## **Energy Ethics A Christian Response:**

Energy Ethics Dieter T. Hessel, 1979      **El Clamor de Mi Pueblo** Dieter T. Hessel, 1979      Christianity and Ecological Theology E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa      Liberating People, Planet, and Religion Joerg Rieger, Terra Rowe, 2024-05-29 There is growing consensus that life on the planet is in peril if climate change continues at its current pace At stake is not only the future of many species but of humanity itself As an increasing number of ecological economists have emphasized these problems will only be adequately addressed by re examining economic systems from an ecological perspective fundamentally calling into question assumptions of unlimited growth and the maximization of shareholder profit foundational to neoliberal capitalism Religion and ecology scholars have also increasingly emphasized the ways climate change challenges assumed divides between nature and culture religion and labor economy and ecology and calls for critical and constructive engagement with the religion economy and ecology nexus Often though religious engagements with economy and ecology have placed emphasis on individual morality action and agency at the level of consumption patterns or have suggested mere modifications within existing economic paradigms Contributors to this volume call into question the adequacy of this approach in light of the urgency of climate change which is always ever entwined with ongoing patterns of exploitation oppression and colonialism in current economic systems Rather than tweaking a system of exploitation for instance by emphasizing individual consumption or care for human and non human victims these authors articulate important opportunities for religious engagement activism resistance and solidarity around issues of production and labor Recalling that Marx linked agencies and labor of people as well as the other than human world these authors aim to articulate a sense in which liberation of people and the planet are intertwined and can be accomplished only through collaboration for their common good The basic intuition driving this volume is that while Christianity has by and large become the handmaiden of exploitative capitalism and empire it might also reclaim latent theologies and religious practices that call into question the fundamental valuation of labor without recognition or rest of extractive exploitation and a winner take all praxis In the process Christianity might reclaim and reinvest in tenuous historical materializations of transformed ecological and economic relationships while economics might be re informed by a valuation of the shared oikos as well as a just accounting of and remuneration for labor Together they might serve the aim of the flourishing of all people and the planet      **Christian Ethics in the Protestant Tradition** Waldo Beach, 1988-01-01 With Christian Ethics in the Protestant Tradition Waldo Beach provides a basic introductory text on Christian ethics He has designed a challenging work that grapples with the ethical questions surrounding modern day problems from the perspective of Protestant theology and

tradition His two part format is especially helpful for study *Of Modern Extraction* Terra Schwerin Rowe,2022-10-20

Predominant climate change narratives emphasize a global emissions problem while diagnoses of environmental crises have long focused a modern loss of meaning value and enchantment in nature Yet neither of these common portrayals of environmental emergency adequately account for the ways climate change is rooted in extractivisms that have been profoundly enchanted The proposed critical petro theology analyzes the current energy driven climate crisis through critical gender race decolonial and postsecular lenses Both predominant narratives obscure the entanglements of bodies and energy how energy concepts and practices have consistently delineated genres of humanity and how energy systems and technologies have shaped bodies Consequently these analytical and ethical aims inform an exploration of alternative embodied energies that can be attended to in the disrupted time space of energy intensive extractive capitalism **Strongly Sustainable Societies** Karl Johan Bonnedahl,Pasi Heikkurinen,2018-09-27 The response of the international community to the pressing socio ecological problems has been framed around the concept of sustainable development The ecological pressure however has continued to rise and mainstream sustainability discourse has proven to be problematic It contains an instrumental view of the world a strong focus on technological solutions and the premise that natural and human made capitals are substitutable This trajectory which is referred to as weak sustainability reproduces inequalities denies intrinsic values in nature and jeopardises the wellbeing of humans as well as other beings Based on the assumptions of strong sustainability this edited book presents practical and theoretical alternatives to today s unsustainable societies It investigates and advances pathways for humanity that are ecologically realistic ethically inclusive and receptive to the task s magnitude and urgency The book challenges the traditional anthropocentric ethos and ontology economic growth dogma and programmes of ecological modernisation It discusses options with examples on different levels of analysis from the individual to the global addressing the economic system key sectors of society alternative lifestyles and experiences of local communities Examining key topics including human nature relations and wealth and justice this book will be of great interest to students and scholars of environmental and development studies ecological economics environmental governance and policy sustainable business and sustainability science The Spirit of Sustainability Willis Jenkins,Whitney Bauman,2009-11-01 The Spirit of Sustainability helps readers navigate the moral worlds and ethical concepts and social and religious practices related to sustainability In collaboration with the Forum on Religion and Ecology an established network of leading scholars it explores a wide range of topics and perspectives from the promise and problems of approaching sustainability through global and indigenous religions to major theories in philosophy and environmental ethics and professional practices and social movements This volume presents the various goals of sustainability ecological integrity economic health human dignity fairness to the future and social justice and provides a framework for reasoning through many interrelated environmental challenges for both current and future generations *Nature, Technology, and Society*

Victor Ferkiss, 1994-11 Traces cultural attitudes toward the environment and technology across the span of human civilization While all human societies have enlisted technologies to control nature the last hundred years have witnessed the technological exploitation and destruction of natural resources on an unprecedented scale As environmental groups and the scientific community sound the alarm about deforestation global warming and ozone depletion the obvious question arises how did we get where we are today In *Nature Technology and Society* Victor Ferkiss sets out to answer this central question arguing that we cannot escape from our present environmental predicament unless we understand the ideas which have created it Ferkiss asks the basic questions concerning humans and their relationship to the environment He traces cultural attitudes towards the environment from early mankind to the present day This fascinating book is distinctive both in its comprehensiveness and in its attempt to place side by side influential thinkers and movements with varied views on these issues

*A History of the Ecumenical Movement, Volume 2* Harold C. Fey, 2009-12-01 Volume 2 1948 1968 first appeared in 1970 It covers the history of the World Council of Churches from its first assembly at Amsterdam to its fourth assembly at Uppsala Sweden analyzes the development of regional ecumenical organizations and recounts the impact of the Second Vatican Council on the ecumenical witness of the Roman Catholic Church

**Theology for Earth Community** Dieter T. Hessel, 2003-08-18 This volume brings together original essays by both seasoned professionals and emerging scholars who examine state of the art scholarship and pedagogy in ecologically alert theology Authors assess what various theologians have to offer and draw implications for reshaping religious and environmental studies as well as preparing the next generations of church leaders or pastoral workers What needs to be done these authors ask to bring biblical studies systematics social ethics practical theology spiritual formation and liturgy up to speed with eco justice thought and action on environmental questions

**After Nature's Revolt** Dieter T. Hessel, 2003-03-27 Living with the consequences of modern Western abuse of the environment has alerted many to the need to change not simply their habits but also their worldview A true faith centered eco justice ethic assert the contributors to this volume will recognize the intrinsic links between social justice questions and environmental ones It will also demand reassessment of fundamental assumptions many of them from Christian theology that stand behind Western social economic and technological patterns Introduced by Hessel s illuminating assessment of specific environmental challenges the theologians in this volume rethink aspects of Christian doctrines lifestyle and spirituality They tackle key environmental issues And together they pioneer a theological perspective that moves beyond anthropocentrism to a new center in creation itself

Moral Issues and Christian Responses Patricia Beattie Jung, Loyle Shannon Jung, 2012-09-01 This popular anthology for the study of Christian ethics now in its eighth edition has been a mainstay of undergraduate courses for nearly thirty years Shannon and Patricia Jung provide an introduction to contemporary moral issues from decidedly yet diverse Christian moral perspectives The anthology intentionally seeks a range of voices to produce a kind of point counterpoint discussion of an ethical issue Issues include the distinctiveness of Christian

ethics sexuality reproductive rights prejudice immigration the environment economics biomedical ethics death and dying terrorism war and globalization Publisher description **Justice in the Making** Beverly Wildung Harrison, 2004-01-01 Beverly Harrison has long fought for women and others at the margins challenging the subjugating ways in which women's intellectual contributions their gifts of ministerial leadership and their reproductive capacity and sexual identity have been defined This collection of essays and lectures presented over the course of her career demonstrates the progression of Harrison's contribution to the field of Christian ethics and the evolution of her thought in response to changing social realities **Environmental Ethics**, 2003 **Relations. Beyond Anthropocentrism. Vol. 6, No. 2 (2018). Energy Ethics: Emerging Perspectives in Times of Energy Transitions. Part II** AA. VV., Giovanni Frigo, 2019-03-23T00:00:00+01:00 Energy Ethics a Literature Review Giovanni Frigo Contesting the Radical Monopoly a Critical View on the Motorized Culture from a Cyclonaut Perspective Damien Delorme Desiring Ethics Reflections on Veganism from an Observational Study of Transitions in Everyday Energy Use Alice Dal Gobbo Ethical Risk and Energy Bertrand Andre Rossert Coal Feeds My Family Subsistence Energy and Industry in Central Appalachia M Joseph Alois Human Energy Philosophical Anthropological Presuppositions of Anthropogenic Energy Movement and Activity and Their Implications for Well being Roman Meinhold Energy Ethics Outside the Box Carl Mitcham in Conversation with Giovanni Frigo Carl Mitcham Giovanni Frigo Energy Equality and the Challenges of Population Growth Andrea Natan Feltrin The Energy of Ethics The Ethics of Energy a Dialog with Irigaray Varela and Jullien Federico Battistutta Alex Epstein A Review of the Moral Case for Fossil Fuels 2014 Adam Briggie **Christian Ethics for a Digital Society** Kate Ott, 2018-12-15 Christian Ethics for a Digital Society looks at how we live in an increasingly digital world From sexting to hashtag activism like the metoo movement technology has entered both our private and public lives in a deep way Far from hand wringing about the dangers of technology Christian Ethics for a Digital Society offers pragmatic wisdom on how to live thoughtfully today Instead of just worrying about the next technological gadget or app it's time we consider what Christianity has to offer a world increasingly reimagined in a digital landscape This book provides a new perspective on how to assess digital technology use development and expansion through a lens of Christian values The purpose of this book is to begin a conversation about the massive ecosystem change that digital technologies push in our lives through a focus on the ethics of everyday practices **Creation and Christian Ethics** Dennis P. Hollinger, 2023-11-07 Creation is a foundational pillar of the biblical storyline yet it plays little role in contemporary evangelical ethics Seeking to correct this oversight Dennis Hollinger employs the creation story and creation themes throughout Scripture as a foundation for Christian ethics After demonstrating why creation is theologically significant and important for Christian ethics Hollinger develops major creation paradigms that provide ethical guidance on a wide range of issues including money sex power racism creation care social institutions and artificial intelligence among many others Creation and Christian Ethics shows throughout that the triune God

creates from love and in that creation are moral designs for humanity's journey in God's world. Professors and students of Christian ethics will find this a valuable resource for the classroom while pastors and church leaders will benefit from personal and small group study. The Energy and Environment Checklist Betty Warren, 1980 *Let There Be Light!* Robert S. Dutch, 2017-06-16 Have you ever wondered what it is like to work on a nuclear power plant? Robert Dutch worked in the UK's nuclear industry for many years as a scientist and then as a tutor at a nuclear training center. He also holds degrees in theology. Drawing upon his qualifications and experience, Robert addresses the controversial issue of nuclear power from a Christian perspective. In contrast to a negative nuclear narrative often portrayed, he presents a positive nuclear narrative alongside other ways of generating electricity. Be prepared to be challenged to think seriously about nuclear's merits in providing clean, low-carbon electricity.
