Claims on Highway Contracts Robert N. Hunter, 1997. Most civil engineering projects carried out in the UK which are concerned with the construction or maintenance of highways employ the 5th edition of the ICE Conditions of Contract and the Manual of Contract Documents for Highway Works. In order to maximise returns in construction works or often nowadays to minimise losses it is necessary for engineers, contractors and clients to have a full understanding of these documents, particularly those elements which have a financial connotation. *Claims on highway contracts* has been specifically written to explore those parts of the 5th edition of the ICE Conditions of Contract and the Manual of Contract Documents for Highway Works which are particularly important in the commercial aspects of highway contracts and to examine how they apply in claims situations. There have been many books written on claims by lawyers which are full of legalese. *Claims on highway contracts* is the first and only book which has been written by a practising engineer who works in this field and has experience of the claims minefield to provide advice in a practical and straightforward manner.

Construction Contracts Will Hughes, Ronan Champion, John Murdoch, 2015-04-20. The fifth edition of this bestselling textbook has been thoroughly revised to provide the most up to date and comprehensive coverage of the legislation, administration and management of construction contracts. It now includes comparisons of working with JCT NEC3 and FIDIC contracts throughout. Introducing this topic at the core of construction law and management, this book provides students with a one stop reference on construction contracts. Significant new material covers procurement, tendering, developments in dispute settlement, commentary on all key legislation, case law and contract amendments. In line with new thinking in construction management research, this authoritative guide is essential reading for every construction undergraduate and an extremely useful source of reference for practitioners.
