cocina sino una guía en forma de diccionario para facilitar la búsqueda y reconocer los términos que habitualmente solemos encontrar en las muchas recetas que se publican así como para conocer más a fondo las propiedades de los alimentos e incluso la historia de muchos de ellos. Con estas palabras el autor define las características de un libro que une conocimientos científico y una completa recopilación de términos culinarios conduciendo a quien lee por el delicioso sendero de los sabores, aromas y colores para que los amantes de la buena cocina y la alimentación correcta puedan gustar de todos ellos al recorrer sus páginas. También se pueden encontrar recetas que son o han sido la base de la evolución de otros platos, otras procedentes de diversas países y cocina de autor, así como pistas para conseguir lo que se busca mediante enlaces que conducen de manera entretenida y lúdica a otras tantas definiciones. Avalado por una extensa trayectoria en hostelería y por su propio afán de investigación en el campo, Miguel J. Jordá logra una obra innovadora, fácil de comprender y a la vez profunda donde la salud y el placer se relacionan con la gastronomía mediante un nivel documental que sorprende por su riqueza de conceptos. Las palabras más utilizadas en hostelería, un vocabulario medicinal y comentarios que sirven tanto a aficionados como a profesionales completan este diccionario que pretende mostrar cómo la cocina es también amor, arte y fantasía y *savoir faire*.
