Energizing The Congregation Images That Shape Your Church's Ministry:

Energizing the Congregation Carl S. Dudley, 1993-01-01 Dudley and Johnson show how churches are revitalized by claiming the symbols that best articulate self identity They describe five images of churches relationships to their communities over time the survivor prophet pillar pilgrim and servant styles found in a wide variety of congregations and situations The Invisible Caring Hand Ram Cnaan, 2002-08-01 Popular calls to transform our current welfare system and supplant it with effective and inexpensive faith based providers are gaining political support and engendering heated debate about the separation of church and state Yet we lack concrete information from which to anticipate how such initiatives might actually work if adopted Despite the assumption that congregations can help many needy people in our society it remains to be seen how extensive they wish their involvement to be or if they have the necessary tools to become significant providers in the social service arena Moreover how will such practices which will move faith based organizations towards professionalization ultimately affect the spirit of volunteerism now prevalent in America's religious institutions We lack sufficient knowledge about congregational life and its ability to play a key role in social service provision The Invisible Caring Hand attempts to fill that void Based on in depth interviews with clergy and lay leaders in 251 congregations nationwide it reveals the many ways in which congregations are already working beneath the radar to care for people in need This groundbreaking volume will provide much sought empirical data to social scientists religious studies scholars and those involved in the debates over the role of faith based organizations in faith based services as well as to clergy and congregation members themselves Handbook of Applied Developmental Science Richard M. Lee Ramsey,2012-03-15 In Care full Preaching G Lee Ramsey Jr offers a new vision for how sermons can energize all members of a congregation to care for one another Using fresh images and sermons from Fred Craddock James Forbes Gina Stewart Barbara Brown Taylor and himself Ramsey demonstrates in practical ways how sermons can create a caring community **Testing Fresh Expressions** John Walker,2016-04-01 Testing Fresh Expressions investigates whether fresh expressions of church really do what is claimed for them by the fresh expressions movement and in particular whether their unique approach helps to reverse trends of decline experienced by traditional churches Part 1 examines those claims and untangles their sociological and theological assumptions From a careful study of factors underlying attendance decline and growth Part 2 argues that long term decline can be resisted only if churches are better able to attract children the non churched or both Part 3 tests the comparative ability of a group of growing parish churches and a group of fresh expressions to resist trends of decline and discovers some intriguing social dynamics common to both groups Part 4 argues that fresh expressions do not fulfil the unique role often claimed for them but that they do have the capacity to help reinvigorate the whole church **Congregational Studies in the UK** Karin Tusting,2017-03-02 This book presents the first comprehensive introduction to congregational studies in the UK Through a series of innovative essays it explores the difference that the increasingly post Christian nature of British society is making to life in Christian congregations and compares this to the very different scenario which exists in the USA Contributions from leading scholars in the field include rich case studies of local communities and theoretical analyses which reflect on issues of method and develop broader understandings Congregational studies is revealed as a rich and growing field of interest to scholars across many disciplines and to those involved in congregational life Sister Churches Janel Kragt Bakker,2014 In Sister Churches Janel Bakker draws on extensive fieldwork and interviews with participants in congregation to congregation partnerships between Western churches and churches in the global South to explore the sister church movement and in particular its effects on American churches Faith & Community: Faith-based partnerships (23:35 min.) ,2003 Each video in this 11 volume series describes an aspect

of the modern religious landscape by using Indianapolis IN as a microcosm of American society **African Pentecostalism**

Ogbu Kalu,2008-03-06 In this book Ogbu Kalu provides an overview of Pentecostalism in Africa He shows the amazing diversity of the faith which flourishes in many different forms in diverse local contexts and demonstrates that African Pentecostalism is distinctly African in character not imported from the West *The Crisis in the Churches* Robert Wuthnow,1997-03-06 At a time when already overworked clergy are being called upon by budget cutting politicians to do more for the poor the sick and the elderly American churches are suffering persistent financial shortfalls In fact contrary to popular media images of millionaire televangelists America s churches are cutting back programs and staff clergy salaries are stagnating and many parishes are having trouble raising enough money to keep the church lit and heated on Sunday Why are America s churches in financial distress Robert Wuthnow a leading commentator on religious life in America asserts that the steady drop in donations volunteering and personal involvement is a direct result of a spiritual crisis a crisis caused in large part by the clergy s failure to address the vital relationships between faith and money work stewardship giving and economic justice In *The Crisis in the Churches* Wuthnow offers a searching study of this financial crisis and of the spiritual vacuum that has silently grown worse during the past decade To do this he lets the churches speak for themselves quoting extensively from interviews with clergy and laity in sixty Protestant and Catholic congregations throughout the U S and drawing from the texts of over 200 sermons from church financial records and a national survey What emerges is that parishioners often feel the church does not care about what they do from Monday to Friday offers no guidance in their most pressing day to day concerns yet always seems to be asking for more money Clergy for their part say they hesitate to talk about finances because they know the money question makes people uncomfortable But failure to raise the subject often makes it necessary to cut the very programs and services that middle class parishioners desire and would support Wuthnow argues that in order to survive churches must find ways to minister to the economic concerns of their own middle class parishioners Indeed of every 1 000 received by churches 900 comes from people who work in middle class occupations Clearly anything that motivates middle class members to become more involved will strengthen a church s financial well being and capacity to serve its people Although the situation is critical Wuthnow finds much cause for hope He points to ideas and programs that some churches have enacted to challenge their members to think differently about work and money and giving Parishioners sometimes respond positively when clergy speak boldly and concretely about matters of faith and finance and some churches have formed small groups whose members meet regularly to discuss issues of spirituality work personal finances and stewardship A serious and sympathetic examination of the crisis behind the stained glass this thought provoking volume will be highly valuable both practically and as moral support to clergy parishioners and anyone else concerned about restoring vitality and significance to American churches *Saving Souls, Serving Society* Heidi Rolland Unruh,Ronald J. Sider,2005-10-06 As public funding for social services has been slashed there has arisen an unprecedented

interest in the potential and dangers of faith based institutions as agents of social change This text seeks to answer pressing questions surrounding this important and controversial issue **Church on the Edge of Somewhere** George B. Thompson Jr.,2007-11-19 Most congregations today exist in what George Thompson calls the middle of anywhere They live comfortably with their surrounding culture focusing their energies on serving the needs of their current members These congregations have many strengths and gifts that they can exercise without changing a thing But Thompson envisions a deeper more prophetic call for congregations to explore the meaning of being in the world but not of it a church on the edge of somewhere Thompson sees a church that is deeply engaged in ministering to the community while calling on others to commit to doing the same By analyzing the interaction between a congregation s focus of identity and their stance with the world Thompson has created a helpful grid for congregations to place themselves on today s cultural map A congregation that sees itself as existing on the margins of society will look different than one that sees itself as embedded in society A congregation that hears a call to serve the surrounding community will look different from one that focuses on its internal needs Knowing where they stand now is the key for congregations to discover where they must go in the future to fully live out their call to be God s people in the world **The Black Church Studies Reader** Alton B. Pollard,Carol B. Duncan,2016-04-29 The Black Church Studies Reader addresses the depth and breadth of Black theological studies from Biblical studies and ethics to homiletics and pastoral care The book examines salient themes of social and religious significance such as gender sexuality race social class health care and public policy While the volume centers around African American experiences and studies it also attends to broader African continental and Diasporan religious contexts The contributors reflect an interdisciplinary blend of Black Church Studies scholars and practitioners from across the country The text seeks to address the following fundamental questions What constitutes Black Church Studies as a discipline or field of study What is the significance of Black Church Studies for theological education What is the relationship between Black Church Studies and the broader academic study of Black religions What is the relationship between Black Church Studies and local congregations as well as other faith based entities The book s search for the answers to these questions is compelling and illuminating

Preliminary Look at Flourishing Congregations in Canada: What Church Leaders are Saying Arch Wong,Bill McAlpine,Joel Thiessen,Keith Walker,2017-01-06 This monograph presents the context for congregations in Canada across Catholic Mainline and Conservative Protestant sectors The monograph presents the voices of several dozen experts from across Canada and presents preliminary findings from consultations with over 100 denominational and local congregation leaders *The Shared Ministry Sourcebook* Barbara Child,1996 **Shop Window, Flagship, Common Ground** Judith A. Muskett,2019-11-30 How are cathedrals and churches understood Are they shop windows through which to gaze at the riches on offer within the Christian life Are they flagships of the Spirit Are they both sacred spaces and community utilities Shop window flagship common ground views the rich ministry and innovative mission of cathedrals through the novel lens of metaphor and it offers comparative insights on cathedrals and cathedral like churches Located in the emerging international field of cathedral studies the book explores the usage and inferences of a range of metaphors including shop windows of the Church of England flagships of the Spirit beacons of the Christian faith magnets and sacred space common ground This volume also shows how such metaphors can stimulate different types of research about the function of cathedral and church buildings With a Foreword by Professor Grace Davie the book suggests that cathedrals and cathedral like churches may play a role within vicarious religion theory It will provide a thought provoking critique for practitioners and a valuable contribution for scholars of cathedral studies congregational studies and ecclesiology **How to Get Along with Your Pastor** George B. Thompson Jr.,2015-06-10 This is a book that tries to help church members step back and see the bigger picture An effective pastoral relationship is more like a couple who loves to dance together or a band that plays wonderful music If we spend too much time on the details without remembering that we want to dance and sing our church will not have much to offer to Gospel ministry This book then seeks to blaze a new trail for churches who want to thrive in authentic faithful ministry with their pastor In other words it is a book for churches who want to get along with their pastor It is a book for church deacons elders and other officers who recognize that a healthy trusting respectful relationship between pastor and congregation becomes the foundation for the church s vitality It is a book designed to give you the tools you need to help your pastor become the best pastor that she or he can be with you Statistics show that approximately thirteen hundred American pastors unwillingly leave their congregations each month These sudden changes have negative long term effects on both the pastor and the congregation Thompson believes it is extremely important to find practical easy to understand ways to train pastors and churches on how to approach disagreement much more constructively and shows how to do so in this new book *Churches, Cities, and Human Community* Clifford J. Green,1996 Leaders of ten denominations analyze the history of their churches ministries in American cities since World War II and convey positive insights for future ministry

work in metropolitan areas **Churches That Make a Difference** Ronald J. Sider, Philip N. Olson, Heidi Rolland Unruh, 2002-04-01 Churches over the past generations have been weakened by a failure to meet both the physical and spiritual needs of their communities. Many have adopted a narrow vision focusing on only one aspect of ministry. But in today's environment of faith-based opportunities, many Christians are eager to start reaching out to their world with both Good News and good works, and therefore they are searching for appropriate ways to integrate both into their ministry. In *Churches That Make a Difference*, best-selling author Ron Sider and his coauthors give those involved in community outreach a comprehensive resource for developing holistic ministry: a balance of evangelism and social outreach. Illustrations and helpful organizational tips detail the how-tos of an effective holistic ministry. Case studies that show how different churches across the United States reach out to their communities provide a variety of ideas and practical applications. User-friendly tools are included as well for congregational studies, surveys, evaluations, and community assessments. The authors draw on extensive experience with church ministries and faith-based organizations as they share the life-changing vision and biblical mandate for living the whole gospel. Church leaders will be encouraged in their process of developing and maintaining a holistic ministry, and local churches will rediscover a passion for loving the whole person the way Jesus did.
