant* Alexander F. Day,2007 **End Of The Peasantry** Anthony W. Pereira,1997-04-15 The rural labor movement played a surprisingly active role in Brazil s transition to democracy in the 1980s While in most Latin American countries rural labor was conspicuously marginal in Brazil an expanded secularized and centralized movement organized strikes staged demonstrations for land reform demanded political liberalization and criticized the government s environmental policies In this ground breaking book Anthony W Pereira explains this transition as the result of two intertwined processes the modernization of agricultural production and the expansion of the welfare state into the countryside and explores the political consequences of these processes occurring not only in Latin America but in much of the Third World **The Last Peasant War** Jakub S. Beneš,2025-01-28 A history of the largely forgotten peasant revolution that swept central and eastern Europe after World War I and how it changed the course of interwar politics and World War II As the First World War ended villages across central and eastern Europe rose in revolt Led in many places by a shadowy movement of army deserters peasants attacked those whom they blamed for wartime abuses and long years of exploitation large estate owners officials and merchants who were often Jewish At the same time peasants tried to realize their rural visions of a reborn society establishing local self government or attempting to influence the new states that were being built atop the wreckage of the Austro Hungarian and Russian Empires In *The Last Peasant War* Jakub Beneš presents the first comprehensive history of this dramatic and largely forgotten revolution and traces its impact on interwar politics and the course of the Second World War Sweeping large portions of the countryside between the Alps and the Urals from 1917 to 1921 this peasant revolution had momentous aftereffects especially among Slavic peoples in the former lands of the Austro Hungarian Empire It enabled an unprecedented expansion of agrarian politics in the interwar period and provided a script for rural resistance that was later revived to resist Nazi occupation and to challenge Communist rule in east central Europe By shifting historical focus from well studied cities to the often neglected countryside *The Last Peasant War* reveals how the movements and ambitions of peasant villagers profoundly shaped Europe s most calamitous decades Collected Works of [V.I. Lenin] Vladimir Il'ich Lenin,1929 **Peasant Violence and Antisemitism in Early Twentieth-Century Eastern Europe** Irina Marin,2018-07-11 This book is a transnational study of rural and anti Semitic violence around the triple frontier between Austria Hungary Romania and Tsarist Russia at the beginning of the twentieth century It focuses on the devastating Romanian peasant uprising in 1907 and traces the reverberations of the crisis across the triple frontier analysing the fears spectres and knee jerk reactions it triggered in the borderlands of Austria Hungary and Tsarist Russia The uprising came close on the heels of the 1905 1907 social turmoil in Tsarist Russia and brought into play

the major issues that characterized social and political life in the region at the time rural poverty the Jewish Question state modernization and social upheavals The book comparatively explores the causes and mechanisms of violence propagation the function of rumour in the spread of the uprising land reforms and their legal underpinnings the policing capabilities of the borderlands around the triple frontier as well as newspaper coverage and diplomatic reactions The Peasant in Nineteenth-Century Russia Wayne S. Vucinich, John Shelton Curtiss, 1968 Studies of foreign scholars and observers have created many useful perspectives on the Russian peasant The present volume is part of this continuing expansion of scholarship on the peasantry **International Press Correspondence**, 1926 Stalin's Peasants Sheila Fitzpatrick, 1994 Drawing on Soviet archives especially the letters of complaint with which peasants deluged the Soviet authorities in the 1930s this work analyzes peasants strategies of resistance and survival in the new world of the collectivized village *The Transformation of a Peasant Economy* John Goodacre, 2017-07-28 The market town has been dismissed as an incompletely formed urban community in fact it was the primary urban unit in pre industrial England This study places the market town at the centre of the transformation of early modern England both catalysing changes in agriculture and experiencing in a distinctive fashion the urbanisation that was to occur a century or more later in the great industrial and commercial centres of Europe In the two centuries after 1500 the rural economy changed from a pattern of subsistence to improved farming The first great enclosures took place during this time but the economic base for this revolution was the growth of local trading centred on markets and local communications networks This redistribution of produce provisions and information was the motor of specialisation and hence modernisation The strength of this study is in its detailed research into this process in one representative locality and the sensitive extrapolation of local experiences on to the national and European scale By integrating in one book the themes of rural transformation and early urbanisation this account of one typical midland market town demonstrates the continuing vigour of the discipline of local history **The Comédie Humaine: The peasantry** Honoré de Balzac, 1900 *The Agrarian Policy of the Russian Socialist-Revolutionary Party* Maureen Perrie, 1976 The Socialist Revolutionary SR party gained an overall majority in the election to the Russian Constituent Assembly which was dissolved by the Bolsheviks in January 1918 The SRs derived the bulk of their electoral support from the peasantry and the gulf between the predominantly urban Bolshevik party and the rural masses was to create immense problems for the Soviet government in the 1920s culminating in the horrors of forced collectivization The SRs offered an alternative vision of the Russian peasant's path to socialism They were closer to the peasantry than any other revolutionary party and more aware of the problems involved in implementing a socialist transformation of Russian agriculture In this study the author traces the development of SR agrarian policy in the party's formative years from the period of disillusionment which followed the failure of the Populist movement to the people of the 1870s through the revolutionary years 1905-7 to the subsequent reaction under Stolypin **The Politics of Transnational Peasant Struggle** Robin Dunford, 2016-05-25 New waves of land grabbing are

working to dispossess peasants in both the Global South and the Global North But peasants are fighting back They have come together to contest dispossession through place based and transnational forms of activism In so doing they have articulated a demand for food sovereignty They claim that a democratically organized food system in which smallholder producers produce their own food on their own territory can feed the world whilst cooling the planet This book explores practices of peasant resistance Its aim is to show how grass roots peasant activists have been able to demand transnational social and political change In the process the book examines the grassroots forms of activism that enable peasants to reclaim land upon which to work and from which to live It explores how diverse grass roots movements have been able to connect and unite in order to contest transnational dynamics of oppression Moreover it discusses how practices of peasant activism transform how we think and ought to think about human rights and global democracy By also highlighting the problems that peasants continue to face the book indicates that the future of sustainable peasant livelihoods depends on the will of global organizations and transnational society to not just listen to the voices of peasant activists but to respond to them too
