Enduring Partnership Report Of The Commission On Usisrael Relations:

Enduring Partnership Commission on U.S.-Israel Relations, 1993-01-01 The Transatlantic Allies and the Changing Middle East Philip H Gordon, 2020-11-25 Since the mid 1990s US and European attitudes strategies and policies towards the Middle East have diverged In the Middle East peace process Europeans have grown frustrated with the lack of progress and with Washington's near monopoly on diplomatic action and have begun to demand a greater role On Iraq the US insists on strong military and economic containment of Saddam Hussein while some Europeans have started to press for a more rapid reintegration of Iraq into the international community and are reluctant to use or threaten force The issue of how to deal with Iran has been most divisive of all with the US and Europe deeply divided over whether they should contain or engage Tehran Transatlantic tensions over the Middle East are damaging for three main reasons They reduce the effectiveness of allied policies undermine NATO's cohesion when its future is no longer guaranteed by a common threat and threaten to spill over into the economic domain This paper examines the reasons for these potentially damaging differences assesses the prospects for improving transatlantic cooperation in the region and suggests approaches that may help to bring this about Its main policy conclusions are On the Arab Israeli conflict as long as the peace process is moving forward or has reasonable prospects of doing so the US is probably right that Europe's formal involvement in direct peace talks would not be helpful particularly if such a role aimed to promote policies different from those of the US If the peace process stalls completely however it will be difficult for Washington to justify opposing a more active European role On Iraq the US led policy of containment is correct and economic sanctions should remain in place until Baghdad complies fully with UN Security Council disarmament resolutions However in exchange for Europe's agreement to contribute to Iraq's military containment the US like Europe should abide by the letter and spirit of these resolutions even if this means agreeing to lift restrictions on oil exports if Iraq complies in full Failing to do so could undermine global support for the integrity of the UN system ultimately leaving the US and perhaps the UK isolated in maintaining a policy that might not be sustainable in the long term On Iran a transatlantic compromise would need to include an agreement by the US not to impose sanctions against European companies doing business with Iran as long as Europe offered unstinting support in combating terrorism and helping to contain the development of weapons of mass destruction The US should also seek agreement with the European Union on which Iranian actions would justify sanctions or other punitive measures The paper concludes by examining institutional changes that might help to promote transatlantic cooperation on the Middle East **Foreign Terrorists in America** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Technology, Terrorism, and Government Information, 1998 *Reset* Stephen Kinzer, 2010-06-02 A stern critique of American foreign policy and a concise colorful and compelling modern history of Turkey Iran Saudi Arabia and Israel NPR Reset introduces an astonishing parade of characters sultans shahs oil tycoons mullahs women of the world liberators oppressors and dreamers of every sort Woven together into

a dazzling panorama they help us see the Middle East in a new way and lead to startling proposals for how the world's most volatile region might be transformed In this paradigm shifting book Stephen Kinzer argues that the United States needs to break out of its Cold War mindset and find new partners in the Middle East Only two Muslim countries in the Middle East have experience with democracy Iran and Turkey They are logical partners for the United States Besides proposing this new power triangle Kinzer tells the turbulent story of America's relations with Israel and Saudi Arabia its traditional partners in the Middle East and argues that those relations must be reshaped to fit the new realities of the twenty first century Kinzer's provocative new view of the Middle East and of America's role there will richly entertain while moving a vital policy debate beyond the stale alternatives of the last fifty years Praise for *Reset* A radical new course for the United States in the region Foreign Affairs Intriguing The Economist Fresh and well informed A lively character driven approach to history The Washington Post

Benson, 1997-07-16 Harry S Truman sensed something profound and meaningful in the Jewish restoration to Palestine something which transcended other considerations As the president recorded in his Memoirs the Palestine question was a basic human problem In the end Truman was willing to go against the current of his most trusted foreign policy advisers who were absolutely opposed to the establishment of a Jewish state in the Middle East These advisers argued that however humanitarian a Jewish homeland might seem such a proposition posed a real risk to American interests in the Near East and to United States national security in the late 1940s Despite their continued opposition Truman stood his ground and maintained that he would decide the entire issue based on what he thought was right Of interest to historians and students of Israel and of the U S presidency

Enduring Territorial Disputes Krista E. Wiegand, 2011-09-01 Of all the issues in international relations disputes over territory are the most salient and most likely to lead to armed conflict Understanding their endurance is of paramount importance Although many states have settled their disagreements over territory seventy one disputes involving nearly 40 percent of all sovereign states remain unresolved In this study Krista E Wiegand examines why some states are willing and able to settle territorial disputes while others are not She argues that states may purposely maintain disputes over territory in order to use them as bargaining leverage in negotiations over other important unresolved issues This dual strategy of issue linkage and coercive diplomacy allows the challenger state to benefit from its territorial claim Under such conditions it has strong incentive to pursue diplomatic and militarized threats and very little incentive to settle the dispute over territory Wiegand tests her theory in four case studies three representing the major types of territorial disputes uninhabited islands and territorial waters as seen in tensions between China and Japan over the Senkaku and Diaoyu Islands inhabited tracts of territory such as the North African enclaves of Ceuta and Melilla affecting Morocco and Spain and border areas like the Shebaa Farms dispute between Lebanon and Israel A fourth case study of a dispute between China and Russia represents a combination of all three types settled in 2008 it serves as a negative example All these disputes involve areas that have key strategic and economic importance both regionally and globally
