David McIntyre, 1977 The author a professor of history at the University of Canterbury Christchurch New Zealand presents a comprehensive survey of Commonwealth history from the time of soul searching about the future of the British Empire which marked the middle years of Queen Victoria s reign to the year when Britain decided to enter the European Community The account is divided in three periods 1869 to 1917 1917 to 1941 and 1942 to 1971 Within each period a four fold thematic divisions is followed Dominions Indian Empire crown colonies and protectorates **Wrestling with Democracy** Dennis Pilon, 2013-01-01 Though sharing broadly similar processes of economic and political development from the mid to late nineteenth century onward western countries have diverged greatly in their choice of voting systems most of Europe shifted to proportional voting around the First World War while Anglo American countries have stuck with relative majority or majority voting rules Using a comparative historical approach **Wrestling with Democracy** examines why voting systems have or have not changed in western industrialized countries over the past century In this first single volume study of voting system reform covering all western industrialized countries Dennis Pilon reviews national efforts in this area over four timespans the nineteenth century the period around the First World War the Cold War and the 1990s Pilon provocatively argues that voting system reform has been a part of larger struggles over defining democracy itself highlighting previously overlooked episodes of reform and challenging widely held assumptions about institutional change **Towards Consensus?** Peter Aimer, 2013-11-01 Based on a nationwide survey of voters this is a study of the historic 1993 New Zealand general election and referendum It seeks to explain why New Zealanders made the choices they did an extremely narrow majority for the National Party and a decision to shift to MMP representation **Politics in New Zealand** Richard Mulgan, 2013-11-01 This revised edition of a classic introduction to the New Zealand political constitutional and electoral system covers recent elections and the constitutional and legal changes that have attracted the attention of the international community Using a pluralist theory of the state it describes the history and practice of New Zealand government Political parties and special interest groups the governmental hierarchy and the public sector are discussed with information on how these different influences affect the political scene The historical perspective provided offers a vision of the evolutionary
