

# EXTRATERRITORIALITY

- Towards the end of the 19th century, China appeared on the way to territorial dismemberment and economic vassalage, the fate of India's rulers that had played out much earlier.
- Several provisions of these treaties caused long-standing bitterness and humiliation among the Chinese: extraterritoriality (meaning that in a dispute with a Chinese person, a Westerner had the right to be tried in a court under the laws of his own country), customs regulation, and the right to station foreign warships in Chinese waters.

Ching-Chun Wang, 1937      *Extraterritoriality in China* Foreign Policy Association, 1925      *The End of Extraterritoriality in China* Thomas Franklin Millard, 1931      **Crime, Punishment and the Prison in Modern China** Frank Dikötter, 2002 This book is a richly textured social and cultural study exploring the profound effects and lasting repercussions of superimposing Western derived models of repentance and rehabilitation on traditional categories of crime and punishment      Allies and Equals China Campaign Committee, 1943      *Sino-British Negotiations and the Search for a Post-War Settlement, 1942-1949* Zhaodong Wang, 2022-03-21 The book is a systematic study of the China Britain relationship during the 1942-1949 period with a particular focus on the two countries' discussions over both the 1943 Sino-British treaty and the discarded Sino-British commercial treaty, the future of Hong Kong and the political status of Tibet. These were dominated by two underlying themes: the elimination of the British imperialist position in China and the establishment of an equal and reciprocal bilateral relationship. The negotiations started promisingly in 1942-1943 but by 1949 had failed to reach a satisfactory settlement. Behind the failure lay a complex set of domestic considerations and external factors including the powerful influence of the United States. Even after seven decades the failure still has a contemporary impact. Recent Sino-British disputes over the Hong Kong Anti-Extradition Law Amendment Bill Movement and incessant Indo-Chinese conflicts and skirmishes over their unsettled borders all attest to the enduring legacy of the years 1942-1949 as setting the scene for subsequent Sino-British and Sino-Indian relations. From this perspective the history has never left us      The End of Extraterritoriality in China Thomas Franklin Fairfax Millard, 1931      China's Banking Law and the National Treatment of Foreign-Funded Banks Wei Wang, 2016-05-23 This book assesses new developments in and reform of China's banking law system following its accession of the WTO. It focuses on the relationship between GATS/WTO national treatment obligations and China's banking law. Tracing the history of national treatment in China, the book compares the treatment of foreign-funded banks with the treatment of Chinese-funded banks and examines the structure and shortcomings of the existing banking law framework in China. Offering suggestions as to how the framework could be restructured and analysing the economic and political bases of an integrated banking law framework, the book argues that reorganization would bring about greater consistency with GATS/WTO national treatment requirements. The book also explores the ambiguous definition of prudential carve-out, the subtle relationship between GATS national treatment and market access based on WTO cases, national treatment clauses in China's bilateral investment treaties and special treatment on banking in China's free trade agreements. This volume is a valuable resource for academics and students as well as professionals and policy makers working in the field of banking, WTO, Chinese law and foreign trade      **The Development of Extraterritoriality in China** George W. Keeton, 1928      *Law and Colonial Cultures* Lauren Benton, 2002 Advances an interesting perspective in world history arguing that institutions and culture and

not just the global economy serve as important elements of international order Focusing on colonial legal politics and the interrelation of local and indigenous cultural contests and institutional change the book uses case studies to trace a shift in plural legal orders from the multicentric law of early empires to the state centered law of the colonial and postcolonial world In the early modern world the special legal status of cultural and religious others itself became an element of continuity across culturally diverse empires In the nineteenth century the state s assertion of a singular legal authority responded to repetitive legal conflicts not simply to the imposition of Western models of governance Indigenous subjects across time and in all settings were active in making changing and interpreting the law and by extension in shaping the international order

**British Extraterritoriality in Korea 1884 - 1910** Christoph Roberts, 2025-10-01 Filling an important gap in extraterritoriality studies and in the history of Anglo Korean relations this benchmark study examines Britain s exercise of extraterritorial rights in Korea from 1884 until Korea s formal annexation by Japan in 1910 It shows how the treaty provisions which provided for Britain s ideal extra territorial regime were influenced by Britain s considerably greater experience in Japan beginning in 1859 The caseload proved miniscule in the absence of any large British commercial or maritime presence Nevertheless it provides an insight into extra territoriality s operation outside major commercial centres and ports Britain s protection of Chinese interests in Korea in the aftermath of the Sino Japanese War 1894 1895 is also covered

**News under Fire** Shuge Wei, 2017-09-05 News under Fire China s Propaganda against Japan in the English Language Press 1928 1941 is the first comprehensive study of China s efforts to establish an effective international propaganda system during the Sino Japanese crisis It explores how the weak Nationalist government managed to use its limited resources to compete with Japan in the international press By retrieving the long neglected history of English language papers published in the treaty ports Shuge Wei reveals a multilayered and often chaotic English language media environment in China and demonstrates its vital importance in defending China s sovereignty Chinese bilingual elites played an important role in linking the party led propaganda system with the treaty port press Yet the development of propaganda institution did not foster the realization of individual ideals As the Sino Japanese crisis deepened the war machine absorbed treaty port journalists into the militarized propaganda system and dashed their hopes of maintaining a liberal information order A superbly researched and well nuanced account of an overlooked topic nationalist China s propaganda system and the multiple ways in which it intersected with the treaty port foreign language press of the time Combining a wealth of archival and newspaper sources it is destined to be on the must read list of all who are interested in state propaganda and news dissemination in the Republican period

**Diplomacy and Deception** Bruce Elleman, 2016-09-16 During the Soviet period the USSR conducted diplomatic relations with incumbent regimes while simultaneously cultivating and manipulating communist movements in those same countries The Chinese case offers a particularly interesting example of this dual policy for when the Chinese Communists came to power in 1949 their discovery of the nature of Moscow's imperial designs on Chinese territory sowed distrust between the two revolutionary powers and paved the way to the Sino Soviet split Drawing on newly available documents from archives in China Taiwan Russia and Japan this study examines secret agreements signed by Moscow and the Peking government in 1924 and confirmed by a Soviet Japanese convention in 1925 These agreements essentially allowed the Bolsheviks to reclaim most of tsarist Russia's concessions and privileges in China including not only Imperial properties but also Outer Mongolia the Chinese Eastern Railway the Boxer Indemnity and the right of extraterritoriality Each of these topics is analyzed in this volume and translations of the secret protocols themselves are included in a documentary appendix Additional chapters discuss Sino Soviet diplomacy and the parallel history of Soviet relations with the Chinese Communist Party as well as the origins and purpose of the United Front policy

Engaging China Anne Thurston, 2021-07-20 The importance of the relationship between the United States and the People's Republic of China has only grown since Richard Nixon's epochal visit in 1972 By the early twenty first century when the rise of China had become an inescapable fact most American policy makers and experts saw bilateral ties with China as the most consequential foreign relations priority for the United States In recent years even before the coronavirus pandemic the U S China relationship has rapidly deteriorated and the whole world has felt the consequences This book brings together leading China specialists to offer a retrospective on relations between the United States and China over the last half century and consider what might be next The contributors including academics leaders of China related nongovernmental organizations and former diplomats and government officials analyze the relationship from a range of perspectives political diplomatic economic social cultural commercial educational medical and military They reassess American engagement with China from the late Mao years onward covering leaders from Deng

Xiaoping through Xi Jinping The contributors highlight not only the accomplishments and hard won successes of engagement but also the mistakes and misunderstandings acknowledging the well earned distrust and genuine frictions that plague the relationship today Multidisciplinary and comprehensive Engaging China is a vital reconsideration for a time when the stakes of U S policy toward China have never been higher
