Enemies Of Memory 199:

Reenacting the Enemy Ludmila Isurin, 2022 This book examines the ways individuals in the US and Russia consume and construct collective memories of political events via a reestablished Cold War like narrative in both media systems The book contextualizes the rebirth of this phenomenon via seven political events involving Russia examining the contemporary role of conscious media distrust in subconscious psychological processes **The End of Memory** Miroslav Volf, 2006 Can one forget atrocities Should one forgive abusers Ought we not hope for the final reconciliation of all the wronged and all wrongdoers alike even if it means spending eternity with perpetrators of evil We live in an age when it is generally accepted that past wrongs genocides terrorist attacks bald personal injustices should be constantly remembered But Miroslav Volf here proposes the radical idea that letting go of such memories after a certain point and under certain conditions may actually be the appropriate course of action While agreeing with the claim that to remember a wrongdoing is to struggle against it Volf notes that there are too many ways to remember wrongly perpetuating the evil committed rather than guarding against it In this way the just sword of memory often severs the very good it seeks to defend He argues that remembering rightly has implications not only for the individual but also for the wrongdoer and for the larger community Volf's personal stories of persecution offer a compelling backdrop for his search for theological resources to make memories a wellspring of healing rather than a source of deepening pain and animosity Controversial thoughtful and incisively reasoned *The End of Memory* begins a conversation hard to ignore Memory, War and Trauma Nigel C. Hunt, 2010-05-13 Many millions of people are affected by the trauma of war Psychologists have a good understanding of how experiences of war impact on memory but the significance of external environmental influences is often disregarded *Memory War and Trauma* focuses on our understanding of the psychosocial impact of war in its broadest sense Nigel C Hunt argues that in order to understand war trauma it is critical to develop an understanding not only of the individual perspective but also of how societal and cultural factors impact on the outcome of an individual's experience This is a compelling book which helps to demonstrate why some people suffer from post traumatic stress while other people don't and how narrative understanding is important to the healing process Its multidisciplinary perspective will enable a deeper understanding of both individual traumatic stress and the structures of memory Myth, Memory, Trauma Polly Jones, 2013-08-27 Drawing on newly available materials from the Soviet archives Polly Jones offers an innovative comprehensive account of de Stalinization in the Soviet Union during the Khrushchev and early Brezhnev eras Jones traces the authorities' initiation and management of the de Stalinization process and explores a wide range of popular reactions to the new narratives of Stalinism in party statements and in Soviet literature and historiography Engaging with the dynamic field of memory studies this book represents the first sustained comparison of this process with other countries' attempts to rethink their own difficult pasts and with later Soviet and post Soviet approaches to Stalinism Enemies to Allies Brian C. Handbook of Pre-Modern Nordic Memory Studies Jürg Glauser, Pernille Hermann, Stephen A. Mitchell, 2018-11-19 In recent years the field of Memory Studies has emerged as a key approach in the Humanities and Social Sciences and has increasingly shown its ability to open new windows on Nordic Studies as well The entries in this book document the work to date of this approach on the pre modern Nordic world mainly the Viking Age and the Middle Ages but including as well both earlier and later periods Given that Memory Studies is an ever expanding critical strategy the approximately eighty contributors in this volume also discuss the potential for future research in this area Topics covered range from texts to performance to visual and other aspects of material culture all approached from within an interdisciplinary framework International specialists coming from such relevant fields as archaeology mythology history of religion folklore history law art literature philology language and mediality offer assessments on the relevance of Memory Studies to their disciplines and show it at work in case studies Finally this handbook demonstrates the various levels of culture where memory had a critical impact in the pre modern North and how deeply embedded the role of memory is in the material itself *Conflicts of Memory* Emiliano Perra, 2010 This text reconstructs the often conflictual memories of the Holocaust in post war Italy through the analysis of press debates engendered by films and television miniseries The author discusses how Holocaust themes have been appropriated by different political and cultural factions *The Incas* Jean François Marmontel, 1797 *Defending Memory in Global Politics* Erica Resende, Dovilė Budrytė, Douglas Becker, 2025-01-27 This book explores the securitization of memory in times of crisis using overlooked cases from the Global South and the Global North Instead of focusing exclusively on national identities and state actors it explores various identities including substate and transnational actors and their role in defending memory during times of crisis Embracing a broad definition of conflict that includes mnemonic societal and armed conflicts the expert contributors engage with political trauma demonstrating its power to evoke commemorations and other shared practices of collective remembrance shaping and perpetuating collective memory the construction of national and transnational identities national interests and foreign policy behaviors The book contributes to the fields of memory and trauma studies and ontological security in international relations It will also be of interest to scholars and students of political science sociology international relations history nationalism and identity international studies cultural geography social psychology cultural studies and anthropology *The Country of Memory* Hue-Tam Ho Tai, 2001-10 Hue Tam Ho Tai's masterful collection of essays that explore how the past is being remade in contemporary Vietnam constitutes a welcome addition to the study of the larger problem of engineering memory especially in political cultures where the identity of the nation state is in a considerable state of flux This book also suggests that the commemorative fever that is sweeping Vietnam is about more than Vietnam's history It also has a great deal to do with the problems premodern cultures presented to those

who promoted the creation of contemporary states In this regard both Vietnam and this book offer all scholars of nationalism and remembering in the West a fascinating perspective on their own nations John Bodnar Chancellors Professor of History at Indiana University from the Foreword The Promise of Memory Matthias Fritsch, 2012-02-01 Rereading Marx through Walter Benjamin and Jacques Derrida The Promise of Memory attempts to establish a philosophy of liberation Matthias Fritsch explores how memories of injustice relate to the promises of justice that democratic societies have inherited from the Enlightenment Focusing on the Marxist promise for a classless society since it contains a political promise whose institutionalization led to totalitarian outcomes Fritsch argues that both memories and promises if taken by themselves are one sided and potentially justify violence if they do not reflect on the implicit relation between them He examines Benjamin s reinterpretation of Marxism after the disappointment of the Russian and German revolutions and Derrida s messianic inheritance of Marx after the breakdown of the Soviet Union The book also contributes to contemporary political philosophy by relating Marxist social goals and German critical theory to debates about deconstructive ethics and politics **John Bell Hood and the Fight for Civil War Memory** Brian Craig Miller, 2010 In this first biography of the general in more than twenty years Miller offers a new original perspective directly challenging those historians who have pointed to Hood s perceived personality flaws his alleged abuse of painkillers and other unsubstantiated claims as proof of his incompetence as a military leader This book takes into account Hood s entire life as a student at West Point his meteoric rise and fall as a soldier and Civil War commander and his career as a successful postwar businessman In many ways Hood represents a typical southern man consumed by personal and societal definitions of manhood that were threatened by amputation and preserved and reconstructed by Civil War memory Miller consults an extensive variety of sources explaining not only what Hood did but also the environment in which he lived and how it affected him Jacket Images of Egypt in Early Biblical Literature Stephen C. Russell, 2009 This book suggests a regional paradigm for understanding the development of the traditions about Egypt and the exodus in the Hebrew Bible It offers fresh readings of the golden calf stories in 1 Kgs 12 25 33 and Exod 32 the Balaam oracles in Num 22 24 and the Song of the Sea in Exod 15 1b 18 and from these paints a picture of the differing traditions about Egypt that circulated in Cisjordan Israel Transjordan Israel and Judah in the 8th century B C E and earlier In the north an exodus from Egypt was celebrated in the Bethel calf cult as a journey of Israelites from Egypt to Cisjordan without a detour eastward to Sinai This exodus was envisioned in military terms as suggested by the nature of the polemic in Exod 32 and the attribution of the exodus to the warrior Yahweh Israel s own deity In the east a tradition of deliverance from Egypt was celebrated rather than the idea of a journey and it was credited to El In the south Egypt was recognized as a major enemy whom Yahweh had defeated but the traditions there were not formulated in terms of an exodus While acknowledging the reshaping of these traditions in response to the exile Images of Egypt argues that they originated in the pre exilic period and relate to Syro Palestinian history as it is otherwise known Minority Memory, Identity, and

Reconciliation Gül M Gür, 2025-07-02 Migration and minority rights are increasingly at the forefront of global discourse. *Minority Memory Identity and Reconciliation* explores the lives of two often overlooked minority communities: the Greek Orthodox minority in Istanbul and the Turkish Muslim minority in Western Thrace, Greece. As empires dissolved, the leaders and political elites of new, smaller nations that emerged embarked on population exchanges to increase the ethnic and religious homogeneity of their nation-states. Although these two minority communities differ in religious, ethnic, and socioeconomic terms, they both offer unique perspectives on what happens to people who live on what is perceived as the wrong side of an arbitrarily drawn border. Drawing from the personal stories of members of these two minority communities regarding their struggle with displacement, discrimination, and cultural assimilation, as well as comprehensive historical analysis, this book examines how historical traumas, national policies, and sociopolitical dynamics have influenced contemporary minority memory and identity formation. By incorporating interviews with community leaders, civil society representatives, and state officials, this book offers a rich, multifaceted perspective on the processes of memory and identity formation that underscores the broader implications of these processes for international relations in the region and minority rights. Gül M Gür pulls together theories of nationalism, collective memory, and narrative practice to highlight the unique process of minority memory work and its role in sustaining minority identity and their advocacy efforts. *Memory and Identity in Ancient Judaism and Early Christianity* Tom Thatcher, 2014-08-29 Essential reading for scholars and students interested in sociology and biblical studies. In this collection, scholars of biblical texts and rabbinics engage the work of Barry Schwartz, Professor Emeritus in the Department of Sociology at the University of Georgia. Schwartz provides an introductory essay on the study of collective memory. Articles that follow integrate his work into the study of early Jewish and Christian texts. The volume concludes with a response from Schwartz that continues this warm and fruitful dialogue between fields. Features articles that integrate the study of collective memory and social psychology into religious studies. Essays from Barry Schwartz. Theories applied rather than left as abstract principles. **Place and Memory in the Singing Crane Garden** Vera Schwarcz, 2008-04-22 The Singing Crane Garden in northwest Beijing has a history dense with classical artistic vision, educational experimentation, political struggle, and tragic suffering. This text gives voice to this richly layered corner of China's cultural landscape. *Social Memory among the Literati of Yehud* Ehud Ben Zvi, 2019-07-22 Ehud Ben Zvi has been at the forefront of exploring how the study of social memory contributes to our understanding of the intellectual world of the literati of the early Second Temple period and their textual repertoire. Many of his studies on the matter and several new relevant works are here collected together, providing a very useful resource for furthering research and teaching in this area. The essays included here address inter alia prophets as sites of memory, kings as sites of memory, Jerusalem as a site of memory, a mnemonic system shaped by two interacting national histories, matters of identity and othering as framed and explored via memories, mnemonic metanarratives making sense of the past, and serving various didactic purposes and their problems.

memories of past and future events shared by the literati issues of gender constructions and memory memories understood by the group as counterfactual and their importance and in multiple ways how and why shared memories served as a safe playground for exploring multiple central ideological issues within the group and of generative grammars governing systemic preferences and dis preferences for particular memories

The Great War and Modern Memory Paul Fussell, 2009 Paul Fussell's award winning landmark study of World War I originally published in 1975 remains as original and gripping today as ever but now for the first time his literary and illuminating account comes in a beautifully illustrated edition World War I changed a generation ushered in the modern era and revolutionized how we see the world By drawing from a variety of primary sources including personal correspondence newspapers and literary works Fussell brings the period alive Not only does he give us a more profound understanding of what the Great War meant to the people who lived through it he also analyzes our modern perception of its impact The wide selection of rare and fascinating images approximately 160 of them includes photographs illustrations and maps from period books magazines newspapers advertisements and other publications Not only do they heighten the impact of Fussell's remarkable critical interpretation they help us fully grasp the true scope of this aptly named and catastrophic war

Cultural Crisis and Social Memory Charles F. Keyes, Shigeharu Tanabe, 2013-10-18 This book explores social memory in the context of cultural crises of modernity in Thailand and Laos It explicates the ways in which social memory constructed by the people enters modernity and how this in turn causes fundamental ruptures with their past as well as the various ways cultural crises are experienced in their lives The essays in this book consider how in these crises the people constitute their cultural social or individual identities particularly focusing on the theoretical issues of identifications and their relevance to distinct historical processes in Thailand and Laos Both countries particularly in the two decades since the 1970s have been undergoing radical social and economic changes Whilst Thailand has travelled down the road to industrialization neighbouring Laos experienced a communist revolution in 1975 and only since the late 1980s has attempted to follow a reformist path to development Increasingly influenced by globalised economic and social institutions both countries have come to face crises that have made people insecure in the present and anxious about the future

Memory and Community in Sixteenth-Century France David P. LaGuardia, Cathy Yandell, 2016-03-03 *Memory and Community in Sixteenth Century France* engages the question of remembering from a number of different perspectives It examines the formation of communities within diverse cultural religious and geographical contexts especially in relation to the material conditions for producing texts and discourses that were the foundations for collective practices of memory The Wars of Religion in France gave rise to numerous narrative and graphic representations of bodies remembered as icons and signifiers of the religious troubles The multiple sites of these clashes were filled with sound language and diverse kinds of signs mediated by print writing and discourses that recalled past battles and opposed different factions The volume demonstrates that memory and community interacted constantly in sixteenth century France

producing conceptual frames that defined the conflicting groups to which individuals belonged and from which they derived their identities. The ongoing conflicts of the Wars hence made it necessary for people both to remember certain events and to forget others. As such, memory was one of the key ideas in a period defined by its continuous reformulations of the present as a forum in which contradictory accounts of the recent past competed with one another for hegemony. One of the aims of *Memory and Community in Sixteenth Century France* is to remedy the lack of scholarship on this important memorial function which was one of the intellectual foundations of the late French Renaissance and its fractured communities.
