

# 5 Strategies for Inclusive Classrooms

## OFFER STUDENTS VOICE & CHOICE

- Provide students with a sense of autonomy in learning, this allows them to develop greater ownership over their work.
- Empower students by including them in decisions about what they learn (ex: choose topics within an Inquiry project that meets a number of learning outcomes).

## USE COLLABORATIVE LEARNING

- Learning needs to be about social interaction AND academic instruction.
- Use different learning arrangements (think-pair share, small groups, group projects) for students to discuss, share and listen to one another.
- *Collaborative learning* requires clarity. Ensure you explicitly lay out the goals & purpose of the learning- and students role(s) within it.

## PRESUME COMPETENCE (Warm Demanding)

- *Presuming competence*, in its simplest form, is believing that ALL students are capable, and asks educators to focus more on students strengths, interests and abilities, rather than deficits.
- *Warm demanding* asks educators to: build relationships deliberately, learn about students' cultures, communicating an expectation of success, provide learning supports, clear & consistent expectations.

## DYNAMIC INSTRUCTION

- *Dynamic instruction* refers to the manner in which an educator delivers content. This delivery method starts with high expectations for students & asks students to: think critically, reflect, discuss, make conceptual connections, & problem solve through exploration, discussion & hypothesizing.
- The learning environment should respect: diverse ways of knowing, thinking, considering & interpreting material.

## CREATE MEANINGFUL PARTNERSHIPS WITH FAMILIES

- Connecting with families provides valuable insights into: culture, values, & communication pathways used at home.
- Possible Communication ideas:*
- Introductory video sent home at the beginning of the year (flipgrid, TikTok) and asking parents/caregivers to send a video back. Repeat this process throughout the year on different topics.
  - Send home an "intake form" (ex: needs, triggers, sensitivities etc)
  - Establish dedicated, confidential classroom-home communication channels.
